

# LIBERTY UNVEILED.

## THE BIG BRONZE STATUE IN NEW YORK STATUE

Formally Presented to the United States by the French Sculptor Whose Name It Bears—A Great Land and Water Parade Marked the Event.

NEW YORK, Oct. 29.—The greatest event of an international character which has occurred for many years was that of the formal inauguration yesterday of the statue of "Liberty Enlightening the World." The day opened with a drizzling rain, but that did not deter the people from coming from every direction in the surrounding country to witness the

THE PRESIDENT VIEWING THE PARADE.

pageant or take part in it. A land parade which required four hours to pass a given point was the attraction in the earlier part of the day. This was witnessed by several hundred thousand people, and was reviewed by the president, members of his cabinet, governors of several states, the French visitors, and other distinguished persons. The most notable feature was a marine parade in the bay around Liberty island, in which several hundred vessels took part, and upon whose decks the multitude surveyed the unending ceremonies. A heavy fog hung like a pall upon the horizon, and the rain came down in gentle showers, but all the same the enthusiasm of the masses was too great to be deterred from taking part in the services.

THE MARINE PARADE.

On Liberty island Gen. Schofield was master of ceremonies, and introduced Count De Lesseps, who spoke in French, and presented the statue to the committee representing the United States. Senator William M. Everts, of the committee, presented the same to President Cleveland, who accepted it in the name of the American republic as a gift from the French republic. Then Chaumeyre M. Depew delivered the principal address on the occasion, in which he reviewed the history of the friendly relations between France and this country, and especially the help given in the Revolutionary war by the distinguished French soldier, Gen. Lafayette.

DEPEW SPEAKING.

Owing to the rain in the evening the fireworks and the lighting of the torch in Liberty's hand was adjourned to Monday night.

### Boston's New Team.

BOSTON, Nov. 1.—The Boston league team for 1887 is now complete and will consist of the following: Pitchers, Radbourne, Stenmeyer, Buffington, Conway; catchers, Dally, Gunning, Tate, O'Houris; first base, Morrill; second base, Higgins; third base, Nash; short stop, Wise; left field, Hornum; center field, Johnston; right field, Poorman; substitute, Sutton. The club has been materially strengthened before and behind the bat and at second base. The out field is considered as good as already in the league. Although the team is already made up the directors will not miss any opportunity to secure first-class players.

### James Russell Lowell to Marry.

LONDON, Nov. 1.—The engagement is privately announced of James Russell Lowell, ex-minister of the United States, to the dowager Lady Lytton, widow of the late and aunt by marriage of the present Lord Lytton. Lady Lytton has, like Mr. Lowell, been already twice married. By his marriage with the dowager Lady Lytton Mr. Lowell will become a sort of stepfather of the widow of Lord Frederick Cavendish, that lady being the second daughter of Lord Lytton and niece of Mr. Gladstone.

### Chinese Driver Off.

SAN FRANCISCO, Oct. 29.—Ninety Chinaman potato harvesters in the vicinity of Bloomfield were recently driven from their homes by mobs and obliged to flee to San Francisco and other cities, abandoning all their effects in order to save their lives. Warrants were issued for the arrest of eleven of the men who took part in the outrage, and five of them have just been arrested. They are members of a "league," which has warned farmers to refuse employment to Chinamen or be boycotted.

## INSURANCE MEN INJURED

By Heavy Printing Presses Falling Upon Them.

CHICAGO, Nov. 1.—The large stone building Nos. 105 to 109 Madison street, was completely gutted by fire at 5 o'clock Sunday morning. Fire originated in the bookbindery of William Wilson & Sons, and spread to the printing establishments of Knight & Leonard and C. W. Magill, the three firms named occupying the upper floors of the building. The ground floor was occupied by the Good-year Rubber company and Salisbury & Cline, rubber dealers. Shortly after the firemen had gained control of the fire the top floor fell in with its weight of printing presses, some of which went crashing through to the basement, where a number of men belonging to the fire insurance patrol and hook and ladder company were at work covering goods with tarpaulins. The men were buried in the debris, and nearly a quarter of an hour passed before they were rescued. A rescuing party with axes and bars was hastily organized, and worked diligently, succeeding after a great deal of perilous labor in bringing the imprisoned men to the surface. Of those buried A. C. Papineau, a member of the insurance patrol, was found to be dead, it being supposed that he was killed outright, as his companions did not hear his voice while they were imprisoned. He was 59 years old, married and father of three children, and has been nine years in the patrol service. Capt. James Hume, Augustus Bergemecke, Patrick Mullen, William Carroll and William Darby, of the insurance patrol, and Edward McGovern, of hook and ladder company No. 3, were seriously injured. McGovern, it is thought, will die. The loss from the fire will be about \$300,000; insurance about half that amount.

## A SUNDAY SHAKE

Produces An Artesian Well with Warm Water at Charleston.

CHARLESTON, S. C., Nov. 1.—Another light shock of earthquake was felt here at 2:30 Sunday afternoon. It was also felt in Augusta. There was scarcely any detonation accompanying this disturbance, but the swaying motion of the earth was quite distinct, and was very generally felt all over the city. The vibrations were of moderate energy and lasted eight or ten seconds, causing houses to creak like a ship rocking on the water. Shortly after the shock a spring of clear, pure water appeared in the custom house yard, and is still running at the rate of a gallon a minute. The water is said to have been hot when the flow began.

SUMMERVILLE, S. C., Nov. 1.—Two slight shocks of earthquake were felt here, one at 2:21 p. m. and the other at 4:36 p. m.

## MRS. A. T. STEWART.

The Widow of the Late Merchant Prince Dead.

NEW YORK, Oct. 28.—Mrs. Cornelia Mitchell Stewart died in New York city at her mansion on Fifth avenue, on the 25th inst., at the advanced age of 84 years. She was

MRS. A. T. STEWART.

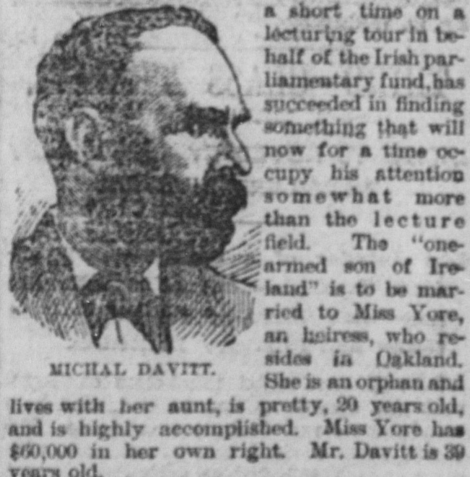

buried this afternoon at Garden City in the crypt, which was intended to contain the remains of her husband and herself. A. T. Stewart's body was, however, stolen before the crypt was finished.

## Mr. Blaine as a Humorist.

WILLIAMSPORT, Pa., Oct. 28.—Mr. Blaine and party arrived here late yesterday afternoon, and were welcomed by several hundred people, with bands of music. They were escorted to the park, where about 8,000 were gathered. Mr. Blaine's speech was freely interlarded with humorous illustrations. The audience was enthusiastic.

## Michael Davitt to be Married.

SAN FRANCISCO, Oct. 26.—Michael Davitt, the Irish patriot, who has been on this coast a short time, on a lecturing tour in behalf of the Irish parliamentary fund, has succeeded in finding something that will now for a time occupy his attention somewhat more than the lecture field. The "one-armed son of Ireland" is to be married to Miss Yore, an heiress, who resides in Oakland.

MICHAEL DAVITT.

She is an orphan and lives with her aunt, is pretty, 29 years old, and is highly accomplished. Miss Yore has \$50,000 in her own right. Mr. Davitt is 39 years old.

## Anthracite Interests.

MARCOY CITY, Pa., Oct. 28.—The Lehigh Coal and Navigation company say they have discovered coal enough in their No. 8 colliery at Coaldale to last thirty-five years, and make it the leading mine in the Anthracite region. The Mahonoy City Colliery company have struck the Buck Mountain vein, after long tunneling, and are getting an unusually thick and fine variety of coal. The Reading company are working night and day preparing the Brady colliery for resumption of work.

## Advices from Hong Kong.

SAN FRANCISCO, Oct. 29.—The steamer San Pablo has arrived from Hong Kong bringing advices as follows: The mortality from cholera is abating, although still enormous. From Sept. 27 to Oct. 7 there were 6,014 cases and 4,455 deaths. In Tokio 483 new cases have occurred and 409 deaths. Returns for the four weeks ending Sept. 25 give a total of 24,908 cases and 23,774 deaths. The average mortality is over 68 per cent.

## A \$100,000 Misunderstanding.

ZANESVILLE, O., Oct. 30.—By a collision of the Baltimore and Ohio west bound fast freight and an east bound freight, at Blackhead, last night, two engines and twenty-seven cars, with their contents, were totally destroyed. A tramp was seriously injured, and the track was blocked till a late hour. The loss to the railroad company is about \$100,000. A misunderstanding of orders caused the collision.

## Civil Service and Promotions.

WASHINGTON, Oct. 28.—Civil Service Commissioners Oberly and Lyman have returned from an inspection of the public offices in Philadelphia and New York. The commissioners believe that no additional legislation is required to put a general system of examinations for promotion in force.

## A MONSTER PARADE.

Fifty Thousand Workmen Marching Through the Streets.

BRUSSELS, Nov. 1.—The grand demonstration of workmen which had been looked forward to by the authorities with some apprehension took place at Charleroi. Five hundred women clad in deep mourning led a procession of 12,000 persons gathered from the suburbs into the town where they joined a body of 35,000 already assembled. The combined bodies, numbering nearly 50,000, paraded the streets for two hours amid the greatest excitement, but in perfect order. Numerous bands of music accompanied the procession, which bristled with flags, banners, etc., bearing devices and mottoes denoting the pitiable condition of the workman and suggesting reforms of every conceivable character. Meanwhile delegates representing the paraders waited upon the burgomaster and the aldermen at the Town hall and read to them an address signed by representatives of all the leagues in process demanding universal suffrage and amnesty for all of the men who were convicted and imprisoned for rioting during the strikes of last spring.

The burgomaster promised the delegates to transmit their requests to the government, which, he said, was engaged in investigating the condition of the workmen, with a view to redressing their grievances. He congratulated the deputation upon the perfect order observed by those participating in the demonstration, and asserted that their conduct on this occasion would go far toward securing for them the concessions they demanded. At the conclusion of the parade the crowds dispersed quietly.

## FRANK WALWORTH DEAD.

The Celebrated Sturtevant House Assassination Recalled.

SARATOGA, Oct. 30.—Frank H. Walworth, who killed his father, Mansfield Walworth, at the Sturtevant house, New York city, June 2, 1873, died yesterday at his home in this city of pneumonia, at the age of 31. He leaves a wife, the daughter of the late Governor Bramlette, of Kentucky, and one child. He was a grandson of Chancellor Reuben H. Walworth, a noted lawyer of this state, and his maternal grandfather was Col. J. J. Hardin, of Illinois, who was killed at Buena Vista. Frank Walworth's murder of his father created a great sensation at the time. He was impelled to the deed by the fact that his father, from whom his mother had obtained a divorce on the ground of cruel treatment, persistently annoyed the family by writing letters threatening Mrs. Walworth and blackening her character. Frank had warned him in vain to desist, and finally, after a stormy interview, shot and killed him. Young Walworth was defended by Charles O'Connor, but was convicted of murder in the second degree. He was sentenced to state prison for life, but was pardoned by Governor Robinson in 1877. He was admitted to the bar in 1881.

## A GREAT DISASTER.

A Railroad Wreck Caused by Inexcusable Carelessness.

ST. PAUL, Oct. 30.—A passenger train on the Milwaukee and Chicago railroad, running at full speed, went into an open switch at Rio, Wis., and collided with a freight train standing on the switch siding. The coaches were smashed up badly and took fire and were burned, together with over twenty people. The exact number is difficult to learn, as many were burned beyond recognition.

## No Longer a Pauper.

ST. JOHNSBURY, Vt., Oct. 29.—At the beginning of the late war Frederick Joslin, of this place, enlisted in the Vermont regiment. While in the army Joslin lost his eyesight from the effects of rheumatism, which he had contracted through exposure. He then left the service and went to Montreal, where for a long time he was a licensed beggar. He finally returned to his native place, however, and has been supported ever since by the Chamberlain post, G. A. R.

Some time ago an attorney of this place hartered himself in Joslin's behalf, and has just succeeded in securing \$10,000 back pay and a pension of \$72 monthly during the remainder of Joslin's life. This is the largest pension ever obtained in Vermont. Joslin has a wife and four children.

## Beecher Home Again.

BROOKLYN, Nov. 1.—The Canadian Eturia, which left Queenstown on Sunday last, was piloted up New York bay yesterday morning and anchored about 12:30 o'clock. Among the passengers were the Rev. Henry Ward Beecher and Mrs. Beecher. They were the first to land, and taking a cab were driven direct to their home at Hicks and Clark streets, Brooklyn Heights. The Plymouth pastor was expected, but no preparations had been made to give him an elaborate welcome home, nor had the question of going down to Sandy Hook to bring him ashore been considered by his flock. His return was quiet and entirely without demonstration.

## How Sprouts Died.

SAN FRANCISCO, Oct. 30.—A Victoria dispatch says in regard to the hanging of Sproule yesterday: Eight revolvers had been granted him, and when it was finally announced that he must die he was completely unnerved. Recovering from this, he spent Thursday in writing and listening to his spiritual advisers, and seemed calm until evening, when, on the visit of the American consul, he became frantic, and cursed the American government and all people for allowing him to die. He ascended the scaffold with firmness, however, and his short speech protesting his innocence was not without dignity.

## To Jump Nip; or Falls Bridge.

NIAGARA FALLS, Nov. 1.—Lawrence M. Donovan, who jumped from the Brooklyn bridge, was here Sunday to see about jumping from the suspension bridge, which is forty feet higher than the Brooklyn bridge. Donovan was accompanied by some Buffalo sporting men, who are understood to be willing to put up \$200 for the jump. No date has been fixed, and Donovan will not make the attempt unless the money is put up. The authorities will not interfere.

## Canadian Knights are Happy.

MONTREAL, Oct. 27.—The Canadian delegates to the Richmond labor convention say they are satisfied with the result of the proceedings, and believe the amendments to the constitution will be acceptable to the Roman Catholic bishops of this province, who, they say, will name a commission composed of a priest, a lawyer and a layman to examine them. The commission will be authorized by the Knights to make any further modifications which may be considered necessary.

## Has Changed His Prayer.

LONDON, Oct. 26.—Father Sheehy, in a speech at Plymouth last evening, admitted that he had been converted from a Separatist to a Home Ruler. Once, he said, he prayed to God to save Ireland; now he besought the Almighty to save England for Ireland's sake.
