LOCAL ITEMS.

HER INVITATION.

In the parlor they were sitting—Sitting by the firelight's glow, Quickly were the minutes fitting Till at last he rose to go.

Monday and Tuesday were cold and stormy.

B. F. Hunter had a paralytic stroke one day last week.

How much will you give towards building a walk to the station?

Pole Cat City will make application for the State capitol buildings.

George Jack last week took his departure from Boalsburg for Nebraska.

The razors stolen from Jerry Miller's barber shop have nearly all come back.

Tusseyville offers an acre of ground to build the new capitol on. Second the motion.

Garman's new hotel building and Reynolds's new bank building in Bellefonte will be three story structures.

The fellow who wounded Mr. C. Sober's valuable hunting dog, at Sober station, will find that the way of the transgressor is hard.

On last Friday evening a large number of young folks from this place and vicinity were entertained by Miss Annie Odenkirk, at the Old Fort.

At the Central Pennsylvania Conference of the Evangelical Association held in Baltimore, it was decided to hold the next annual meeting in Lewisburg in 1888.

Henry Quigley, son of Captain Jas. A. Quigley, of Eagleville, this county has been appointed a cadet at West Point military academy. The appointment was made by Hon. A. G. Curtin.

Common decency and respect for strangers who visit our town, require that a walk of some kind be made to the station—the ankle deep mud that must be waded thro' to get to and from the railroad station, is no credit to our town.

The reason over two hundred ministers assembled at Bellefonte last week was to pray for the rescue of several editors of the place, who have long ago been given up as lost from the pale of the church.

Mr. Daniel Garman, of Bellefonte, was in town on Monday of this week, with a lot of horses which he intends to ship from our station to the city. Mr. Garman says eight liveryies in Bellefonte are too many and is going to quit that business.

Walnut trees are in demand and being bought up all over the county, and logs are seen all along the railroad. Wm. Allison of Spring Mills, had one felled that measured five feet across the stump and a log of 70 feet in length was obtained from it—all clean and sound. He got \$225 for it.

Public sales are the places for bargains if you know what a bargain is, but some persons pay enormous prices for second hand articles. At a sale last week we know of a party paying eighteen dollars for a set of single harness which originally cost twelve and were in use over two years.

A carload of oats shipped east from here last week contained along with other kinds 150 bushels of Bohemian oats. In consequence of the latter the whole carload was condemned to 25 cents per bushel instead of 35c. This is rough on the Bohemians. Some of our farmers inform us that Bohemian oats is not a good article to chop for feed, and oatmeal manufacturers say that it is unfit for their purposes. Exit, Bohemians—apply for an office or a person.

It is not generally known that it is the duty of township supervisors to keep the county bridges in repair at the expense of the county, of course. Any repairs which the supervisors may see necessary, and which will not entail an expense of more than twenty-five dollars, can be made without application to the County Commissioners for their authority to proceed with them. When the repairs will amount to more than twenty-five dollars the supervisors must represent the case to the Commissioners and receive from them orders as to the quantity of repairing and the manner in which it shall be done. Heretofore these methods of procedure have not generally been followed.

BOYS 24—HATS 24.

In last week's Reporter we called attention to the large increase in travel between Lewisburg and Bellefonte since the construction of the railroad, compared with the travel in the days of the slow lumbering stage coach. Now people move west by rail and reach their destination in from 24 to 48 hours. Years ago a wagon was fitted out with all the necessaries for camping on the way and the time required was several weeks, and the older readers of the Reporter can remember seeing strings of wagon trains, bound for the west, passing through our valley. This brings to our recollection an incident that occurred at Aaronsburg over 40 years ago. That village in that day was somewhat noted for the manufacture of wool hats, principally by Daniel Spyster and his sons. One of these emigrant trains reached Aaronsburg one evening and halted to stay over night. Among them, remarkable to tell, was a father with a family of wife and 24 sons, which was no ordinary sight nor will it ever be, and most of the citizens, naturally turned out to see the 24 and 24.

Father Spyster too, took in the sight, and in his ecstasy over the rarity of it, invited the boys to his hat factory and had them ranged single file in the order of their ages. Then addressed the family thus: "A family of twenty-four children is a rare thing, and all of them sons and alive, living with their parents, is a great honor to the parents and no light burden and I respect them. Indeed it must be no little expense to keep such a lot of boys in hats, and therefore I feel it a duty to present each one with a new hat." And with these remarks, Mr. Spyster presented each of the 24 boys with a new hat of his own manufacture.

BURNED TO DEATH.

The Daily News says after dinner on Thursday Myron Iddings, of near Unionville, went to the woods to start a fire and boil maple water for sugar. Myron was about 35 years of age, a large man, weighing about 150 pounds, and unmarried. About 2:30 o'clock his father, Mr. Reuben Iddings, who lives about two miles this side of Unionville, also went to the camp. To his horror, he found his son lying in the fire, his body burned almost to a crisp and, when found, the young man was dead. His legs and feet were most severely burned and the charred flesh dropped from his bones. His hair and mustache were singed, and many parts of his body showed the effects of the terrible flames. Dr. H. K. Hoy, the coroner, was summoned at once and a jury investigated the circumstances. All the evidence available was brought to their notice and they quickly agreed upon a verdict. It was known to the family and to many neighbors that the deceased was subject to epileptic fits, and the circumstances all indicate that while stooping over the fire he was seized with one of these distressing attacks.

MET A PENNS VALLEY DUTCHMAN.

We are informed that a number of bottles from Nittany valley attended a sale near Linden Hall last Thursday for the purpose of having a little fun with the "Dutch." They were by no means disappointed and left with some very forcible impressions received from their visit. One young kid especially learned a valuable lesson—when you insult a Pennsvalley Dutchman you are monkeying with a buzz saw. This fellow, by name of Kline, became abusive and wanted to fight a "Dutchman," no matter if he was a six footer, after hurling insult and profanity broad cast, a little fellow tackled Mr. Kline, closed one of his lookers, knocked him down and gave him a most splendid thrashing, which the young man will not forget for some time. Another Nittany valley kid met with a similar fate. He insulted men and women and tried to run the sale, but was greatly disappointed. He insulted the wrong man and was knocked down, trampled in the mud before he could say "Jack Robinson."

FIRE AT POTTERS MILLS.

We regret to learn that our esteemed friend, Wm. J. Thompson, of Potters Mills, has again been scorched by fire. His large saw mill was entirely destroyed by fire at 11 o'clock on Thursday night of last week. The flames were started by a spark from the stove and burned very rapidly. The lumber was removed and saved, but the mill and all its contents were destroyed. The loss is quite heavy and insurance small. This is the third serious fire that destroyed valuable property belonging to him. Several years ago his store was burned, a few years later his large grist mill was burned on which he had no insurance. The last two named fires were supposed to have been incendiary in their origin.

RE. IMPROVEMENTS.

The increased business of our railroad has stimulated the company to increase the facilities along the road and make improvements to meet an increase in the traffic along the line. There will be a through wire to Williamsport; new and larger engines will be put on to be sufficient for an increase in freights; the sidings are being lengthened to accommodate longer trains and for the passing of additional trains.

A NEW CREAMERY.

The movement at Lemont to establish a creamery, has resulted in making it a fact. Over \$2000 stock have been subscribed, and Dr. Dale will erect the building on his farm, a short distance west of Lemont, where there is the required spring of fresh water. The erection of buildings is to proceed this spring.

THE SICK.

Ellis Hosterman is able to go from home again. Frank, a son James Alexander, at Earlstown, has been suffering from hemorrhages for the last ten days. Mrs. Sarah C. Neff has improved slightly within the last week. Mrs. John Harper is slowly improving. Thursday was raw and started in with a snow blizzard. Horse collars, all styles and prices at Booper's harness shop, Centre Hall. In another column Dr. Jacobs denies the report that he will take a partner or stop the practice of medicine at this place. On Monday afternoon a freight engine ran off the track near the new furnace, which prevented the passenger train from passing for a short time.

BLIZZARDS.

Tuesday's blizzard was a raw one. Chas. Bollinger now occupies part of the Witmer homestead.

The Methodist had a feast of good things, spiritually, at Bellefonte, last week.

Some fellows at least have wakened up to help the Reporter's agitation for a board walk.

Sober, the noted marksman, has challenged Clearfield county, for a trial of skill—\$500 to \$1000 on a side.

The war between Nittany and Penns valley, at Linden Hall, was short but sharp.

W. B. Garis talks of building a house.

Henry Shafer now runs the Millheim Nat. hotel.

The fields are bare and blizzards like Tuesday's will nip the grain fields.

Chickens were not to be had for love or money at Bellefonte last week—and guess why?

Work has begun on James Coldren's new house, on Church st.

Jacob McCoil has gone to Pine Creek Hollow again to manage a saw-mill.

Mr. Sober, of Sober station, has been the victim of a piece of heartless cruelty. He is the owner of a carefully trained setter dog which he prized very highly. On evening of 2nd he entered his dog house to pass into his chicken house he thoughtlessly let the door of the former stand open and his dog passed out and strayed to one of his sawmills distant perhaps 1/2 mile. Mr. Sober soon heard the report of a gun and the dog's cry of pain. Next morning the blood marks on the snow led to where the dog lay all night in the snow disabled from ball through the upper part of one of his hind legs which shattered the bone. The animal was taken home and is having the care of a surgeon and the owner has hopes of its recovery. The shooting was an act of maliciousness for which Mr. Sober intends making the guilty party suffer the extreme penalty of the law, and declares he would sooner have had a thousand dollars worth of any of his property destroyed than have this harm done to his dog.

Col. Taylor wants \$700 damages for about 2 1/2 acres of ground taken by the railroad but a little east of Old Fort. Whatever damages will be paid will come out of the pockets of a few of our citizens who already paid heavily to secure the railroad for the general good. Mr. Taylor's farm at most will not sell for over \$60 per acre. The railroad has added \$20 to the value of every acre of his farm and the manner in which it passes through does not cause any serious inconvenience. Col. Taylor has said nothing to secure the railroad, and we know that he would sleep sweeter, and die easier and more heroically if he would say to his neighbors, You have done nobly and paid heavily, and since I reap the benefits of your liberality without having paid a cent, why God bless you, I cheerfully present you with the right of way, and if anything more is lacking I will help you a little besides from my abundance.

Come, Colonel, give way to the Macedonian cry of your neighbors and let up on 'em.

The following snake story, from Milroy, via the Lewisport Gazette, comes a little early, nevertheless it may be true: One of the farmers in this neck o' woods white engaged in removing a stump from a field one day last week came upon what greatly resembled a ball of tangled rope. Upon exposure to the sun for a short time he discovered that it was a mass of copperhead snakes, twisted and interlaced together with the heads outward. When stirred up they hissed in a manner horrible enough to make one hairstand on end. Calling assistance he succeeded in dispatching them. When laid out by the side and counted up, there were found to be one hundred and ninety-three serpents.

A CARD.

Mr. Editor—Will you please give me sufficient room in your paper to correct a few misrepresentations now floating regarding my quitting practice, etc. I do not intend to quit the practice of medicine until I am obliged to. Shall endeavor to wait upon all who call upon me—just as I have for the past eleven years. 2nd. Do not want a partner, hence, notwithstanding the report to the contrary, Dr. Chas. Emerick and I are not, and will not be in partnership. I make the above statement for the information of those who have been misinformed. Very Respectfully, W. A. JACOBS.

The borough should have some appliance for extinguishing fires. Don't wait until it is too late—it will cost a little money it is true, but a fire may cost twenty times more.

When the salvation army in Lock Haven halted in front of a saloon the other day and began singing the lines, "It is water, we want, not beer," the saloon keeper, an obliging person, turned the hose on them.

Dr. King's New Discovery is now the standard remedy in the Coleman household and on board the schooner.

SCRAMBLINGS.

Piles of walnut logs all along our rr. stations. Milheim has the measles and the band toots on new horns. Roads are dusty. The Crozier and Sprow trouble of the Blackhawk kingdom, was up for a hearing before Justice Foster at Bellefonte on Tuesday. There was a lively time at Swab's sale last week, between some pugilistic fellows from the Nittany side of the mountain and some of the knights of the fist from this side. There were some heavy blows and lively knock downs. Whiskey is said to have had a hand in the disturbance. Some fellows it is said rolled right into the mud during the melee. WHAT TRUE MERIT WILL DO.

The unprecedented sale of Bosche's German Syrup within a few years, has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of Coughs, Colds and the severest Lung troubles. It acts on an entirely different principle from the usual prescriptions given by Physicians, as it does not dry up a Cough and leave the disease still in the system, but on the contrary remove the cause of the trouble. Heals the parts affected and leaves them in a purely healthy condition. A bottle kept in the house for use when the disease make their appearance, will save doctor's bills and a long spell of serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price, 75 cts. large bottles.
