CURE THE REMEDY FOR RHEUMATISM.

Marion, Ind., Aug. 12, 1886.
My wife was so afflicted with Rheu
matism in her shoulder and arm tha
she could do nothing for herself, an
could not sleep in bed, but had to b
holstered up in a rocking chair. Phy belstered up in a rocking chair. Physicians prescribed, many patent medicines were used, but the pain still got worse. I sent for the Russian Rhesmatism Cure, under a cloud of doubts. It was used according to directions for one week and my wife was cured. It was one of those agreeable surprises that you meet once in a lifetime. It is now over four months since the cure was effected, and she can wash, iron, hoe in the garden, and do all kinds of work as well as ever, and has no symptoms of the old disease. We have no hesitancy in recommending the cure to all similarly afflicted, as SATE AND SURE.

Truly yours.

## MANY POSSIBILITIES

BUT FEW PROBABILITIES DEFINES THE SITUATION AT THE CAPITAL.

Prophets all at Sea as to What Will or Will Not be Done by the National Legislature-Many Bills Upon Which Action May be Taken This Week.

Washington, Dec. 13 .- Congress has entered upon another week of indefiniteness. Speaker Carlisle, when asked by a United Press reporter what the house would likely do, repeated the answer of Mr. Sherman, when questioned as to the work of the senate, by saying: "What we are likely to do one day ahead no one can safely say. There are many possibilities and few probabilities."

To-day is District of Columbia day in the house, and the chairman of the committee, if he can hold the floor, will call up the bill providing for a school board of citizens, who are patrons of the schools, and the bill granting right of way for a cable railway. the impression prevails among members of the committee on the District of Columbia, that the order will be set aside and the house will continue the consideration of the sundry civil appropriation bill. This may occupy a couple of days, as a portion of one day was consumed in the call of states for the introduction of bills, etc. When the sundry civil bill is out of the way, Chairman Hatch will push his bill creating a cabinet office of the bureau of agriculture and labor. This measure comes up regularly under the call of committees. The call now resting on agriculture, Mr. Hatch believes he can have his bill disposed of in a day and a half or two days at most. Then, Speaker Carlisle says, Mr. Morrison will likely call up his tariff bill. The speaker has promised to recognize Mr. Morrison for this purpose at any time when a motion will be in order. The opponents of tariff reform will be led by Mr. McKinley, of Ohio, who will move to lay the motion of Mr. Morrison on the table. There will be some dialogue over the matter, consuming the better part of a day, even though the motion to take up the bill fails. That the motion will not prevail is conceded by the tariff reformers to make an effort during the week, if opportunbill amendatory to the Edmunds anti-polygamy act. Friday continues to be private bill day, but is set aside for any measure of general importance. The conference report on the interstate commerce bill will be taken up in the house during the week if it comes over from the senate in time. It is a privileged macter and will antagonize successfully almost any other measure.

Mr. Morrill's resolution against an agitation of the tariff at this session of congress is pending in the senate as unfinished business. It is expected that the report of the conference committee on the interstate commerce bill will be taken up as soon as this resolution is out of the way. These two subjects may consume half of the week, however. By virtue of long delayed precedence the resolution of Mr. Platt, providing for the consideration of executive nominations in open session of the senate. may follow in consideration; but it is not expected to come before the senate, and in fact seems doomed to ultimate defeat. For several months before the adjournment in August it stood upon the calendar as a special ters until it is smothered with measures which demand consideration as of public interest. A number of times it seemed to on the verge of a vote, but each time the senate passed to something else or adjourned over to the next day. Mr. Beck will urge for consideration his bill prohibiting members of congress from acting as attorneys or employees for railroad comgrants of lands or pecuniary aid from the bungry and cold and three of his children United States, while among other special orders on the calendar there are those of Mr. Van Wyck for the relief of settlers and purchasers of lands on the public domain in the states of Nebraska and Kansas, and of Mr. Logan, authorizing the secretary of war to accept a tract of land known as Highwood, composed of 500 acres in Lake county, Ills., which will be taken up if time and circumstances permit.

### A DARING ROBBERY

Consummated Under a Policeman's Nose

in a Glaring Light. NEW YORK, Dec. 13,-A liquid salson in Park row, adjoining the entrance to the Brooklyn bridge, was robbed of \$1,200 by burglars who had concealed themselves in the building before midnight. After the bartenders had gone to bed in a room up stairs the burglars fastened them in by putting a bar across the door, and then went down stairs and boldly entered the saloon, though the electric lights from the bridge shone through the window, and a bridge policeman was on duty thirty feet away. They got into a shadow, drilled the safe, took out \$1,200 and escaped. They mixed and drank several glasses of liquor at the bar during the time they were in the saloon. The robbery is considered one of the most daring on record in this city

The Whole Family Dead. CHICAGO, Dec. 13 .- The McClure family, mother daughter and son, living at Maplewood, His., fied from escaping coal gas Sat-urday night. The mother and daughter retired early, leaving the son, a young man of 21 years, to attend to the stoves. In filling T ZELLER & SON. them with coal he forgot to replace the to on one and the escaping gas during the night asphyxiated the trio. They were found by man who lives in the same house, wh knocked at their door about noon Sunday and getting no response forced the door and was horrified to find three corpses in various positions about the room as if they had been seeking for pure air but had been too weak to open the door or windows, which had been tightly closed.

Becaped the Gall was ROCHESTER, Dec. 15,-On the night of Sat urday, Sept. 18, Maier Feit, aspecial officer was assaulted by a negro named David Brad ley, dying from the effects of his wounds a few days later. Bradley was arrested and indicted, and has been in jail ever since Yesterday the prisoner was suddenly take with hemorrhage of the lungs and in a fer minutes died, thus evading the legal penalt of his crime. Bradley had a very bad recor in this city as a criminal, having been covicted many times of brutal assaults. I was formerly a slave, being set free by Li coln's proclamation.

A Reformer in Trouble. ELMIRA, N. Y., Dec. 13.-Col. Theodo T. Weaver is arrested for the forgery of tw checks, one on a Watkins bank, the other the Cheming Canal bank, signing the name of two business upon of this city. Col. Weaver has had a good deal to do with the anti-saloon movement, the Prohibition cause and the White Cross society. He was secretary of the anti-saleon organization, also of the White Cross society. He has made a good many speeches all about this part of the state and Northern Pennsylvania. There seems to be no doubt of his guilt. His friends assert that he is insane from the use on storage. and the White Cross society. He was secre-

A POOR WOMAN'S FATE. Brutally Murdered for Sale to a Medical

College. BALTIMORE, Dec. 13,-A case of supposed ody snatching reported turns out to be one of the most brutal murders on record.

ghastly wounds found upon the body which was brought to the Maryland university for purposes of dissection puzzled the physicians and aroused suspicions of foul play, and they notified the police. Detectives were put to work upon the case. They have arrested Anderson Perry, colored, the assistant janitor at the Maryland university, merely as a

Perry got frightened and imparted such information as to cause the arrest of John T. Ross and Albert Hawkins, both negroes. The three men were placed in separate cells at the station, and last night made an expose of the whole affair to Chief of Police Frye.

The facts are as follows: The woman whose body was brought to the Maryland university on Friday night was Emily Brown, a respectable white woman of 55 years, whom dire necessity compelled to take lodgings with a colored woman on Pig alley. The men who brought the body to the university are John T. Ross and Albert Hawkins, who lived in the house with Emily Brown. Ross met Anderson Perry, the university janitor, on the street, and told him

that he was out of work and had no money. "Well," said Perry, "you needn't be out of noney; kill that old white woman at your house and bring the body to the university and I'll give you \$15."

At first Ross was horrifled at the idea, but the \$15 was too great a temptation. He was afraid to attempt the job alone, so he let Albert Hawkins into the secret, who assented to the plan proposed to deliberately murder a poor helpless woman for \$15. The two friends watched their chance. T colored woman, who run the house, left home Friday morning to be gone until Saturday. Friday afternoon Ross and Hawkins went to Emily Brown's room. Ross struck the woman on the head with a brick and Hawkins stabbed

Ross continued to beat her on the head with the brick and Hawkins pounded her chest with his heel until she was dead. They then went to the university and, after telling Perry what they had done, got a sack from be likely. The committee on judiciary will him, in which they brought the murdered woman's body to the university that night. ity presents itself, to get consideration of the Perry at once took the body to the pickling room, where he shavel off the hair from the woman's head, washed the body and so disfigured the face and head as to give out the idea that it had been caten by rats. The three men, Perry, Ross and Hawkins,

are locked up. PARSON DOWNS ON THE WARPATH.

He Proposes to Make it Lively Around Boston, Dec. 13 .- Parson Downs is again on the warpath. He appeared at Burnstead hall and for nearly four hours assailed his memies and read documents filled with spicy and disgusting details. The subject of his discourse was "Nolle Prossed." He first paid his respects to ex-Assistant District Attorney Adams, whom he called a coward and an im becile. "I drove him from his office," said the parson, "and I would like to drive him from the earth." District Attorney Stevens, he said, did not dare to try his ases, as he found he had got the wrong pig by the ears. In referring to the Alice Watson case, Mr. Downs said that order, but its author gave way to other mat- he did go to St. John with her last September, under the assumed name of Oliver Stevens,

to get a confession from her. who made the headlines in Saturday's paper to meet him in personal conflict, and threatened that if the editor did not accept the challenge he would go to the office and make nim retract in the way that he did the editor of The Post. The parson concluded by an panies holding charters or having received appeal for aid. His family, he said, were

English and American Law.

COLUMBIA, S. C., Dec. 13.-The supreme court of Georgia and the supreme court of South Carolina within a few days had simiar cases for adjudication, involving alleged negligence of railroads. The Georgia court decided that the railroad was responsible for injury to a car coupler caused by the negligence of the engineer in backing the train too fast. The South Carolina court decided to nonsuit an employe who was injured by the presumed negligence of the engineer in back-ing his train. It was held that the engineer and his car coupler were fellow servants, and that the company could not be held for injuries to one resulting from the negligence of the other. The explanation of this apparent or actual incongruity is that the South Caroina judges act under the English law, while the Georgia judges act under a special statute of the commonwealth,

We quote no leaders in DRY GOODS, but offer everything in the line fully as low as legitimate competition will or can afford it. it is to delude a poor sufferer into the belief that some worthless liniment will cure rheumatism and neuralgia. Honesty is the best policy in the manufacture of proprietary articles as in all other matters, and the fact that the proprietors of Athlophoros have never claimed for it even all its merit would warrant has not a little to do with its wonderful popularity, and the thousands of grateful stimonials received by them show that their policy has been wise as well as right Experience has amply demonstrated that mere outward applications are worthless. The disease has its seat in the blood, and any remedy to be successful must deal with the obstructive acid which poisons

and inflames it. Athlophoros acts on the blood, muscles and joints directly. It takes the poison out of the blood and carries it out of the system; it invigorates the action of the muscles and limbers the stiffness of the joints. It reaches the liver and kidneys, cleansing them from irritating substances, and, if followed up after the rheumatic conditions coase, it will restore these organs to regularity and health.

troubled any more for six months

Mt. Pleasant, Pa., Aug. 10, 1886. I am thankful that I tried Athlophoros I had rheumatism seven years, part of the time could not move; but to-day I am well and hearty. I write this hoping some other sufferer may try it.
W. S. FLEMING.

Every druggist should keep Athlophoros and Athlophoros Pills, but where they canand Athlophoros I his, but where they cannot be bought of the druggist the Athlophoros Co., 112 Wall St., New York, will send either (carriage paid) on receipt of regular price, which is \$1.00 per bottle or Athlophoros and 50c. for Pills.

To liver and kidney diseases dyspepsia, increases very construction, headache, impure the construction, headache, impure the construction headache.
