OUR ORE BEDS.

With the erection of new iron furnaces at Bellefonte we expect to have a boom for Penns valley ore, which here-tofore was not in demand for want of transportation facilities. The railroad supplies this want and new furnaces will create a demand.

We have veins of ore running from the Gregg township line to Pinegrove. The banks on the Wagner farm near Centre Hill are rich and have been operated. There is ore on the From and other farms near Tussyville, on Emerick's and Hoffer's at Centre Hall, the old Gregg mine bank, Ross' and S. Boal's in Harris township, and thus on to Scotia. Operations on the ore fields would undoubtedly liven up things in the valley, help our business men and create a beter local market for farmers. It may take several years to develope all this, but the Reporter thinks it's bound to

AN ARTIST.

Miss Mattie Kepler, of Altoona, for merly of near Pinegrove Mills, of the old Kepler family, is an artist of fine tastes and skill. Making a hurried call at her home, a few days ago, Miss Kepler kindly showed us paintings from her own hands. We found her work executed with elegance and such as would grace the parlor of any home. The pieces shown us were | three boys and three girls. large sized landscapes on canvass in gilt frames, looking fully as well as those which sell for high prices. An enlarged crayon portrait of her mother, life size, we found well executed, as the original, mother Kepler, was present which enabled us to fully judge of the merits of the portrait as a likeness and in its artistic touches. We do not hesitate to say that the work shown us was as handsome as the fair artist, and we are proud that Miss Mattie hails from Centre county.

-It is evident there is great carelessness by some parties in the use of their hydrants, in consequence of which others have been deprived of water of ate. For six or eight days, recently, there was scarce any water during the day, and many thought the scarcity was owing to the consumption by the steam mill. On Thursday last, however, there was full flow and pressure from every hydrant all day and the mill running full capacity. This proved that the previous scarcity was caused by willful negligence in letting hydrants flow and hav the propular old store. Knowing Mr. Runkle to be a warm friend of Mr. W. B. A HOTEL KEEPER'S LIABILITY. An interesting point of law was decided edrecently by Judge Finletter. The plain-tiff boarded at a notel and had a valise full of clothing stolen from his room. He sued to recover its value and the defendant claimed that he was not liable because of a provision printed at the top of the register, that goods must be checked at the counter to make the proprietor responsible. The Judge held that the proprietor of a hotel was always respon

sible for the goods of his guests unless here was an express contract to the contrary. The printing of such a provision at the top of the page on the register, without calling it to the guests attention was not such an express contract. The the to favor of the planintiff for \$41.20.
