POLITICAL REVIEW.

THE NET RESULTS OF THE LATE CONGRESSIONAL ELECTIONS.

Figures Which Show the Division by States Between the Parties as Compared with the Present House-The Democrats Hold a Working Majority.

WASHINGTON, Nov. & -A correspondent of a New York paper here gives the following summary of the election:

The returns from the congressional districts give the Democratic total at 168; Republicans, 154; Labor, 2; and one vacancy in Rhode Island-a possible majority of 14 with and 12 without the labor vote for the Democrats. The California Republicans now claim 4. Colorado is still counted for the Democrats. Mr. Carlisle's election is concoded. In North Carolina the colored candidate in the Second district was defeated by Mr. Simmons, a district hitherto counted for Mr. Abbott, a Republican. The Seventh Ohio is democratic by three votes, electing Mr. Campbell, a member of the present house, and defeating Mr. Lattle, also a member of this congress. In redistricting the state one other district was made to include a Democratic and Republican congressman. Mr. Grosvenor, Republican, has defeated Mr. Warner in Virginia, a delegation hitherto supposed to be evenly divided. Congressman Wilson says he is re-elected in the Second district by a majority of between 100 and 200.

The following is the corrected table of the result of the election:

	Present 1		Mext HORN
	Dem.	Rep.	Dem. Rej
Alabama	8		8 .
Arkansas	5		5 .
California	. 1	5	2
Colorado		1	1

		-	
Total	183	143	108
*One labor ea	ich.		
Total, 2.			

There is one vacancy in Rhode Island. These figures give the Democrats a safe margin.

Mr. Carlisle's majority is small, but Mr. Thoebe points out that the election law was violated in several counties by using tickets inted on colored DADAP. Matson says that bir. Carlisle's majority is too large for Mr. Theehe to contest. He does not think his party colleagues will consent to his remaining on the floor under any circumstances. He will again be the choice of a large majority of the Democrate for speaker. Assuming this will be the case Mr. Cox, of New York, will be as conspicuous a member of the majority as the Democrats will have in the next house, but the question is, who is likely to be the next chairman of the ways and means committee and leader of the house. Mr. Mills, of Texas, is now serving his seventh terms and is reelected. He is second on the ways and means committee and, as the representative of pro-nounced tariff reform views and being in full accord with the southern Democrats, he and his friends would naturally expect his selection as chairman of the leading committee of, the house, with Mr. Cox second on the list of members. The Democrats have 168 members in the next house. The south will send 102 and the north 66. There is only a single Democrat elected from the south who voted against the consideration of the Morrison tariff bill last June, so it may be assumed that, with the exception of the Labor Democrat from Virginia and two or three members from Louisiana the southern members are for tariff reform. The protective tariff Democrats in the south may number five. Of the New York members seven are counted in that list. New New Jersey has two, Pennsylvania seven and Ohio five, with a scattering of perhaps six, making a total of thirty-two Randall Democrats to 136 Carlisle Democrats in the next house on the question of tariff reform. But nouse on the question of tarin reform. But as has been previously said, they would vote solidly with the Republicans to prevent consideration, so that they are virtually stronger with their allied Republican strength increased than they are in the present congress, with just about that number to vote with a lesser number of Republicans. News from California renews interest in the probable result of the senatorial contests. The Democrats are assured of thirty-four and the Republicans of tbirty-eight in the next congress. Nevada, New Jersey, Indiana and California are the doubtful states. Nevada is admitted to be Republican, so that if the other three states should elect Democrats the result would be thirty-seven Democrats and thirty-nine Republicans.

The Democrats (Luce)" in Michigan, elected Judge Peckham as judge of the court of appeals in New York state and the Republicans have a majority in the New York legislature.

PENNSYLVANIA'S GOVERNOR, Pennsylvania elected Gen. Beaver by between 40,000 and 50,000 majority. All the southern states went Democratic

solidly with the exceptions in the congressional delegations as noted above.

Ohio went Republican on state ticket, but did not elect a governor. Indiana was a close contest and both parties still claim the legislature and the state ticket, and a fierce contest in the courts will likely settle the matter. The Democrats and Republicans held their own in the main with a few Republican gains in congressmen.

DONOHUE'S IMPORTANCE.

A Labor Representative Wields the State of New Jersoy.

NEW YORK, Nov. 8.-Both parties continue to claim a majority in the new legislature of to claim a majority in the new legislature of New Jersey, and the papers of each side en-deavor to show by ingenious figures that it has a majority of 1. The fact remains, however, that the legislature stand 40 Demo-orats to 39 Republicans and 1 Inde-pendent Labor party man, Mr. Donohue, of Passale. The tie between Emley and Carroll in the Third district of Passale county will probably result in the election of county will probably result in the election of Republican, which will place Mr. Donohue in a situation to balk either party in the choice of a United States senator. He has not committed himself in relation to his in-tentions, and he refuses to talk about the issue, but his friends believe he will vote for Erastus E. Potter, the Morris county schoolmaster. Others say that Donchue is in favor of William Walter Phelps for senator, and that he owes no allegiance to Democrats, inasmuch as a straightout Democrat was run against him and nearly defeated him.

Prosecutor Gourley, of Passaic county, is credited with saying that Mr. Donohue personally promised him to vote for a Demo-crat for senator. It is evident that Mr. Donohus's position is hardly capable of ac-curate definition at present. Mr. Donohus's political antecedents are more largely con-nected with greenback theories than anything else. He is an intelligent Irish-American, a painter, a good fellow personally, temperate in everything, and possessed of an analytical Alert, of this port, went down the harbor a mind

The Prohibition vote in the state was about ted 17,000, and although the Democrats . their governor by 8,000 plurality, the com-bined votes of Republicans and Prohibition-ists would have made a majority of about 8,000 against Governor Green. Where the increased Prohibition vote came from is hard

4,158 votes, while the Republica cratic votes did not differ materially from those polled on Tuesday.

SUNK IN THE SOUND.

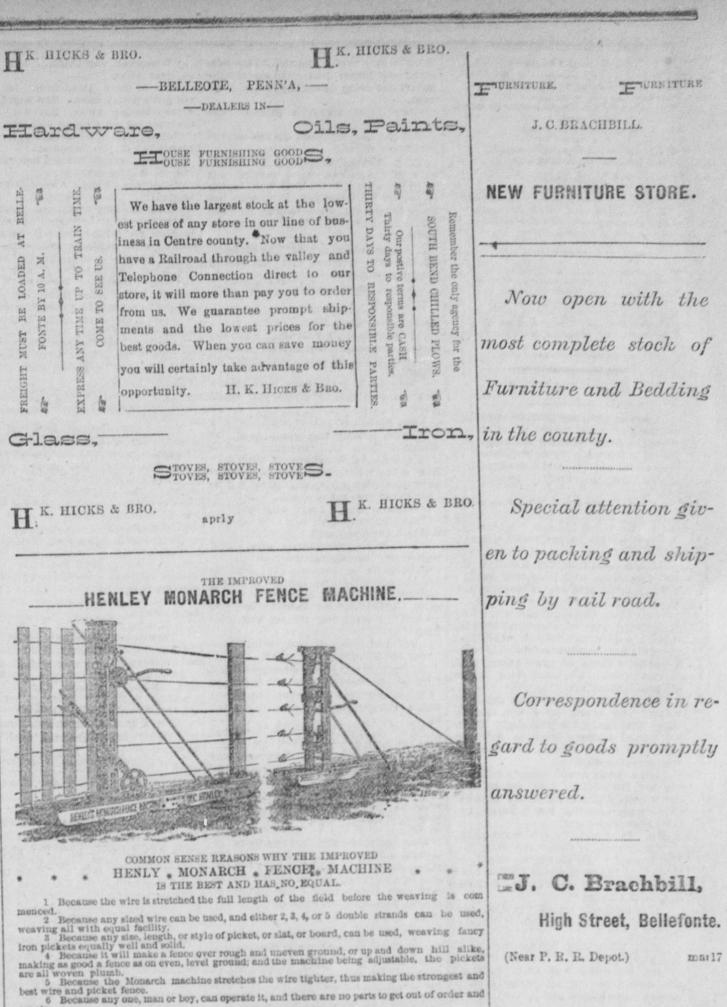

A UNITED STATES STEAMER SUC-CUMBS TO THE WAVES.

Total Annihilation of the Manhattan, with All on Board-The Storm Too Severe for the Little Craft to Ride it Out-Meagre Particulars.

NEW HAVEN, Nov. 8 .- The United States Steamer Manhattan, Lieutenant Commander Tozier in command, foundered and went to the bottom off Southwest ledge, two miles outside of this harbor, at 9:30 o'clock yesterday morning. At the time the vessel sank there was a very heavy sea on, with a flerce gale blowing. The Manhattan came into this harbor some time during Saturday night and anchored in the channel off the yacht club's house. Custom house officials seem to know but very little about the vessel's mission in these waters, but think that she was on special duty of some character, and mention the setting of buoys, examina tion of lighthouses or looking after coasting and trading vessels, to see that their papers were correctly made out, and that they were engaged in the trade sanctioned by their official papers.

About 6 o'clock three of the officers of the vessel came ashore in a small boat and landed at Long wharf. They were on shore about one hour, and after getting the morning papers went aboard the steamer. Immedi-ately after this the Manhattan got under way and headed down the harbor. William Kane, an oysterman at Oyster Point, says that he noticed the vessel pass out of the har bor and set a course toward the southwest, and that she pitched heavily in the sea. She shipped two or three seas, and apparently struggled very much in the sea. She then turned half around toward the eastward, and Kane says her condition grew more labored. He ran to notify the tug office in this city, by telephone, to send assistance, and was gone but ten minutes. He was unable to raise the city, however, and when he returned the vessel was still struggling against both wind and tide. To all appearances the vessel could not be controlled by its wheel. Kane says that he then ran about forty feet across a warehouse hoor to call his employer, and that when he returned, after an absence of not over two minutes, the Manhattan had disappeared from view. Not a vestige of her was to be seen, either to the naked eye or with the aid of glasses. Kane's story is corroborated by James Smith, the proprietor of a hotel at South End, on the eastern shore, seven or eight miles from the point where Kane saw the vessel sink. Mr. Smith says that when he first saw her the Manhattan was on her side, shipping sea after sea, and finally careened over and went down in a very few minutes from the time he first noticed the vessel. Two or three other persons on the cestern shore, all at different points of observation, tell stories of the disaster that fully bear out those told by Smith and Kane. The tug couple of hours later, but on account of the extremely heavy sea and wind could not go outside, however. When the Manhattan sank the tide was setting full out into the sound and whatever wrockage there might have been would go out to sea.

Late in the afternoon quantities of pilot bread and biscuit, pieces of board, varnished on one side, that may have been broken from a increased Prohibition vote can a from a some miscellaneous to tell, as Green's majority was 2,000 larger than Abbett's, and when the latter was elect-ed governor the Prehibitionists polled only a 152 votes while the Republican and Demo-on the east shore, within a stretch of two on the east shore, within a stretch of two miles from Lighthouse point, at the mouth of the harbor to the eastward. She is described as being of a schooner rig, with a length of eighty or ninety feet. Her crew is estimated at from fifteen to twenty-five men in all The east and west shores are being patrolled in search of bodies that may wash ashore, but no reports have been received from any point. The Manhattan was a steam propellor of the third class in revenue service and carried one gun. She was built in Chester, Pa., in 1873, and was of 147 tons burden. For some years she was stationed at Oswego, N. Y. and was out of commission for a time. Dorr F. Tozler, her commander, was born in Georgia, and had been but a short time in

repair Becanse it is made of the best materials, and, with proper care, will last a life-time.

Because it is made is within the reach of every farmer. Because it is the only machine that forces the slat or picket firmly against the wire, thus g the slat in such a solid and and permanent manner that it cannot be pulled out, and

THE VOTE BY DELEGATION.

The result so far has not changed the posi-tion of the state delegation in the next house. Rhode Island will have to elect two Republicans and Colorado will have to elect a Republican to give the necessary twenty votes by states should the house have to de-cide the presidential election. Abbott's defeat in North Carolina and Small's in South Carolina makes it certain now that the next congress will be without the "man and brother" in its midst.

GOVERNORS ELECTED.

States Which Had Elections and the Results.

NEW YORK, Nov. 8.-New Jersey Demo-crats elected their candidate for governor, Judge Green, by the usual majority. The legislature of the state is Democratic by one majority as at present figured with one tie and one or two other contingencies. Wisconsin Republicans re-elected their pres-

ent governor, Rusk, by about 20,000. Massachusetts Republicans elected Ames

for governor. New Hampshire and Connecticut both failed to elect a governor, as neither candi-date had a plurality of all the votes cast. Both of these states elected Republican legis-latares, and that will secure the election of Sawyer, Rep., in New Hampshire, and Loundsbury, Rep., in Connecticut. The Republicans elected their governor

Sir Roger Arrested.

BROOKLYN, Nov. 8.-William Orton, the man who created such a sensation some years ago by claiming to be Sir Roger Tiehborne, the heir of the great Tichborne estates in England, and who was subsequently estates in England, and who was subsequently sentenced to prison for fifteen years for per-jury, has been arrested in Brooklyn by United States Commissioner Benedict on complaint of the pension department, charg-ing him with personating one Charles Curtis and endeavoring to draw his pension. He was held in \$2,500 bail to await a hearing.

Will Meet at All Hazards.

LONDON, Nov. 8.-Socialist meetings were held throughout London, at each one of which resolutions were passed protesting against the prohibition of the workingmen's procession on Lord Mayor's day and their proposed meeting in Trafalgar square, Speeches were made at the various meetings by the recognized leaders of the social democratic movement, each declaring the de-termination of the organization to hold the meeting at Trafalgar square at all hazards.

New York's Constitution. New York, Nov. &-Enough votes have been cast in this state in favor of calling a convention to revise the constitution, and it is now likely that among the first duties of the incoming legislature will be to provide for that work. The votes of New York, Kings and Erie counties were heavily in favor of the measure, and to these three counties is due the credit of deciding in favor of revising the constitution.

A Tie in a Jersey District.

A Tie in a Jersey District. PATERSON, NOV. 6.—The county board of canvassers have officially counted the votes and confirmed the original tally in the Third assembled district, in which Emley, Rep., and Carroll, Lab., each received 1.806 votes. If the ted candidates do not within ten days apply to the courts for a recount, the govor must order a new election in that district.

Killed at the Crossing. CLEVELAND, Nov. 6.-Robert Vaughn, a farmer, and his adopted son, while driving across the Cleveland and Pittsburg railroad across the Cleveland and Pittsburg railroad track early this morning, at White House road, in the southern part of the city, were struck by the fast St. Louis express. The men were both picked up dead, but without a bruise. The horses were terribly mangled, and the wagon was reduced to splinters. The engineer tried to stop, but saw the farmers too lets. too late.

Mr. Roesevelt to Marry. NEW YORE, Nov. 6.—Theodore Roosevelt, the candidate of the Republican party for mayor of the city at the last election, sailed for Europe on the Cunard steamer Etruria to-day. He is accompanied by his sister. Mr. Roosevelt will spend some time abroad, and intends getting married while in Europe. His choice is Miss Edith Carow, of this city.

The Value of a Nose

Boston, Nov. 6. —Alice White, aged 5, has been awarded \$5,000 damages from the Boston and Albany railroad on account of injuries received by the fall of a chimney at Columbus avenue station while she was a passenger on the defendant's car, by which the plaintiff's nose was cut off.

Republicans Win in Minnesota.

ST. PAUL, Nov. 8 .- Official returns now cover seventy-four counties in the state out of a total of eighty. These seventy-four counties give McGill a majority of 2,887. Five counties are yet to be heard from. The five combined cannot change this total enough to make McGill's majority less than 2,000 nor much more than 3,000. The Democratic state central committee concedes Mo-Gill's election through the sheer force of figures returned by the official count. Most of the members have gone home and given it up.

Elected by a Sermon.

BROOKLYN, Nov. 5 .- At a Democratic jollification meeting last night Mr. Bell, the Democratic candidate for congress in the Third district, said he believed that he had been elected, and he proposed to contest the matter with Mr. White. Mr. Ridgoway, who was re-elected district attorney Tuesday, declared that he had been greatly assisted by a sermon preached against him by Rev. Theodore L. Cuyler, last Sunday, accusing Furniture ! him of being in favor of opening beer saloons Sundays. Mr. Ridgeway had 20,000 copies of the sermon circulated among the Germans, and captured nearly the entire German vote

Carlislo's Seat to be Contested.

CINCINNATI, Nov. 8. -- George Thoebe, candidate against Speaker Carlisle, announc his intention to contest the election of Mr. Offer the finest u Carlisle. He claims that after the contest became very close the returns in the back counties were "doctored;" also that his representatives sent to watch the official count were given no consideration whatever, and in one instance were t' reatened with bodily injury.

"The Flowers the ! Bloom in the Fall. SPRINGFIELD, O., Nov. 6 .- The long spell of Indian summer in central Ohio has ripened a second crop of strawberries and brought violets and lilacs into full bloom in some places, a circumstance never before known here in November. The berries are of good flavor and sell for thirty cents a quart.

Gladstone Accused of Lying.

LONDON, Nov. 6 .- Lord Bradbourne, in a letter to the editor of Blackwood's Magazine, accuses Mr. Gladstone of making serious misstatements and perversions of Irish history which he has not the courage to defend nor the candor to withdraw.

Business Failures.

NEW YORK, Nov. 6 .- There were 186 failures reported throughout the United States and Canada during the past seven days, as compared with a total of 215 last week and 195 the week previous to the last,

A Dynamite Cruiser. New Yonn, Nov. 4 .- It is stated that the With the Finest Hearse in the County Messes. Cramp, ship builders, will accept the contract to build a dynamite gun cruiser for

the government.

securing the slat in such a solid and and permanent manner that it cannot be pulled out, and hreakage is impossible. 10 Because the fence made by this machine will turn all kinds of stock, and is much strong-er than any barb wire fence, and completely obviates all danger of injury to stock. 11 Because by weaving past the post, and fastening the wire strands to the posts with sta-ples, and not nailing the slats to posts, thus keeping the wood parts from coming in contact with each other, it will not hold the moisture or rot. This is a very important matter, as all boards in board fences soon rot off at post, and eccasion continued expense for repair. 12 Because all kinds of old material can be used for making new fence. 13 Because it makes the handsomest, best, strongest, and most durable fence, and is the only first-class, practical fence machine in the world. For prices of machines, fonce material, or territory, address
