

WHAT IS IT?

A Pestilence that Walks in Darkness—A Destruction that Wastes a Noontide.

We have published in our columns from time to time different advertisements in regard to Bright's Disease and its cure.

What is this terrible disease? We have taken the trouble to make an investigation from the best sources and we give the results to our readers.

What astonishes us is the general indifference given to kidney disorders. The kidneys do not sound the alarm of their diseased condition, owing to the fact that they have very few nerves, hence few suspect that there is any disease in them.

As soon as this begins to take place it is only a question of how fast decomposition goes on before the disease results fatally. If the proper remedies are taken before final decomposition or waste of these tubes commences or becomes too far advanced, that is the only and last chance for relief.

Our grand business is, not to see what lies clearly at hand. How's your back? Hop Plasters cure weak back, sideache, rheumatism and strengthen tired parts.

The Hop Porous Plaster gives comfort to rheumatic pains, tired muscles, lame back, etc.

When a resolutions is once formed half the difficulty is over. Are You Making Money? There is no reason why you should not make large sums of money if you are able to work.

To have what we want is riches, but to be able to do without it is power. Hood's Sarsaparilla is characterized by three peculiarities: 1st, the combination of remedial agents, 2d, the proportion, 3d, the process of securing the active medicinal qualities.

Hope is the cordial of the human heart. FITS: All Fits stopped free. Treatise and Special Notice of Dr. Kline's Great Nerve Restorer, free to all who send for it.

It is easy to flatter. It is harder to praise. "ROYAL BLUE" mends anything! Broken China, Glass, Wood. Free Valise at Drugs & Gro.

One hand cannot expiate the wrong of the other. ST. BERNARD VEGETABLE PILLS. WARRANTED PURELY VEGETABLE. The best cure for Liver and Biliary Complaints, Costiveness, Headache, Rheumatism, and Dyspepsia.

There appears to be some one cause for nearly every other ailment of the human system, but up to the present time no one has been able to fully account for this terrible malady.

Careful experiments on the sense of smell in dogs has been made by George J. Romans, who has communicated the results to the Linnaean Society of London. He finds that not only the feet but the whole body of a man exhale a peculiar or individual odor which a dog can recognize as that of his master.

It is now fairly established that the common wart which is so unightly and often profuse on the hands and face, can be easily removed by small doses of sulphate of magnesia taken internally. M. Coit, of Lyons, has drawn attention to this extraordinary fact.

Manufacturers of kerosene oil say that all lamps are safe with good oil, and that the quality of oil can be ascertained by the following test: Take a pint tin cup, fill it nearly full of water, warm it so that an ordinary thermometer immersed in it will show 120°, pour a small quantity of oil on the water, stir it a little, then pass a lighted match quickly but closely over the surface of the oil once; if it ignites the oil is unsafe.

Dr. N. B. Richardson considers the most delicate effect of the "night cap" is the extra work it gives the heart. He says: "When I lie down at night without any alcohol, that is the rest my heart gets. But when you take your wine or grog you do not allow that rest, for the influence of alcohol is to increase the number of strokes, and, instead of getting this extra, you put on something like 15,000 extra strokes, and the result is you rise up very unfit for the day's work till you have taken a little more of the 'rubby bumper.'"

"WELL, my daughter, your mother and I have been consulting recently about the windows for our new house. What kind would you like in the parlor?"

"Oh, thank you, papa, for seeking my advice. I should prefer beau windows, by all means."

"MY SON," said a pious father last Sunday morning, "do you hear those bells ringing? You know what they mean, do you?"

"Cheer up," replied the absent-minded boy without looking up from his paper, and then father and son went down into the cellar and held appropriate services.

Dr. G. O. Frasier, of Randolph, O., says that a small amount of the oil of cinnamon applied with a straw, or tiny brush, is the best remedy for bee stings. It will blister the skin, but will destroy the poison.

A LETTER From the Mother of Miss Jessie Bonesteel. Rochester, N. Y., April 22, 1886.

GENTLEMEN:—It is with pleasure I add my testimonial to the many well-known cures which your most excellent remedy has effected. For more than two years I was a great sufferer with rheumatism, being scarcely free from pain during the time.

I am, very truly yours, MRS. H. S. BONESTEEL. SYRACUSE, N. Y.

GENTLEMEN:—I have been troubled with Rheumatism for three years, at times very badly afflicted; was in that condition about two weeks ago, when I got a bottle of Dr. Pardee's Rheumatic Remedy, and in three days' time was greatly relieved, and have not been troubled with it since I finished this bottle.

I believe it will do all that is claimed for it. Yours truly, JOHN BLODGETT, 62 Madison St., Lockport, N. Y.

GENTLEMEN:—I think the medicine prepared by the Pardee Medicine Company is in fact the best rheumatic medicine now on the market; its equal is not known.

WAYBACK'S NEW ATTRACTION.—Wayback Man—"Guess you remember me. I'm the manager of the Wayback Opera House."

"Omaha Music Dealer—"Yes, you were here some time ago and bought some music." "Correct. Now I don't like to call names, but I say that the man who sold me that there lot o' music isn't— isn't—well, he isn't much of a musician."

"I sold you that music and know that it was carefully selected." "You do? Then how in Hell Columbia did it come out the way it did when the Wayback orchestra played it? They're no slouches, mind ye, we imported 'em. Why, sir, that music most drove us wild."

"I can't imagine, unless some of the parts were omitted. You remember I cautioned you that the music was arranged for a full orchestra." "Yes, that's just what I told the boys, and we thought it was pretty tough 'avin' all that extra expense piled onto the cost of the music and the musicians, but we was in for a big blowout and we stood it."

"Extra expense! What extra expense?" "Why, gettin' the orchestra full." "DISADVANTAGE OF BEING A BACHELOR.—"Won't you join our club, Jack?"

"Couldn't think of it, my boy." "Why not?" "I'm not married."

"What has that to do with it?" "Everything in the world. I have nobody to wait up for me at night. The house in which I lodge closes at ten every night and there are no latches keys allowed. Wait until I'm married and can stay out as long as I please and then I'll join you."

"GOOD morning, Mr. Skipper; morning again?" "Yes." "What is the matter now? I thought you were comfortably fixed for the winter."

"Well, so I was; but I fell a week in arrears with my board, and my landlady served my coffee in a fancy cup this morning. The cup had gilt lettering on it that read: 'Think of Me.' I paid my bill and got out. You can bet I wouldn't put up with any such base hint as that was. Bear a hand with one of these grips, old man, if you are going down my way."

WHEN does a man become a seaman? "When he hems and haws?" "No." "When he threads his way?" "No." "When he rips and tears?" "No." "Give it up." "Never, if he can help it."

OMAHA Proof Reader (going over a Montreal letter)—"There is nothing like Canadian winter sports to make men congenial." Is that word 'congenial' right?"

Copy Holder—"I can't tell; it's all blurred." "Must be some mistake about it." "May be there is." "Yes, I'll change it to 'congeal.'"

A Printer's Error. Sweet are the uses of adversity, the printer's copy said, but he set it up, sweet are the uses of advertising. Sweet, indeed, to those who in sickness and suffering have seen the advertisement of some sovereign remedy, which upon trial has brought them from death's door.
