FARM NOTES.

IT PAYS TO GROW THE BEST, -Will it pay to raise anything but the best? Does it pay to go on year after year cultivating and using inferior fruits when it is just as easy and much more profitable to raise the best? The best is good enough for any one, and nothing but the best is good enough. In saying the best we mean the best the climate, the soil and the circumstances surrounding one will enable one to raise. The fruit that will be the best for one may not be the best for another; there is, in other words, no absolute best-one that in all places and all circumstances is the best-but there is something better in all classes of fruits than the varieties our fathers raised. Especially is this true of apples, currants and berries. In some States varieties were grown years ago that, unless a boy's love for apples has deceived us, have not been excelled; but these are few in number and limited in area. In the newer States of the Mississippi Valley new fruits adapted to the conditions of climate and soil had to be found. Many of the standard sorts could not be grown with success, and new varieties were introduced. It goes without saying that the varieties have been improved wouderfully in the years of trial. He who clings to the old sorts is making a serious mistake. In currants there is such an improvement that the old sorts and the new ones are like entirely different fruits. The improvement is not only in size but in bearing qualities and flavor of the berry. Currants are so cheap that no one should cling to them. The new ones should be set, and, when grown, take the place of the old ones. This is also true of mose of the berries. In the raspberrits there is no comparison between the new and old sorts. There is no reason why any one should not have all the fruit he wants in the gadren, and in sufficient varlety and quantity to last oughly." the season through, and that of the best varieties raised.

Domestic animals, especially growing stock, do not thrive without a copious supply of light. Fattening stock put on plenty of weight in darkness, but this is not thrift; it is cruelty, and their flesh is not fit for human consumption. Cleanliness may be observed (1) by keeping the stalls clean, and (2) by cleaning the animals themselves. Animals breathe, as it were, through the pores of the skin, as well as by Uncle Rebus to his nephew. means of the lungs. Dirt stops up these pores and throws greater burdens upon the lungs, promoting disease and acting prejudically to the products as food for human consumption. There should be free and constant communication between the air and the pores, which is prevented by dirt on the skin, and for this reason also the air in the stables should be pure.

as shown by experiments at Fort Scott, effective in cases of sick and nervous head-Kan, by Professor Wiley, of the Agricultural Bureau, points to the more blood to the head, cold extremities, and all profitable making of cane and even ailments arising from obstruction of the sorghum. The extraction of the sweet from cane or sorghum or beets has been by squeezing under pressure. The new way is called the diffusion process, and consists in soaking out the saccharine matter. The average yiell of juice by the pressure process the National Government for the last from 56 to 61 per cent. of the whole. By the best appliances from 70 to 80 per cent. has been obtained. By the diffusion process it is claimed that 90 to 95 per cent, of all the juice can be extracted, and that in a much better condition.

THE freezing point, and even up to 40° Fahrenheit, is too low for milch cows standing quietly in their stalls, if they are expected to do their best in the way of milk production. A range from 450 to 600 gives about the right average and is wide enough. Experiment has shown that at a lower temperature they begin to shiver. and at a higher they begin to pant in witter. They endurea much higher temperature in summer, and this is the time they turn out the most milk. Doubtless they would stand a higher temperature in winter if used to it from the beginning, but with the ordinary ventilation of stables it is doubtful if a higher temperature would be healthful.

Ir is more economical to feed a variety, especially to growing stock, which demand more nicrogen and the phosphates than do those more matured, as the first must not only renew waste but add to the flesh and bone, who are willing to work for the reward of while the adult is required only to renew waste. An adult animal, therefore voids the excess of nitrogenous material, and as a consequence the manure from a mature animal is more valuable than that from one which has not completed growth. An adult animal confictions of the first of t mal also fattens at a less cost; there- at once and sec. fore, as but a small proportion of nitrogen is required, the mode of feeding depends upon the age and the object desired to be obtained.

The great ranche of L. J. Rose, at Los Angeles, Cal., embracing in all about 1950 acres of land, largely planted with grapevines and orange trees, has been conveyed to an Englishman for the sum of \$1,037,500. It is expected to pass into the hands of a company, of which the capital stock will be \$3,000,000.

Dull trade can be enlivened by ad-

COCKLE'S ANTI-BILIOUS PILLS

THE GREAT ENGLISH REMEDY For Liver, Bile, Indigestion, etc. Free from Mer-eury; contains only Pure Vestable Ingrements. Agent: C. N. CELTTENTON, New York.

DYSPEPSIA

Causes its victims to be miserable, hopeless, confused, and depressed in mind, very irritable, languid, and drowsy. It is a disease which does not get well of itself. It requires careful, persistent attention, and a remedy to throw off the causes and tone up the digestive organs till they perform their duties willingly. Hood's Sarsaparilla has proven just the required remedy in hundreds of cases.

"I have taken Hood's Sarsaparilla for dyspepsia, from which I have suffered two years. I tried many other medicines, but none proved so satisfactory as Hood's Sarsaparilla." THOMAS COOK, Brush Electric Light Co., New York City.

Sick Headache

"For the past two years I have been afflicted with severe headaches and dyspepsia. I was induced to try Hood's Sarsaparilla, and have found great rellef. I cheerfully recommend it to all." Mrs. E. F. ANNABLE, New Haven, Conn.

Mrs. Mary C. Smith, Cambridgeport, Mass., was a sufferer from dyspepsia and sick headache. She took Hood's Sarsaparilla and found it the best remedy she ever used.

Hood's Sarsaparilla Sold by all druggists. \$1; six for \$5. Made mly by C. I. HOOD & CO., Lowell, Mass. 100 Doses One Dollar.

MATERNAL CARES .- Young Matron with theories on the care of children, to nurse)-"Jane."
Nurse-"Yes-sum."

Young Matron-"When the baby has finished his bottle, lay him in the the old sorts simply because he has cradle on his right side; that relieves the pressure on the heart, Still (reflectively) the liver is on the right side; perhaps, after ali, you had better lay him on his left side. No, I am sure the treatise on infant digestion said right side. On the whole, Jane, you may lay the baby on his back until I have looked the matter up more thor-

> Horoscopes.-Kosciusko Murphy-"I say, Gus, do you believe in boroscopes?"

LIVER, BLOOD AND LUNG DISEASES.

LIVER DISEASE
AND
HEART TROUBLE.

Mrs. Mary A. McClure, Columbus, Kans., writes: "I addressed you in November, 1884, in regard to my health, being afflicted with liver disease, heart trouble, and female weakness. I was advised to use Dr. Pierce's Golden Medical Discovery, Favorite Prescription and Pellets. I used one bottle of the 'Prescription,' five of the 'Discovery, favorite Prescription and Pellets.' My health began to improve under the use of your medicine, and my strength came back. My difficulties have all disappeared. I can work hard all day, or walk four or five miles a day, and stand it well; and when I began using the medicine I could scarcely walk across the room, most of the time, and I did not think I could ever feel well again. I have a little baby girl eight months old. Although she is a little delicate in size and appearance, she is healthy. I give your remedies all the credit for curing me, as I took no other treatment after beginning their use. I am very grateful for your kindness, and thank God and thank you that I am as well as I am after years of suffering."

LIVER
DISEASE.

Mrs. I. V. Webber, of Yorkshire, Cattaraugus Co., N. Y., writes: "I wish to say a few words in praise of your 'Golden Medical Discovery' and 'Pleasant Purgative Pellets.' For five years previous to taking them I was a great sufferer; I had a severe pain in my right side continually; was unable to do my own work. I am happy to say I am now well and strong, thanks to your medicines."

Chronic Diarrhea Cured .- D. LAZARRE, Esq., 275 and 277 Decatur Street, New Orleans, La., writes: "I used three bottles of the 'Golden Medical Discovery, and it has cured me of chronic diarrhea. My bowels are now regular."

GENERAL
DEBILITY.

Mrs. Parmelia Brundage, of 161 Lock Street, Lockport, N. Y. writes; "I was troubled with chie, nervous and general debility, with frequents sore throat, and my mouth was badly cankered. My liver was inactive, and I suffered much from dyspepsia. I am pleased to say that your 'Goiden My liver was inactive, and I suffered much from dyspepsia, and 'Pellets' have cured me of all these ailments and I cannot say enough in their praise I must also say a word in reference to your 'Favorite Prescription,' as it has proven itself a most excellent medicine for weak femalis. It has been used in my family with excellent results."

Dyspepsia,—James L. Colby, Eso. of Yugatan Houses, Colony, Say 1980.

Dyspepsia.—James L. Colby, Esq., of Yucatan, Houston Co-Minn., writes: "I was troubled with indigestion, and would eatheartily and grow poor at the same time. I experienced hearthurn, sour stomach, and many other disagreeable symptoms common to that disorder. I commenced taking your 'Golden Medical Discovery' and 'Pellets, and I am now entirely free from the dyspepsia, and am, in fact, healthier than I have been for five years. I weigh one-hundred and seventy-one and one-half pounds, and have done as much work the past summer as I have ever the whole system equal to your 'Discovery' and 'Pellets."

Dyspepsia.—Theresa A. Cass, of Springfold, Mo., writes:

Dyspepsia. —Theresa A. Cass, of Springfield, Mo., writes: "I was troubled one year with liver complaint, dyspepsia, and sleeplessness, but your 'Golden Medical Discovery' cured me." Chills and Fever.—Rev. H. E. Mosley, Montmorenci, S. C., writes: "Last August I thought I would die with chills and fever. I took your 'Discovery' and it stopped them in a very short time."

"THE BLOOD IS THE LIFE."

Thoroughly cleanse the blood, which is the fountain of health, by using Dr. Pierce's Golden Medical Discovery, and good digestion, a fair skin, buoyant spirits, and bodily health and vigor will be established.

Golden Medical Discovery cures all humors, from the common pimple, blotch, or eruption, to the worst Scrofula, or blood-poison. Especially has it proven its efficacy in curing Salt-rheum or Tetter, Fever-sores, Hip-joint Disease, Scrofulous Sores and Swellings, Enlarged Glands, and Eating Ulcers.

Rev. F. Asbury Howell, Pastor of the M. E. Church, of Silverton, N. J., says: "I was affilicted with catarrh and indigestion. Boils and blotches began to arise on the surface of the skin, and I experienced a tired feeling and duliness. I began the use of Dr. Pierce's Golden Medical Discovery as directed by him for such complaints, and in one week's time I began to feel like a new man, and am now sound and well. The 'Pleasant Purgative Pellets' are the best remedy for billous or sick headache, or tightness about the chest, and bad taste in the mouth, that I have ever used. My wife could not walk across the floor when she began to take your 'Golden Medical Discovery.' Now she can walk quite a little ways, and do some light work."

Mrs. Ida M. Strong, of Ainsworth, Ind., writes:

"My little boy had been troubled with hip-joint disease for two years. When he commenced the use of your Golden Medical Discovery and Pellets, he was confined to his bed, and could not be moved without suffering great pain. But now, thanks to your Discovery, he is able to be up all the time,

and can walk with the help of crutches. He does not suffer any pain, and can eat and sleep as well as any one. It has only been about three months since he commenced using your medicine. I cannot find words with which to express my gratitude for the beauty the heat received through your." benefit he has received through you."

Skin Disease.—The "Democrat and News," of Cambridge, Maryland, says; "Mrs. Eliza Ann Poole, wife of Leonard Poole, of Williamsburg, Dorchester Co., Md., has been cured of a bad case of Ezzema by using Dr. Pierce's Golden Medical Discovery. The disease appeared first in her feet, extended to the knees, then attacked the elbows and became so severe as to prostrate her. After being treated by several physicians for a year or two she commenced the use of the medicine named above. She soon began to mend and is now well and hearty. Mrs. Poole thinks the medicine has saved her life and prolonged her days."

Mr. T. A. Ayres, of East New Market, Dorchester County, Md., vouches for the above facts.

CONSUMPTION, WEAK LUNGS, SPITTING OF BLOOD.

GOLDEN MEDICAL DISCOVERY cures Consumption (which is Scrofula of the Lungs), by its wonderful blood-purifying, invigorating and nutritive properties. For Weak Lungs, Spitting of Blood, Shortness of Breath, Bronchitis, Severe Coughs, Ashima, and kindred affections, it is a sovereign remedy. While it promptly cures the severest Coughs it strengthens the system and purifies the blood.

It rapidly builds up the system, and increases the flesh and weight of those reduced below the usual standard of health by "wasting diseases."

"wasting diseases."

Consumption.—Mrs. Edward Newton, of Harrocemith.
Ont., writes: "You will ever be praised by me for the remarkable cure in my case. I was so reduced that my friends had all given me up, and I had also been given up by two doctors. I then went to the best doctor in these parts. He told me that medicine was only a punishment in my case, and would not undertake to treat me. He said I might try Cod liver oil if I liked, as that was the only thing that could possibly have any curative power over consumption as a last treatment, but I was so weak I could not keep it of it of give me up yet, though he had bought for my complaint, procured to give me up yet, though he had bought for my complaint, procured to give me up yet, though he had bought for a number of your "Golden Medical Discovery," I will be restored to perfect health. I have been afflicted with rheumelism for a number of years, and now feel so much better that continuation of your "Golden Medical Discovery," I will be restored to perfect health. I would say to those over, it will be restored to perfect health. I would say to those over, it will be restored to perfect health. I would say to those over, it will be restored to perfect health. I would say to those over, it will be restored to perfect health. I would say to those over, it will be restored to perfect health. I would say to those over, it will be restored to perfect health. I would say to those over, it will be restored to perfect health. I would say to those over, it will be restored to perfect health. I would say to those over, it will be restored to perfect health. I would say to those over, it will be restored to perfect health. I would say to those over, it will be restored to perfect health. I would say to those over, it will be restored to perfect health. I would say to those over, it will be restored to perfect health. I would say to those over the perfect of the control of the perfect of the disease, and thereby says a great deal of suffering and be restored to eakh at
