BUSH'S ARCADE BURNED.

Five Business Establishments and Lodge Rooms Share in the General Destruction.

INVOLVING A LOSS OF \$90,000

The News says of the fire: For four hours on Sunday morning fire raged through its solid walls and enduring maconry, the flames writhed and twisted the heavy timbers, exulting like vengeful demons in the ruin they wrought.

From all that we can learn regarding it, John Dawson, who with his family lived in the building, was the first to discover it. It was then about 20 minutes of 5 o'clock. He was awakened by a choking sensation. He jumped from the bed and felt the floor warm beneath his feet. Smoke filled the room and it was that which bad awakened bim. Realizing that the building was on fire, he called his family and Mr. Schrom, who also occupied a room in the building and they escaped without enough clothing to protect them from the severe cold. Mr. Frank Mayer and family and Mr. Reasner and family also lived in the building and they were compelled to leave without saving anything. Mr. Tripple also had atailor shop in the building and Dr. Rothrock a dental office. The location premises received the most critical in-

Their loss is \$16,000, covered partly by insurance. The Dawson brothers had purchased the bakery in the next room east, from Mr. Mayer, a few hallway leading to the upper floors and further west was Wilbur Twitmire's tin and stove store. He saved a few stoves and we learn that his loss is fully insur ed. Ed. Powers owned the shoe store in the next room and was able to save a newspaper and job printing office. There was only a small insurance on the very complete stock. West of that was Bond Valentine's insurance office. His most material loss is the books in which he kept a record of his business. INSURANCE MEETING.

At the annual meeting of the Farmers' Mut. Fire Insurance Company on Monday a resolution was passed extending the territory to the townshipe of Walker, Marion, Spring, Benner, Patton and Halfmoon. This was done at the frequent request of property holders in these sections to include the territory aforesaid, as they would prefer mem-bership in the Pennsvalley company on account of its economical management and the cheapness of the company in the past. The resolution provides that only farm property outside of villages

and towns in the above named town ships shall be insured in this company. Samuel Gramley of Miles, will be agent for Walker and Marion, Wm. M'Farlane and Jacob Bottorf will act as agents for Benner and Spring. J. G. Bailey and H. C. Campbell will act as agents for Haltmoon and Patton. Applications for insurance can be made to the above named agents.

HOW TO GUESS THE CROPS.

Mr. Sober the lumberman at Sober station in Gregg twp., besides being a well read intelligent man, is a close observer. He informs us that for twen'y five years he has observed that if the moon is full from the 25th of June to the 10 of July, a good crop of grain can be looked for generally. There may be local failures from local causes but the of the first fire leads to the belief that it | yield generally will be large. The buggy shops and dwelling house occupied by Mr. Fisher, 11/2 miles west days before. They had no insurance and occupied by Mr. Fisher, 11/2 miles west the fire leaves John Dawson and family of Rebersburg, were destroyed by fire quite destitute. His loss will perhaps be on Toursday, an almost total loss. The most severely felt of all. Next came the fire is said to have originated in the

wood shop. The fire originated in the woodshop, as we since learn, about 11 o'clock at night, it is supposed from a defective 10plate stove. All contents of dwelling and shop were destroyed. TO THE PATRONS OF THE "KEY. STONE GAZETTE."

The disastrous confiagration which consumed the Bush Arcade, one of Bellefonte's most imposing business blocks, on Sunday morning, swept away every vestage of the Keystone Gazette printing establishment, not a scrap of paper that could aid us in re-establishing our business relations with our patrons being saved. The insurance, at this writing unadjusted, was \$2,000, which represents but a small portion of the financial loss we have sustained, but relying upon the friendly co-operation which hitherto been extended, we confidential ly appeal to our friends to come to our assistance in this hour of disaster. The loss of our subscription books leaves us without any means—except our memory and the aid that the post-masters may be able to render, to restore our circuiation, and we request that all persons who have been receiving the paper immediately report the fact, with the date when their subscription began. We have never asked our patrons for money, the vol untary advances received with our regular commercial business enabling us to meet current demands without embarrassment, but this unlooked for emergency compells us to ask that financial sympathy without which resumption of business will prove exceedingly difficult if not impossible. If what we have earn ed and is now past due is promptly paid we shall within a very brief time renew our visits to our patrons in better form than that which vanished in smoke in the disaster which involved us with many of our immediate neighbors in most disheartening misfortune.

We have opened an office in the room next door to Hastings & Reeder's law office, opposite the post office, where we shall be pleased to receive our friends, CASSIDY & FIEDLER.

DEATH OF WILLIAM RODGERS.

Saturday last occurred the death of William Rodgers, at his residence, at Valentine's Works, of poeumonia. Deceased was born July, 1812, in Monmonthshire, South Wales, and came to Bellefonte in 1837, living all these years in the house in which he died, excepting about two years. For 43 years he was manager of Valentine's rolling mill, 38 years of which time and until their death he was the intimate friend of the older Valentines. About fifteen years ago be tripped and fell on a delapidated board walk, breaking an ankle, which necessitated the amputation of his leg. Since that time he has been a constant sufferer, the wound where the leg was amputated never healing up.—Gazette, 7th.

THE NEW RAILROAD.

Some parties are credulous about the new railroad, and think it will not be built. We say right here and now, tha it will be built. We can not be as definite as to what route it will take. The odds, just now, are in favor of the route by Washington furnace. The chances for the Brushvalley route are next, and it is the best route, but local influences will have much to do with the locating it. The road is destined to be a link in an important line west.
