

**FOUND AT LAST.**

**THE LONG OVERDUE ANCHORIA OFF ST. JOHNS, NEWFOUNDLAND.**

Many Anxious Minds Relieved of Their Fears—A Broken Shaft Caused the Delay—The Big Ship Drifting With Sails With Adverse Winds and Seas.

ST. JOHNS, N. F., Oct. 11.—A small boat from the Anchoria arrived here yesterday afternoon with eight of the steamer's crew, who reported her seventy miles off this place with a broken shaft. The steamer Miranda was at once sent to the Anchoria's assistance, and will probably reach here in a few hours, as the disabled vessel is likely to have made up a considerable part of the seventy miles since Friday, when the small boat left her. Her passengers and crew were well. The Anchoria broke her main shaft

when only a few days out. After consultation between the officers and passengers it was decided to continue the voyage. It was considered likely that the vessel would soon encounter another steamer and obtain a tow, or be enabled to transfer her passengers and send them on their journey. No such opportunity, however, was afforded, and very slow progress was made under sail for upward of three weeks, much of the time against severe and contrary gales. The vessel behaved splendidly, and there was no apprehension of danger among the passengers, who endured their enforced delay with good nature and forbearance.

**O'REILLY ON KICKERS.**

The New York War Irishmen Get a Turning Over.

DETROIT, Oct. 11.—Rev. Dr. Charles O'Reilly, treasurer of the Irish National League of America, in reference to the action of the Twentieth Ward branch of New York, condemning the financial management of the League, said:

Look at the names of the men who spoke at that meeting. I can prove to you by my official books of account that the League does not know them as contributors or otherwise. I can prove to you, also, that they are extremists, kickers and cranks. They have been followers of Rosa and the dynamite propagandists, and are now filled with a blind desire for war. As between a dynamiter and a war Irishman I have more respect for the former. His principles may be vicious, but they are not utterly impracticable. He can raise money enough to buy dynamite and hire a fool to use it. This he may kill someone, but the war Irishman—suppose we have collected \$1,000,000—how long would that keep a single regiment in the field? That's what I ask them.

**SEEKING PLEDGES FROM CANDIDATES.**

Col. Sawyer's Reply to the New Hampshire Labor Committee.

DOVER, N. H., Oct. 9.—Col. C. H. Sawyer, the Republican candidate for governor, in replying to the Labor state committee's request for a candidate's pledge, says that he has subscribed to the principles embodied in the Republican platform, which platform

COL. C. H. SAWYER.

goes further to support the interests of the laboring man than does the organization which the committee represents, especially in its declarations upon protective tariff and the reservation of public lands for actual settlers. If elected he should perform his duty without fear or favor, and should support all reasonable and well considered legislation toward bettering the condition of the working people.

**Minister Cox at Home.**

New York, Oct. 11.—Hon. S. S. Cox, minister to Turkey, arrived here on the steamer La Champagne yesterday. He was met by many friends and warmly received. He said he came home on a mission connected with official relations with Turkey, and would proceed to Washington to report. He declared that he did not know what course he should take in regard to becoming a candidate for congress. It would depend upon the outcome of his mission. He had not resigned his present position and would retain it if by so doing he could better serve the administration.

**A Bronze Elk Unveiled.**

PHILADELPHIA, Oct. 11.—Several thousand persons witnessed the unveiling of a bronze elk erected by the Order of Elks at its burial plot in Mount Moriah cemetery yesterday afternoon. Delegations of the order were present from New York, Albany, Hartford, New Haven, Baltimore, Boston, Cincinnati, Washington, Richmond and other cities. A banquet was given the visiting delegates last evening by the local lodge.

**Killed With His Own Gun.**

WATERBURY, Conn., Oct. 11.—While out shooting Saturday afternoon, near this city, Henry J. Fohsom, age 42, of Brooklyn, was killed by the accidental discharge of his gun. The contents of both barrels took effect in his throat, killing him instantly.

**A Burning Ship.**

KEY WEST, Fla., Oct. 11.—The fire on the Spanish steamer San Juan, which put into this port, is still burning. The city fire engines have been working since last Saturday night on the steamer and have kept the fire smothered.

**Optimism in a Tea Chest.**

SAN FRANCISCO, Oct. 11.—Optimism valued at \$20,000, brought from China on the steamer Helge, which arrived Thursday, has been seized by the customs authorities. The drug was consigned to tea to Chung Tek & Co., of San Francisco.

**JAELHNE'S SENTENCE.**

The Court of Appeals Confirms the Lower Court Decision.

ALBANY, Oct. 5.—The court of appeals has affirmed the decision of the supreme court in the case of Henry W. Jaehne, the convicted "hoodie" alderman, who is consequently in a fair way to serve out his sentence of ten years imprisonment at Sing Sing.

The prevailing opinion was written by Judge Andrews. It recites, in substance, that the principal question is whether the crime of bribery, committed by a member of the common council of the city of New York, is punishable under the penal code, or only under the New York city consolidation act of 1882. The material of the question is in controversy.

From The N. Y. Sun.

On the fact that the defendant was indicted and convicted of bribery as a member of the common council, under section 72 of the penal code, and sentenced under it; whereas, if he was punishable only under the consolidation act, the maximum punishment could not have exceeded two years in the penitentiary. The most cursory glance, the court asserts, shows the comprehensive character of the provisions of the code relative to bribery. Section 72 is even more specific as to the officers to be included in its provisions. It includes not only a judicial officer, but also any person who executes any of the functions of a public office. Subsequent designations in the section confirm this definitely. It is plain that a member of a common council comes under this designation. In this decision Judge Andrews' opinion was concurred in by Judges Ruger, Danforth, Miller and Finch. A dissenting opinion was submitted by Judge Rappallo, in which Judge Earle concurred.

**The Speaker of the House.**

NEWPORT, Ky., Oct. 5.—The Democratic convention in the Sixth Kentucky district

JOHN G. CARLISLE.

nominated John G. Carlisle for re-election to congress by a two-thirds vote.

**ANARCHISTS FROM AMERICA.**

Alleged to Have Plotted to Kill an Emperor.

VIENNA, Oct. 11.—The police authorities here furnished to the press an account of the recently discovered plot to kill the emperor and destroy the city. The details as officially vouched for suggest an atrocity of any dynamite conspiracy ever before revealed. The scheme, which was one of diabolical ingenuity, was hatched in America, and directed by persons residing in London, but was being carried out mainly by Viennese anarchists lately returned from America. One group was detailed to burn the city, another group had charge of the dynamite operations, and still another group forged the necessary official documents and coined money for the expenses of the enterprise. Parties were detailed to set fire to the palaces and superb buildings in the suburbs of Pauders, Untermeising, Hetzenberg, Meidling, the Favoriten district and elsewhere. The police, after learning of the plot, refrained from interference until the plans of the conspirators were nearly matured. Those concerned were mostly Czechs and Germans. Up to the present time seventeen arrests have been made.

**The President and Geronimo.**

WASHINGTON, Oct. 11.—A delegation of prominent citizens of Arizona called on the president a few months ago and protested against the war department making any terms with Geronimo through which it might be possible that he could again go on the warpath. The president assured them that the war department would be instructed to capture Geronimo and turn him over to the civil authorities of Arizona. The responsibility for the proper disposition and punishment of Geronimo would then rest upon the territorial officials. It is doubtful now if this can be done, but in order to ascertain definitely the president has ordered the full correspondence to be sent to him that he may be able to know how to proceed in the matter.

**The Knights Parade.**

RICHMOND, Oct. 11.—To-day was devoted by the Knights of Labor to a grand parade, which was an imposing one, and every delegate in line and marched through the streets in fine order and made a good impression. This was the first time that many of the citizens had had an opportunity of seeing the delegates in a body. To-day is fully given up to recreation and to-night and hereafter the sessions will be confined more strictly to the business interests of the order.

**Tons of Silver Dollars.**

WASHINGTON, Oct. 6.—The silver dollar circulation of the United States, which was slightly below \$60,000,000 on Sept. 29, has now passed the limit, being far greater than ever before in the history of the country. The treasury officials say that it may rise as high as \$65,000,000 and then decline rapidly as the new silver certificates are put out.

**An Extorted Confession.**

SKOWHEGAN, Mo., Oct. 7.—Hurd, the youth who is in jail here charged with burning two buildings in Harmony, has retracted his confession. He avers that the confession was made through fear of the detectives who arrested him, and that the detectives forced him to make it. He now says that he had nothing to do with the fire.

**Politics in Western New York.**

ELMIRA, N. Y., Oct. 4.—C. D. Baker has been reappointed by the assembly by the Republicans of the Second district. Mr. Baker has served three terms. The delegates to the congressional convention will go pledged for Ira Davenport. The convention will be held at Penn Yan on the 11th inst.

**Republicans Gain in Connecticut.**

HARTFORD, Oct. 5.—Returns from 100 towns gives the Republicans 54 towns; the Democrats, 31; divided, 15. The same towns last year stood: Republicans, 40; Democrats, 54; divided, 17. Not Republican gain, 5 towns.

**THE PENNANT WON.**

CHICAGO TAKES OFF THE HONORS OF THE NATIONAL LEAGUE.

End of an Exciting Contest Between the Baseball Clubs for Supremacy—The New York Giants Take Third Place, with Philadelphia Close Upon Them.

New York, Oct. 11.—The League baseball championship is ended and the Chicago club, for the sixth time in eleven years, has won the pennant. It has been all in all the most exciting contest of all the years since baseball playing has taken its place as one of the standard professional amusements. The leading clubs have fought nobly for the honors, and the champions have had to attend closely to their hitting to hold their position. Even up to the very last day the prize was within reach of the Wolverines. Had the Detroit club won its two games Saturday from the Philadelphia and Chicago lost the Saturday game the Detroit club had covered itself with glory, however, by taking second place, as until this season they have not been looked upon as in the race for the leadership. The addition of the big four from the Buffalo team, however, gave this club a new complexion, and they have held up to a creditable record from the start.

Perhaps the most disappointed set of men is the alleged giants of New York and their friends. This club for some reason appeared to lose their grip in the last month, and dropped steadily down the scale until they were in great danger of being sent third place to the Philadelphia, who had played with vim in the last few weeks of the contest.

Had the season lasted two weeks more, at the rate of the last two weeks, Detroit would have undoubtedly taken first place, with Philadelphia third. The season has been very satisfactory, financially, with most all the clubs, and especially so to the four leaders. From the activity shown on all sides to secure good men for the next season it may be safely predicted that 1887 will witness the most spirited contest that has ever been known. Ball playing is rapidly being reduced to a science, and with each succeeding year's work weak points are discovered and renewed efforts are made to strengthen the weak places. The St. Louis club will have no difficulty in maintaining the lead in the association games, and so secure both honors to the western clubs. The two champion clubs have arranged a series of games for the world's championship.

**THURTY WON BY THE ST. LOUIS BROWNS.**

CHICAGO, Oct. 11.—Seldom has such interest in a baseball championship race been manifested in this city as during Saturday, when the reports of the Philadelphia-Detroit game at Philadelphia and the Boston-Chicago game at Boston were announced on the bulletin boards about the city. It was known that to make sure of its hold upon the pennant the White Stocking would have to win the game with St. Louis.

The news of the Chicago's victory and the Detroit's defeat was received there with cheering by the crowds. On learning of the club's victory President Spaulding of the Chicago club, sent a telegram to Capt. Anson in which he said: "You have clinched the pennant in great style. I knew we could depend upon the old war horses in a pinch. You have won the league championship, now come home and win the world's championship." The telegram also notified the members of the team that a suit of clothes awaited the order of each and that the team collectively should receive one-half of the receipts in the coming games with St. Louis. The first games with the St. Louis Browns Stockings will be played at Chicago on Nov. 18, 19 and 20, and three games in St. Louis, on Nov. 21, 22 and 23. The seventh game, if one is necessary, will be played at a neutral point. President Spaulding has chosen Messrs. McQuaid and Kelly, of the American association, umpires, and President Von der Ahe has chosen Messrs. Fennell and Quinn, of the league, to constitute a board of umpires.

**Following is the score:**

**THE NATIONAL LEAGUE.**

Team	Won	Lost	Won. Lost.	
Chicago	35	30	55	51
Boston	31	36	48	43
New York	28	39	39	39
Philad.	27	40	36	31

**THE AMERICAN ASSOCIATION.**

**THE IMPROVED HENLEY MONARCH FENCE MACHINE.**

COMMON SENSE REASONS WHY THE IMPROVED HENLEY MONARCH FENCE MACHINE IS THE BEST AND HAS NO EQUAL.

- 1 Because the wire is stretched the full length of the field before the weaving is commenced.
- 2 Because any sized wire can be used, and either 2, 3, 4, or 5 double strands can be used, weaving all with equal facility.
- 3 Because any size, length, or style of picket, or slat, or board, can be used, weaving fancy iron pickets equally well and solid.
- 4 Because it will make a fence over rough and uneven ground, or up and down hill alike, making a good fence as on even level ground; and the machine being adjustable, the pickets are all woven plumb.
- 5 Because the Monarch machine stretches the wire tighter, thus making the strongest and best wire and picket fence.
- 6 Because any one, man or boy, can operate it, and there are no parts to get out of order and repair.
- 7 Because it is made of the best materials, and, with proper care, will last a life-time.
- 8 Because the price is within the reach of every farmer.
- 9 Because it is the only machine that forces the slat or picket firmly against the wire, thus securing the slat in such a solid and permanent manner that it cannot be pulled out, and breakage is impossible.
- 10 Because the fence made by this machine will turn all kinds of stock, and is much stronger than any barb wire fence, and completely obviates all danger of injury to stock.
- 11 Because by weaving past the post, and fastening the wire strands to the posts with staples, and not nailing the slats to posts, thus keeping the wood parts from coming in contact with each other, it will not hold the moisture or rot. This is a very important matter, as all boards in board fences soon rot off at post, and occasion continued expense for repair.
- 12 Because all kinds of old material can be used for making new fence.
- 13 Because it makes the handsomest, best, strongest, and most durable fence, and is the only first-class, practical fence machine in the world.

**EASILY ACCOUNTED FOR**

The success of Baugh's \$25 Phosphate as an excellent crop producer and permanent improver of the soil, is easily accounted for. It is made of the bones of animals, and with special regard to a general adaptability as a plant food.

Every particle of which bones are composed, is a direct food of vegetables. We render this food immediately available in the \$25 PHOSPHATE. Which we claim to be a very special advantage, as it gives the crop an early start and sustains it until fully matured, besides permanently improving the soil.

MOORE, Pa., Jan 1st, 1885

"Having thoroughly tested BAUGH'S \$25 PHOSPHATE, side by side with other makes costing \$35 and \$40 per ton, I am satisfied that Baugh's is the best for first crop as well as permanent results. I had better wheat and cut more grain for two years when I used the \$25 Phosphate. I will use no other kind and advise all farmers to buy Baugh's \$25 Phosphate and see results for themselves on their own ground."
