Convincing Verification of Widecast Public Statements.

TO THE READERS OF THIS PAPER.

adroit advertising. Consequently we feel justified in taking the liberty of printing a few points from a private letter recently received | Professor Cook asserts that Paris Green from one of our largest patrons, as a sort of confession of faith to our readers. We quote:

"We have convinced ourselves that by telling what we know to be true, we have produced at last a permanent conviction in the public mind. Seven years ago we stated what the national disease of this country was, and that it was rapidly increasing. Three years ago we stated that a marked check had been given it.

"The statistics of one of the largest country shows that in 1883 and 1884, the mortality from kidney disorders did other companies stated the same thing. It is not presumptuous for us to claim credit for checking these ravages.

"Seven years ago we stated that the condition of the kidneys was the key condition of the kidneys was not re- cattle bedded down once a week with quired, to-day millions of dollars in it would be all that it required. It risks are refused, because chemical ex- would save labor in cleaning the stables, amination discovers unsuspected diseases of the kidneys.

ravages of Bright's Disease was insignificant compared with other unsuspecfil's the blood with uric acid, or kidney diseases.

"The uric acid, or kidney poison, is the real cause of the majority of cases of paralysis, apoplexy, heart disease, convulsions, pneumonia, consumption, and insanity; over half the victims of clover, and may be considered as a consumption are first the victims of

diseased kidneys. "When the recent death of an honalthough he was suffering from Bright's Disease, that was not the cause of death. bed, was the fatal effect of the kidney the blood.

"If the doctors would state in official reports the original cause of death, plant it is unrivaled. the people of this country would be alarmed, yea, nearly panic stricken, at the fearful mortality from kidney dis-

The writers of the above letter give these facts to the public simply to justify the claims that they have made, that "if the kidneys and liver are kept in a healthy condition by the use of Warner's safe cure, which hundreds of thousands have proved to be a specific, when all other remedies failed, and that has received the endorsement of the highest medical talent in Europe, Australasia and America, many a life would be prolonged and the happiness of the people preserved. It is successful with so many different diseases because it and it alone, can remove the uric acid from the bood through the kidneys."

Our readers are familiar with the preparation named.

Commendation thereof has often appeared in our columns.

know the proprietors are men of character and influence. We are certain they have awakened a wide-spread interest in the public

mind concerning the importance of the they are the key to health, and that for able rural pursuit. their restoration from disease and maintenance in health, there is nothing equal to this great remedy. The proprietors say they "do not

glory in this universal prevalence of Warner's safe cure before the world, because it cured our senior proprietor, who was given up by doctors as incurafacts and leave the public to its own inferences. We point to our claims, and to their public and universal verification with pride, and if the public does not believe what we say, we tell them to ask their friends and neighbors what they think about our preparations."

As stated above, we most cordially simple public obligation.

who was troubled with the smell of garlic or wild onion in the milk. To obviate this he put the cows in the stable at about 3 o'clock each afternoon, and fed them on hay and gave grain as usual. The result was all he anticipated. A rest of three hours allowed the scent to pass off in the other secretions, though previously it strongly stantly patrol the building during the night. grain as usual. The result was all he flavored both milk and butter. This is an old remedy and a good one, though not always completely successful.

THE Experiment Station of New Jersey has demonstrated that the sugar from cane worked without leaf or sheath is of superior quality, while the expense of evaporation is also lessened. All that is now necessary to make sorghum sugar manufacture a success is some cheap method of stripping the ities.

IT is now claimed by scientists that a dead branch exhausts the vitality of a vine or tree to a limited extent, and should be removed. Dead canes on blackberries, raspberries and the useless vines of grapes should therefore be removed at the earliest opportunity.

FARM NOTES.

need hardly be said, is the codling moth or apple worm. The only nice thing about it is its entomological name, car-In common with many publishers pocapsa pomenella. This moth makes and editors, we have been accustomed its appearance in latter May or early about the frost on his neighbor's tiles. to look upon certain statements which June, and it is well to be prepared to we have seen in our columns as merely meet it when it comes, Traps have been invented for this insect, and various means suggested for staying its advances and preventing its ravages. and London Purple if mixed with water and sponged on the trees is sure to kill this arch enemy of our most valued has fruit. He found that a pound of the poison mixed with 100 gallons of water, and kept well mixed, is still effective to kill the larva as they attempt to enter the apple. One or two applications of the poison to the trees, made soon after blossoms fall, will thin almost to extinction not only the codling larva but all other insects present, as the canker worm, leaf roller, and various caterpillars. The probabil ties life insurance companies of this are that in those localities where apples not increase over the previous years: and we can't afford to give any to the

IF a dairyman wishes to insure a clean stable and comfort for his cattle in winter we know of no better way to to the condition of health; within the do so than to bed down his stock with past five years all careful life insurance black muck from the swamps and companies have conceded the truth of ditches. It mixes well with the manure this statement, for, whereas, ten years and makes one of the most valuable ago, chemical analysis to determine the composts. Besides its intrinsic value, which ordinarily is done daily, and would leave the cattle in a much clean-"Seven years ago we stated that the er and healthier condition where the ammonia is absorbed than when left to wallow in their own excretions. Rheumatism

We doubt if there is, or can be, a specific remedy for rheumatism; but thousands who have suffered its pains have been greatly benefited by Hood's Sarsaparilla. If you have failed to find relief, try this great remedy. It corrects the acidity of the blood which is the cause of the disease, and builds up the whole system.

"I was afflicted with rheumatism twenty years. Previous to 1883 I found no relief, but grew worse, until I was almost helpless. Hood's Sarsaparilla did me more good than all the other medicine I ever had." H. T. BALCOM, Shirley Village, Mass.

> > "Loan it to me till next week?" "Not much."

"Is that what you call sticking to your friends?" "You bet it is. This dollar here is the best friend I've got in the world,"

Young Featherly had eaten four more hot biscuits than he ought to have done, simply because Miss Clara had told him that she had made them herself, and Bobby, with a perplexed look upon his face, was waiting a favorable opportunity to say something. "Mr. Featherly," he finally said, "bave you any matters on hand that ought to be attended to at once?"

"Well, nothing very urgent, Bobby," laughed Featherly. "Why?" "Because Clara told ma that when you found out what nice biscuits she could make it ought to hasten matters.'

"I was chatting," writes a lady, "with a bright young girl the other evening at a small friendly gathering, when our attention was directed to a tall and handsome woman who had jnst entered the room. 'Who is she?' asked my companion; and I, wishing to be poetical, answered: 'A daughter of the gods.' 'I don't know her,' my companion replied, critically examinining the new comer through her glass; 'the gods are not in our set."

"HEAR that piano? hear that piano?" "Yes." "Old Snagsby's daughter; they just do it to tantalize me." "Why, it seems a very nice song—'The Lost GENTS:-For the past winter I have been Chord,' I believe." "Is that the name his daughter's singing about the lost
