-An exchange states that war on the cigarette has been declared by Prof. White, of the University of Pennsylvania. This is wrong for cigarettes kill off legions of useless young men, and it is not considered saicide.

-So much of the act of 1885, providing for the destruction of foxes, minks, hawks, weasels and owls has been repeal ed by the Legislature.

-Bald Eagle valley and ridges, is the only section in our county, in which the wheat fields throughout look fair.

—Petitions numerously signed, for the pardon of Reinhard, of the Grit, now in the Bellefonte jail, are being circulated. The people generally, favor a pardon, we think.

-Vegetation has come farward wonderfully within the last two weeks, and even some of the poorer grain fields are trying to show a better appearance.

-The State fish hatching house at Corry has just sent out 18,000 young trout over the Beech Creek and the Bald Eagle Valley Roads, for distribution in differ ent streams of Centre and Clearfield

Many will be the candidates for office, but few will be called. See that your calling and election be sure.

--- Col. James Milliken, of Bellefonter has been a great traveler in his time. He has been all over Europe, Palestine, Egypt, and countries in Africa, and, of course has traveled all over the United Stated and South America. The Colonel's memory is full and fresh with interesting incidents of his travels, and could, no doubt, write an interesting volume on what he has seen.

—Mr. Adam Hart, the oldest citizen of the West Branch Valley, celebrated his 99th birthday last Friday. He was born on the 6th day of May, 1778, says the Museum Lawring on the 18th day of May, 1778, says the Muncy Luminary, one year before George Washington was inaugurated President of the United States for his first term. Mr. Hart has, therefore, lived under every one of our twenty two Presidents. He was a boy of twelve when the Nineteenth Century came in, and a young man of twenty-six when the War of 1812 began. Mr. Hart has lived in Clinton township for many years, and enjoys fairly good health in spite of his advanced age.

THE NATIONAL DRILL AND EN-CAMPMENT AT WASHINGTON.

The National Drill and Encampment, which opens in Washington May 23d, continuing until the 30th, will be one of the most interesting events that ever occurred in the history of America's militia. COMMON SENSE REASONS WHY THE IMPROVED HENLY . MONARCH . FENCE' MACHINE IS THE BEST AND HAS NO EQUAL.

1 Because the wire is stretched the full length of the field before the weaving is com menced.

2 Because any sized wire can be used, and either 2, 3, 4, or 5 double strands can be used, weaving all with equal facility.

3 Because any size, length, or style of picket, or slat, or board, can be used, weaving fancy iron pickets equally well and solid.

4 Because it will make a fence over rough and uneven ground, or up and down hill alike, making as good a fence as on even, level ground; and the machine being adjustable, the pickets are all woven plumb.

5 Because the Monarch machine stretches the wire tighter, thus making the strongest and best wire and picket fence.

6 Because any one, man or boy, can operate it, and there are no parts to get out of order and 6 Because any one, man or boy, can operate it, and there are no parts to get out of order and

7 Because it is made of the best materials, and, with proper care, will last a life-time.
8 Because the price is within the reach of every farmer.
9 Because it is the only machine that forces the slat or picket firmly against the wire, thus securing the slat in such a solid and and permanent manner that it cannot be pulled out, and breakage is impossible.
10 Because the fence made by this machine will turn all kinds of stock, and is much stronger than any barb wire fence, and completely obviates all danger of injury to stock.
11 Because by weaving past the post, and fastening the wire strands to the posts with staples, and not nailing the slats to posts, thus keeping the wood parts from coming in contact with each other, it will not hold the moisture or rot. This is a very important matter, as all boards in board fences soon rot off at post, and occasion continued expense for repair.
12 Because all kinds of old material can be used for making new fence.
13 Because it makes the handsomest, best, strongest, and most durable fence, and is the only first-class, practical fence machine in the world.
