THE GRANGERS' PIC-NIC-A BIG TURN-OUT.

The attendance at the Grangers' picnic on last Thursday was quite large in spite of the unfavorable weather, a damp ground and rain during the forenoon. The crowd was almost as large as last year but only half what it would have been had the morning opened with promise of a fine day.

The organization was announced as follows:

President-James A. Keller, Centre Hall, Master of Co. Grange.

Vice Presidents :-Dr. Chas. Smith. Clinton co. John Rishel, Bellefonte, David Rhinesmith, do Phil. Gephart, Zion. Frank Brown, Boalsburg. H. L. Harvey, Milesburg. S. B. Leathers, Howard. Peter Hockman, Hublersburg. Jacob Kerstetter, Coburn. W. H. Bloom, Spring Mills.

J. A. Sweetwood, Centre Hill. Secretaries: Col. Jas. F. Weaver, Milesburg ; S. R. Gettig, Penn.

Opened with prayer by Rev. Mr. Mc. Gennis. The President in a few well chosen remarks welcomed those present to the 13 annual meeting of the Patrons of Centre Co., and introduced Hon. Mortimer Whitehead of N. J., Lecturer of the Nat. Grange, who spoke of the advancement of the order. Massachusetts has added 12000 to her membership, during the last year. Connecticut has more than doubled her membership during the same period. Never was the farmer so near on top as at the present. The Grange had accomplished more during the last winter than in its past experience. It forced the passage of the bill branding Butterine & Co., a fraud, and compelling the manufacturers to stamp its true name on every package. Only of the representatives of Penn'a voted nay among these Curtin and Kelley.

The speaker then alluded to the politician's ways of pulling the wool over the people's eyes, being one thing in one locality and another thing in the other. Evidence of hard times on every hand. What produces it? To some extent may be traced the discrimination and unjust and unequal taxation and the speaker denounced the action of the r. r. companies as high treason. Penn'a farm property has decreased from 1870 to 1880 68 million dollars; 540 millions loss in the

last 15 years on our crops. The speaker continued in this strain dwelling upon the wrongs suffered by the agricultural interests, and urged the farmers to assert their power at the ballot box and demand such legislation as will protect their interests.

INCIDENTS .- Many went to the ground in the morning in the face of the dampness and threatening rain, showing they were resolved to have their pic-nic, rain or shine.

Towards 11 a. m. the sky showed evidence of a clear-up and from that hour on to 1 wagons and buggies came rolling in at a lively rate. Over 400 rigs passed through Centre Hall alone.

The speakers' stand was fittingly decorated, and at the entrance to the ground proper were arches trimmed with green and a large American flag was suspen-

## THE VETERA ',' RE-UNION.

GREAT CROWD AT LEMONT.

Saturday last was the grandest day the Centre Co. Veteran Club yet celebrated. The day was fine, and the woods large. The crowd must have numbered 4000 to 5000 from all parts of the county.

The Pennsvalley train had over 1000 on board, of these 230 were from Centre Hall, 200 from Spring Mills and the balance from Coburn, Linden Hall and Oak Hall, The Bellefonte train had nine cars all crowded. Then there were hundreds of wagons and buggies from all adjoining localities.

There was an ocean of baskets filled with all those good things which Centre county's fair ladies so well know how to prepare. The woods was all that could be desired only that it was near 34 mile from the station, making it a little inconvenient for such as had children or bas. kets to carry. The main stand was de-corated with flags and wreaths, besides which the woods was dotted with stands for the sale of refreshments, and a brisk business was done by all of them.

Three brass bands were present, namly, Spring Mills, Linden Hall and Lemont.

Gen. Beaver came up from Philadelphia by the Pennsvalley train, and being President of the organization, called the meeting to order, about 11 a.m., followed by an address of Welcome from Prof. Heston of State College, which was well received and ordered to be printed. Gen. Beaver, on behalf of the Veterans, responded briefly in some well-timed remarks. Committees were then announced and an adjournment for dinner.

The ground was dotted with so many cloths that it looked like a huge crazy quilt every patch loaded down with pies, cakes, chicken and other cold meats, on which a brisk attack was made by the Veterans, home-guards and camp followers, and many of the dainties successfully "surrounded", but the supplies were so numerous that some of them got back whence they came to await a second onslaught. After kind invitations from Dr. Taylor, J. I. Thompson, J. Bottorf and others, we in company with Abe Kerlin surrounded some of the good things on the cloth of Mrs. More of near this place, topping off with hot coffee and cake from Mrs. J. I. Thompson and apples and pears from Mrs. D. Hess—all of whom will consider our hat tipped from this distance. It was a successful raid.

Coffee and hot water were supplied from large iron kettles to all who desired such.

At 2 all were called to order. Comrad Keller, ch. com. on next meeting, announced that Coburn had been fixed ipon for next year's Re-union and that the people of that locality had deter-

mined it should be the largest and best ret held. Comrad, Dr. Christ, ch. com. on organ-

zation for the ensuing year, then reported as follows: President-Gen. Jas. A. Beaver.

-The railroad thro' our valley is prov-

ng both a convenience and a benefit to the people. All along the line we no-tice marked improvements-new houses, new business enterprises, and a gen-eral activity among all trades. It strikes us no class feels the good effects of the railroad so much as the farmers. The A game of base ball will take pla lugging and tugging of crops to a distant market, with wear and tear and toll, and loss of time, for every load of 40 bushels wheat, is a thing of the past, and in this respect alone an important item for every farmer. Then it has also brought him better prices for his products. Then there is the convenience for travel, a saving of time and money, with greater

comfort. The passenger and freight traffic of the road are steadily on the increase, and already the road is paying. Thousands of which would have been of no account and remained to rot on our mountains but for the railroad. Hundreds of men get employment on lumber jobs, etc., that never would be dreamed of; this has called up new local markets for produce and merchandise, and new jobs for mechanics. The REPORTER can justly feel a little proud in having lent its aid towards forcing a completion of this important improvement and to see now that its efforts have resulted in general good. Those men who stood by us and with us in pushing for the completion of the railroad can point with pride to their

efforts in this behalf and can be looked upon as having done a great work for our valley for which they deserve every citizen's gratitude.

-Mr. John Arney living a short distance east of this place, lost a valuable horse from colic, on Wednesday night, 15. The horse was one of a fine span of matches, hence the loss is all the more regretted by Mr. Arney.

SPECIAL NOTICE. To Whom it may Concer

Some parties and firms finding that the Fence Machines they manufacture have proved to be failures when practically tested, and are inferior machines in every respect, and finding that the very popular Improved Henley Monarch Fence Machine, being a complete success as a light-running, easy-working, practical, durable, and superior machine, is rapidly superceding and drivng them out of the market, are making a desperatestruggle to keep their inferior and frail goods before the public, and for this purpose have resorted to the unbusinesslike and risky method of attempting to injure my immense trade, and the business of my agents, by flooding the country with circulars and other printed matter, containing misrepresentations, and foel-ish threats of prosecution against other manu-facturers and parties intending to purchase oth-er than their inferior machines. This character of competition is scarcely worthy of notice, and is only indulged in by parties and firms who have nothing to lowe and everything to gain by such misrepresentations, to prevent the introduction and immense sale of the Monarch Machine. Fear-ing, however, that some persons might be influ-enced thereby, I deem it best to issue this "spec-ial Notice," to inform my numerous patrons, and the public generally, that all such statements as appear in circulars, newspapers, or other printed matter, reflecting in any manner on the Monarch Machine, or its manufacture are without founda-tion. I wish to assure the public that I will in-demnify and hold harmless any and all parties who purchase and use my manufactures of any description; and further, under the authority of the best legal talent, I desire to give "special no-tice" that where any such unprincipled means, as referred to hold the authors of such means re-sponsible for all damages accruing therefrom My financial standing, and the position held by me as a manufacturer of leading goods of their class, is a sufficient guarantee of full protection to both my agents and patrons. And as a further assurance of good faith on matter, containing misrepresentations, and foel-

Public notice is hereby given that ! warrant and defend the sale made by me of each and every one of the Improved Henley Monarch Fence Machines, and guarantee to the purchasers, users, and venders of said Machines, full protection against the claims of all parties for infringement or royalty.

For my financial ability and responsibility to make the guarantee good, I would refer all par-ties to the Union National Bank of Richmond, Indiana, and the Third National Bank of Cincin-natti, Ohio. And for general references as to my financial standing and business integrity, I would refer the public to any leading banker in the Uni-ted States, or to Bradstreet's, or any other Com-mercial Reports.

ted States, or to Bradstreet's, or any other Com-mercial Reports. The attempt of any parties to deceive the farming public by the publication of false state-ments and willful misrepresentations will fail, and farmers are quick to recognize this fact, and also to endorse and adopt the best class of farm-ing implements, as they have universally done with the Improved Monarch Fence Machine. with the improved Monarch Fence Machine. My patents are radical, and are valuable ones. i have acquired and established them at large ex-pense to protect my own business, and to protect the interests of thousands of patrons. I have done this on the highest and most reliable au-thority of counsel and experts that could be found in this country. I have full confidence in my rights, and have always endcavored to exer-cise them fairly. My patents are valid, and will be defended on their merits in the United States Courts against all comers. I have entered suit in the U. S. Circuit Coud at Indianapolis, Ind, against the Richmoni Check Hower Co., for infringement on my patent No. 242,010, dated May 18th, 1886, and am pushing said suit to issue as speedily as possible. In conclusion I would say that the Improved Monarch Fence Machine has won its way into popular favor on its merits as a superior machine, in material, construction, operation and the char-acter and quality of work it performs. The im-mense demand for it shows what a firm hold 21 has on the iavorable opinion of the farming com-munity, and that is will be recognized in the fu-ture as in the past, as the only leading and per-fect Fence Machine in the narket. ----- The entertainment in town on last Thursday evening was a tame affair. We expected something good, which lent all the more to our disappointment. The singing and attempt at a play made one weary. The clog dancing-weil we have a coon in town that can take the shine off them. The only performance worth seeing was by the contortionist which was right good. A large crowd was present which went away with a feeling of disgust. "Sold again and got the cash."
