FARM NOTES.

PULVFRIZATION OF THE SOIL.

HOUSEHOLD.

The following experiment made by the editor of the Live Stock Journal shows the great importance of the thorough pulverization of the soil: "We once experimented by hauling twenty-four of flour and three teaspoonfuls of baklarge loads of the best manure upon two acres of clay-loam land, had it well cultivated into the soil, which had been worked in the ordinary way. but was somewhat lumpy. This and the adjoining two acres were to be sown to corn for fodder. Upon the other two acres no manure was I ut, but it was plowed and cultivated till the soil, four inches deep, was as fine as a garden bed. One and a half busels, of corn were drilled per acre upon each plece, drills 16 inches apart. When this corn was in blossom and ready to cut, the unmaaured two acres stood eighteen inches higher than the manured piece. On selecting two sample rods in different places upon each piece, cutting the green corn carefully weighing it, the manured piece gave 275 pounds per rod, and the unmanured, but finely pulverized, gave 350 pounds per rod-the manured giving twenty-two tons per acre and the other twenty-eight tons per acre. The cost of extra working was \$2.50 per acre. Could there be any doubt that the extra labor was well paid for? It must be evident to every thoughtful farmer that the first thing to be done in furnishing food for crops is to work more thoroughly and give finer pulverization, and when this is accomplished then an application of some fertilizer."

A CORRESPONDENT says the following is a recipe for making an excellent liniment: "Oil cedar, two ounces; spirits turpentine, two ounces; sweet oil, two ounces; hartshorn, two ounces. To this add a lump of gum camphor as large as a man's thumb from first joint. With this I cured a valuable horse of blood spavin. It will cure sweeny the quickest of anything I . ver used. It is good for headache and other pains and aches."

A WRITER contends that by planting corn at the earliest safe moment we not only increases the chances that the crop will receive the necessary number of degrees of accumulated heat during the warm season but the number of hours of sunshine as well; and, what is of nearly as much importance, we advance the epoch of blossoming several days, and by so doing hasten maturity by several weeks. This is a new a d surprising statement to many, but it is, nevertheless, a correct one.

GIVE THE COWS WATER-When cows are obliged to live on hay they have a stronger desire for water than flesh.

THE structure of wool is by no

STEAMED FRUIT PUDDING .- Take two cups of suet chopped fine, two of boiling hot coffee, two of brown sugar, one-half pound of raisins chopped fine, one-half pound of currants and onequarter of a pound of citron, five cups ing powder sifted into the flour, one teaspoonful of salt; pour into a bag and steam three hours; do not lift the cover from the steamer during that

Then serve hot with this sauce: time. Two tablespoonfuls of flour, threequarters of a cup of sugar, one tablespoonful of butter, one pint of hot water; boil all together; add lemon or vanilla flavoring.

ALMOND CAKE .--- One cup of butter, one cup and a half of sugar, three eggs, half a cup of milk, three teaspoonfuls of baking powdder, about two cupfuls of flour: flavor with a little almond extract; blanch one pound of almonds, lay aside enough to cover the top of the cake when they are cut in halves, chop the rest and put them into the cake. After the cake is in the tin lay the split ones on top of the cake. They will rise and brown as the cake bakes. This is delicious. Just try it the next

saucepan or in a small pan used for baking. When it is melted, lay the slices in, put a little lump of butter on each slice, cover with a plate, or, better still, with a tin cover made expressly to fit over the baking-pan. Let them bake from one-half to three-quarters of an hour. Serve on toast.

FRENCH BEAN SAUTE .- For this purpose the beans must be chosen small and young, as they are to be cooked whole. Pick, and put them in plenty of boiling water with a pinch of salt boil in an uncovered saucepan until tender; drain them, put them back into the stewpan and toss them over a brisk fire in the proportion of two ounces butter to one pound beans, a pinch of salt and a few drops of lemon juice. When all are mixed, turn into a hot vegetable-dish and serve.

CABINET PUDDING WITH JELLY SAUCE. - Pick over very carefully onequarter of a pound of dry currants, wash them in the colander with plenty if fed on other kind of fodder. See of cold water and dry them on a clean that they have access to it at all times. | towel. Slice some stale bread. Butter It will pay to give the milk cows a a plain pudding mold, put the bread pailful of water at noon in which a and currants into it in alternate layers, quart of bran has been stirred. A lack | and pour over them a custard. Set the of water will quickly cause a shrink-age in milk as well as an actual loss of saucepan half full of boiling water; cover the saucepan and let the pudding steam an hour.

Hood's Sarsaparilla

This successful medicine is a carefully-prepared extract of the best remedies of the vegetable kingdom known to medical science as Alteratives, Blood Purifiers, Diuretics, and Tonics, such as Sarsaparilla, Yellow Dock, Stillingia, Dandelion, Juniper Berries, Mandrake, Wild Cherry Bark and other selected roots, barks and herbs. A medicine, like anything else, can be fairly judged only by its results. We point with satisfaction to the glorious record Mood's Sarsaparilla has entered for itself upon the hearts of thousands of people who have personally or indirectly been relieved of terrible suffering which all other remedies failed to reach. Sold by all druggists. gl; six for g5. Made only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

RHEUMATISM AND CATARRH CAN BE CURED.

CANANDAIGUA, N. Y., May 28, 1886.

Pardee Medicine Co.,

GENTLEMEN :- Nearly all winter I was confined to my room with inflammatory rheumatism. I commenced using Dr. Pardee's Rheumatic Remedy, but after "The widower looked at it with the most tender interest. "It is her very self!" he exclaimed; "her large nose— the sign of goodness!" Then, burst-ing into tears, he exclaimed: "She ness leaving my arms and shoulders and

completely cured me. At the time I commenced using the remedy I had a throat difficulty and the catarrh, which I found to be better after taking it, and it occurred to me to use it as a gargle, which I did, and to my great satisfaction I improved rapidly, and to-day am free from both rheumatism and catarrh. I consider it indispensable as a family medicine. I take one teaspoonful after breakfast and find it a splendid tonic. would advise you to recommend it as a gargle for throat troubles and catarrh, for I know it will cure. I have seen some remarkable. cures from the use of this remedy, and it is one I can recommend to all.

I am, very truly yours, E. R. McCALL.

Less than one-half the Amount cured him.

John C. Heron, of 46, 4th street, Rochester, has been troubled for years with rheumatism in the shoulders and about to get his face extremely dirty after he had eaten his supper, and was told by his mother to wash it before he went to e heart. He was cu

ers of Dr. Sage's Catarric Remedy, for a case of Chronic Nasal Catarrh which they cannot cure.

SYMPTOMS OF CATABRH.-Dull heavy headache, obstruction of the masal passages, discharges falling from the head into the throat, sometimes profuse, watery, and acrid, at others, thick, tenacious, mucous, purulent, bloody and putrid: the cycs are weak, watery, and inflamed; there is ringing in the ears, deafness, hacking or coughing to clear the throat, expectoration of offensive matter, together with scabs from ulcers; the vice is changed and has a nasal twang; the breath is offensive; smell and taste are im-paired; there is a sensation of diziness, with mental depression, a hacking cough and gen-eral debility. Only a few of the above named symptoms are likely to be present in any one case. Thousands of cases annually, without manifesting half of the above symptoms, re-sult in consumption, and end in the grave. No discase is so common, more deceptive and dangerous, or less understood by physicians. By its mild, soothing, and healing properties, Dr. Sage's Catarrh Remedy curves the worst Coryza, and Catarrhal Headache. Boilt by druggists everywhere; 50 cents. SYMPTOMS OF CATARRH.-Dull.

"Untold Agony from Catarrh."

"Untold Agony from Catarrh." Prof. W. HAUSNER, the famous mesmerist, of Ibaca, N. Y., writes: "Some ten years ago I suffered untold agony from chronic nasal-catarrh. My family physician gave me up as incurable, and suid I must die. My case was such a bad one, that every day, towards sun-set, my voice would become so hoarse I could barely speak above a whisper. In the morning," my coughing and elearing of my throat would almost strangle me. By the use of Dr. Sage's Catarrh Remedy, in three months, I was a well man, and the cure has been permanent."

"Constantly Hawking and Spitting." "Constantly Hawking and Spitting." THOMAS J. RUSHING, Esq., 2902 Pine Street, St. Louis, Mo., writes: "I was a great sufferer from catarrh for three years. At times I could hardly breathe, and was constantly hawking and spitting, and for the last eight months could not breathe through the nostrils. I thought nothing could be done for me. Luck-ity, I was advised to try Dr. Sage's Catarrh Remedy, and I am now a well man. I believe it to be the only sure remedy for catarrh now manufactured, and one has only to give it a fair trial to experience astounding results and a permanent cure."

Three Bottles Cure Catarrh.

ELI ROBBINS, Runyan P. O., Columbia Co., Pa., says: "My daughter had catarrh when she was five years old, very badly. I saw Dr. Sage's Catarrh Remedy advertised, and pro-cured a bottle for her, and soon saw that it helped her: a third bottle effected a perma-nent cure. She is now eighteen years old and

sound and hearts

means a simple one, or one easily made out. Instead of consisting, as cotton, of a single hollow cell, whose walls cylinder, not always of the same diameter from end to end, and consisting of three entirely distinct parts.

CONVENIENCE of farm buildings is an important aid in good farming, especially where much stock is kept and there are many chores. Water should always be provided in the barnyard, the feeding boxes should be near where the feed is kept, and the building small flakes and put it by. Slice very should not be very far removed from finely a couple of onions, fry them in the house. If this results in more neatness about barns and barnyards tomato sauce, a dash of pepper and the than has been thought necessary, it codfish. Let the whole simmer on a will be another important advantage gained.

A CLOVER pasture is of most value for growing hogs, though very cheap food for a part of the ration after the fattening process is begun. During the spring, when most rapid growth is taking place, an acre of green clover would furnish green food for a dozen or more hogs being fed corn to fatten.

EVERY farmer has noticed the deterioration of oats. The best varieties fall back after a few years and are little be ter than the common oat. More attention might be profitably either sex, however induced, speedily and given to the seed. Two suggestions permanently cured. Book for 10 cents in have been made. Thrash the bundles lightly with a flail and thus get the best seed; the other, winnow out all the light oats.

STEADY application is what counts in any business, especially in farming, for in this employment a day or an hour wasted is usually more than loss of time, for it is opportunity gone.

ON THE average farm a calf that will in three years with the same feed and care make as heavy and as valuable a helfer or steer as another calf will do in four years is worth at least \$15 more when dropped.

IT IS never good policy to divide a farm in small fields, for it is waste of lands, waste of time, and oppressive is invisible thought. burdensome tax in construction and maintenance.

RAW manure fresh from the stable is injurious to young fruit trees. Use wood ashes as a fertilizer where they can be obtained in sufficient quanities. Apply bountifully as far as they go.

PEN your sheep at night on the poorest knolls of your fields. Sow grass seed after them and you will very soon recognize the value of the meek and lowly sheep as a fertilizing machine.

SHOULD any vermin render the life of his -calfship miserable, bear in mind that a mixture of lard and sulphur rubbed along the back and sides will cause him to look on the bright If afflicted with sore eyes use Dr. Isaac Thomp-side of life.

HOMINY CROQUETTES .- TO One quart of boiling water add a teaspoonful of salt; stir in gradually a heaping constitute the only variations of struc- half-pint of the finest hominy; boil ture, all wools are built up of countless | three-quarters of an hour and put it on minute cells, variously arranged ac- the back of the range where it will recording to the rapidity of growth and main hot au hour longer; then put in a other causes, but forming a long large bowl and add the beaten yelks of two eggs, mix it thoroughly, and when cold shape into cones; dip the cones in beaten egg, roll in crumbs and fry in boiling fat.

> SALT FISH (Spanish fashion) .- Boll in plenty of water a piece of salt fish that has been in soak at least twentyfour hours. When sufficiently bolled to allow of it pick out all the flesh in salad oil till they begin to color; add very slow fire for a couple of hours, shaking the saucepan occasionally.

LEMON SHERBET - One and a half pounds loaf sugar, one quart water and nine lemons. Wipe the lemons clean and rub them with the lumps of sugar in order to extract the zest. Put the rubbed lumps with the rest of the sugar into the water and allow them to dissolve. Then cut all the lemons into sweetened water, strain, and freeze the same way as ice cream.

The noontide sun is dark, and music discord, when the heart is low.

Every Woman Knows Them,

The human body is much like a good clock or watch in its movements; if one goes too slow or too fast, so follow all the others, and bad time results; if one organ or set of organs works imperfectly, perversion of functional effort of all the organs is sure to follow. Hence it is that the num-erous aliments which make woman's life miserable are the direct issue of the abnor-mal action of the uterine system. For all that numerous class of symptoms-and every woman knows them-there is one un-failing remedy, Dr. Pierce's "Favorite Prescription," the favorite of the sex.

Thought is invisible nature-nature

A Strong Endowment

is conferred upon that magnificent institu-

tion, the human system, by Dr. Pierce's "Golden Medical Discovery" that fortifies it against the encroachments of disease. It is the great blood purifier and alterative, and as a remedy for consumption, bronchitis, and all diseases of a wasting nature, its influence is rapid, efficacious and per-manent. Sold everywhere.

Good manners and good morals are sworn friends and firm allies.
