CENTRE HALL VS. MILESBURG.

On Saturday forenoon a game of ball was played between the Centre Hall and Milesburg clubs, on the grounds of the former at this place. Our home team, although out of practice for over four for battery, but it was of no use; our sluggers thumped the ball all over the field, and in one inning scored 15 runs. The game was rather too one sided to be interesting and this possibly accounts for | be the principle. the many errors made. The following is the score by innings;

LOW WATER. -There is general complaint of low water from all parts of our county. Farwells are almost dry, springs weak and the streams ditto. We do not remember and Abe. Kerlin, accompanied by other and Abe. Kerlin, accompanied by other and Abe. mers find their sisterns empty, many of rain to replenish the water supplies. At Centre Hall we are more fortunate; while our springs of excellent water do get low, yet thus far there has always been enough and will continue to be if our people will be watchful against unnecessary waste, and do not permit their hydrants to be leaky, in which respect many are careless. When farmers in this vicinity get out of water they always fall back upon Centre Hall for their supply, as we have enough for all when proper care is had not to waste water. In the morning when the flow is full it would be a good idea for each family on the higher points to draw an extra tub of water as a supply against any stoppage at noon or evening from the constant drawing for water.

THAT FAIR GROUND.

The Reporter's suggestion, in a recent issue, to have a fair ground and revive our county fairs, has met a friendly response all around. The old fair ground has become a furnace plant, and the old society for some reason has become insolvent. Centre Hall, on account of its central location, railroad and an admirably suited tract of land for a half mile race-course, presents the best location for a new fair ground and in the heart of the agricultural portion of the county. As we said two weeks ago, it will require \$6000 of ready cash for the first year's first fair to make additions. We think | commodate excursionists to the show. the investment will pay, but, that is a secondary consideration, we want a fair down some of our local correspondence. for the credit of our great county and Jacob Wagner of near Tusseyville every farmer, business man and mechanhad a horse die of consumption one day ic should evince county pride enough to take a little stock.

There already is a starter to the Reporter's appeal: Gen. Beaver, always in favor of any meritorious project, is good for \$500. The Centre Reporter is good for \$300. Then there are favorable responses from citizens in different sections, among others, Messrs. Irvin, Stew--Mr. Jacob Royer, of Madisonburg, art, Stover, Gilliland, Dale, Harter, Wolf and others. Now keep the ball rolling.

reply and end of the talk.

FLY IN WHEAT.

-We have fuller information about the ravages of the fly in the grain fields of Harris township and beyond. A reliable informant says that the damage up that way is pretty general, nearly all the fields being attacked. Many farmers have found it necessary to sow their fields again. Some have sown rye where the fly has killed the wheat. One farmer, Mr. Muthersbach, has examined the wheat plant and in some has found the fly to the number of 32 on a single stalk. With the continuation of the dry there is danger of further spread of this

THE BELLEFONTE GLASS WORKS BURNED.

The Bellefonte Glass Works were totally destroyed by fire last Sunday morning. The flames broke out about 5 o'clock and burned fiercely. The loss is estimated at \$50,000, on which is an insurance of \$20,000. The capacity of the works was 1000 boxes a week. The company annually paid out to labor in cash about \$45,000. Seventy-five men are thrown out of employment. The works originally cost \$60,000. They were owned by the present stock company, consisting of Messrs. Ardell, Munson, Sech ler, Anderson, Josephs, McFarlane, Tel-ler and Sayer, under the name of the Bellefonte Glass Company, Limited. The fire is supposed to have been of incendi-

Porr, living in this holy estate for 17 years, less two days. She never had the bliss of a childish voice in the home, thus leaving only her husband to mourn her early loss. Mrs. Luse was attached to her own home to the almost entire exclusion of all association with her neighbors and friends. For this there was of course special reason along with a shrinking disposition. were a sprained ankle, from "which she place for ready-made clothing in the suffered no little inconvenience, and also more particularly, that dread diseasediabetis, from which she suffered excrutiating pains, and which she kept a profound secret, preferring to suffer in silence, her husband alone knowing the character of her trouble. The fact of this ignorance on the part of many of her real condition, led to uncharitable judgments concerning Mrs. Luse. It was thought that she was selfish and unsociable. Had the truth been known, it would have appeared that for long years was too much for her strength, and to whom, in the midst of the feast of religious rejoicing, during the Synodical meeting, she slowly, but surely, and finally yielded. all comers. polis, Ind. against the Richmonn er Co., for infringement on my patent dated May 18th, 1885, and am pushing 342,010, dated May 18th, 1880, and am pushing i suit to issue as speedily as possible.

In conclusion I would say that the Improved march Fence Machine has won its way into pular favor on its merits as a superior machine, material, construction, operation and the charger and quality of work it performs. The imense demand for it shows what a firm hold, it is the favorable outpien of the farming comre as in the past, as the only leading and per-et Fence Machine in the market. I invite hop-table competition, and challenge the world to reduce its equal.

Respectfully,

M. C. HENLEY,
