The soldiers will be tried to-day. The sentences of some of the rebels who were condemned to death have been commuted to fifteen years imprisonment. Capt. Bulman, who sought German protection, was not shot. He will be handed over to the German consul. This disposition of his case has caused indignation among the people.

Sofia, March 7.—All the powers have advised the Bulgarian government to deal energetically with the rebels. Advice from Orsova, Servia, says that Captain Nolebin, who has returned there from Roumania with MM. Bendereff and Gruelf, the Sankoffite leaders, declares that his friends' revolt failed because there was no concerted plan, and that another attempt will soon be made, in aid of which 10,000,000 rubles is available.

Has the Earth Lost a Lap?

WASHINGTON, March 7.—It has been reported from Wilmington, N. C., that the earth has been retarded eleven minutes in six days. Officials at the Naval Observatory here say the thing is absurd. A NEW LEASE OF LIFE.

When one has been suffering the agonies of a severe attack of rheumatism, neuralgia or sciatica, and relief comes, it seems as if a new lease of life had been granted. Such have been the feelings of thousands who, after trying physicians and numberless remedies, have used Athlophoros and found to their great joy that this medicine really did cure these diseases.

367 Fulton St., Brooklyn, N. Y.

After suffering for nearly two years with a continuous attack of rheumatism; after trying almost every specific, domestic and foreign, which the credulity of a wise man, or a fool, might lead one to trust in, it was a double pleasure to me to find a remedy which, originating in the famous City of Elms—the home of my ancestors and its first founders—has proved so invaluable a blessing. It is nearly six months since I was led to trace out the significance of that word Athlophoros. It has proved to me, in a good degree, a renewer of my former vigor and strength, so that I have been enabled to move about with almost youthful activity, and to feel, while approaching my "three score years and ten," that I have a new hold on life. I believe your philosophy of the disease to be correct that it has its origin in the blood, and that your remedy touches those joints and muscles, loosening the nodes, which have been brought into subjection to this dreadful disease, and sets them free as no other remedy that I have tried. I have been cautious for so long a time in recommending it to others that I am now free to state the estimate I put upon it, as the safest and most efficient cure I have any knowledge of.

A. E. DAVENPORT.

Every druggist should keep Athlophoros and Athlophoros Pills, but where they cannot be bought of the druggist the Athlophoros Co., 112 Wall St., New York, will send either (carriage paid) on receipt of regular price, which is \$1.50 per bottle for Athlophoros and 75c. for Pills.

For liver and kidney diseases, dyspeptic indigestion, weakness, nervous debility, diseases of women, rheumatism, headache, urinary blood, etc., Athlophoros Pills are unexcelled.

H. K. HICKS & BRO. THE IMPROVED HENLEY MONARCH FENCE MACHINE.

COMMON SENSE REASONS WHY THE IMPROVED HENLEY MONARCH FENCE MACHINE IS THE BEST AND HAS NO EQUAL.

- 1 Because the wire is stretched the full length of the field before the weaving is commenced.
2 Because any sized wire can be used, and either 2, 3, 4, or 5 double strands can be used, weaving all with equal facility.
3 Because any size, length, or style of picket, or slat, or board, can be used, weaving fancy iron pickets equally well and solid.
4 Because it will make a fence over rough and uneven ground, or up and down hill alike, making as good a fence as on even, level ground, and the machine being adjustable, the pickets are all woven plumb.
5 Because the Monarch machine stretches the wire tighter, thus making the strongest and best wire and picket fence.
6 Because any one, man or boy, can operate it, and there are no parts to get out of order and repair.
7 Because it is made of the best materials, and, with proper care, will last a life-time.
8 Because the price is within the reach of every farmer.
9 Because it is the only machine that forces the slat or picket firmly against the wire, thus securing the slat in such a solid and permanent manner that it cannot be pulled out, and breakage is impossible.
10 Because the fence made by this machine will turn all kinds of stock, and is much stronger than any barb wire fence, and completely obviates all danger of injury to stock.
11 Because by weaving past the post, and fastening the wire strands to the posts with staples, and not nailing the slats to posts, thus keeping the wood parts from coming in contact with each other, it will not hold the moisture or rot. This is a very important matter, as all boards in contact with each other, will rot at the joints, and occasion continued expense for repair.
12 Because it makes the handsomest, best, and strongest, and most durable fence, and is the only first-class, practical fence machine in the world.
