On Friday, April 1, the inter-state commerce bill goes in force. The main objects of the law are to forbid free passes over railroads, except for employees of a road. Discrimination in freight rates are prohibited, and it will not be lawful to charge higher rates for a short haul than f r a long haul, which will prevent products from the west being shipped to the eastern seaboard for less than from points in the east, as was the case heretofore. This feature of the law is likely to produce a better price for eastern products, as the cheap long haul always operated against the east, especially in farm products, and gave the west an undue advantage over the east.

That must be a queer kind of a Democratic party that has the window smashing Gazette for its organ. We don't pity the Gazette, but its a little rough on the other fellows, viz: The Bellefonte Gazette's "Democratic party." We rather think the Gazette wants to slur the Democratic party by trying to palm off the Bohemian oats kit as the Democratic party, and it is a fit organ for those. One will find that when these are made to take an emetic, it is the Gazette that gets sick and begins to throw up. Come, now, get into good company, else Providence may make it hot for you again.

### A CENTRE COUNTY BOOM.

The sale has just been consumated of a one-half interest in the Lauth Iron works, at Howard this county, which in cludes three furnaces and a rolling mill to a Chicago syndicate. The price to be psid is \$100,000-\$50,000 of which is tobe in cash on the first day of April and will be immediately devoted to improving and putting the works in operation, as they have been idle for several years. The resumption of these works will cause a boom in this community, as they will employ when in full blast, 250 to 300 men. They will manufacture steel by the Bessemer process and iron of the best grade.

(From the New York Observer.

We have had many communications agreeing with the article upon benevolence of men with large means, and subjoin one of these letters which contains some just criticisms upon a a style of remarks heard from the pulpit:

The letter of "Augustus" in Observer of March 10 was very necessary and proper. A minister recently said to a church that they should be ashamed that a collection for Foreign Missions was so very small, which was nearly \$4,400. The question frem my pew was mental. "What bank shall one rob?" It seems never to enter into such minds, that many members of a church are just as conscientious as they are, and just as well educated, and that all such talk is simply ill judged and offensive. # ONE MORE JERSEY CRIME.

Fierce and Desperate Struggle. RAHWAY, N. J., March 27 .- Four brothers Thomas, Irwin, Alfred, and Frank Worth, who live at Milton near here, when on their way to work, came upon the body of a woman lying near a fence at the side of the road. Great gashes covered the woman's throat and her face was covered with blood from the wounds, making a horrible sight. Marks of a fierce struggle could be seen near where she lay, as well as on the face, neck and hands.

There were many footprints near the body, but all were made by men, except a trail alongside the fence, where a woman had been running. This was plain, because the stride was much longer than a woman would make if she walked. The trail could be followed back to a cross road, a little over 100 feet from the body. There it had been obliterated by travel. Most of the large footprints were accounted for by the ried along by westerly gales accompanied fact that the fence by the roadside had been put up on Friday. They were made by workmen. At the girl's feet, however, were deep footprints, as if some one there man ran back over the course by which the

woman had approached. Having disposed of this preliminary examination, the police arranged the disordered dress on the dead woman's body. For the first time the murder's work was then fully exposed. The woman's head lay in a slight depression of the ground. Little could be seen of the features, for her assailant, after cutting her throat and slashing her neck and chin, had stamped upon the right side of her face driving the left side into the brown mud. The depression of ground was not much larger than the outlines of the head, and a red pool had formed around her brown hair. Close to her shoulders lay a fur-trimmed sacque which she had thrown off. Her shapely hands were dressed in neat gloves One of tire was plain, but well cared for, and that her shoes were covered to the tops with mud, nothing could be seen by the spectators other than has been stated. That sons visited the spot during the morning,

but no one recognized her. Further signs of a terrific struggle were found on close examination. The marks upon the face showed that she had been
