COMMENCEMENT TIDE.

The commencement season of colleges and schools is in its full bloom. Each succeeding year seems to add to the charm of this occasion. As time goes by the old-fashioned and rugged customs of the period give place to newer and more charming ones, until commencement tide has now become a bright festival season for the young men and women and the boys and the girls, in whose young lives it is such an important event. The present year-has been no exception in the way of elaborate preparations for this event. Handsomely engraved invitations gotten up in the most elaborate style announce its coming, and the hearts of the young people beat high in anticipation of the kindly remembrances of

friends which are sure to be manifested call the attention of the ladies to some of in the shape of lovely flowers or more Such observance of the occasion is right and proper. Let the memory of the time be as bright as possible to all, for, although they do not now appreciate Boyhood and girlhood are past and the

stern realities of the world are at hand.

BOILER EXPLOSION. There was a terrific boiler explosion on Tuesday 21st, at noon, at Jacob M'Cool's sawmill, back of Woodward. te, Satins, etc. We keep a complete as- The mill was completely wrecked, and pieces of the boiler were thrown half a mile. There were two men in the mill, show new and late designs. We can't at the time, one of whom was Jacob be beat in this line of goods and ask you | Fultz, and both escaped without injury to examine them for your own satisfac- which seems almost miraculous amid the general wreck that was caused. Mr. Mersermer, a millhand, was eating his dinner in the mill shanty, when the explosion took place. Hearing the noise, he remarked, "Listen, that d—engine is exploding,"—and as he said this, a fly ing bolt took him on the cheek, knock ing him off the chair.

This is a serious loss for our friend McCool, as he had a mill destroyed by fire near Spring Mills, over a year ago, this boiler having gone through the

BELLEFONTE'S FIRST STEAM EN-GINE.

J. G. Kurtz, of Milton, who is spending a week with friends in this county, had the first steam engine that was put in use in Bellefonte. The engine was used to run the presses of the Central Press, of which Mr. Kurtz was the publisher; it was a four-horse engine and made by Mr. Landis, machinist and citizen of Bellefonte. This was about 26 years ago, and is the first engine put up by Mr. Landis, who afterwards built four other engines. This engine is now at Aaronsburg, in Mr. Lenker's furniture establishment, still doing good work. We think the boro' of Bellefonte should buy this engine and preserve it as a relic, the first one made and used in that town, as such it would be an interesting piece to preserve and show to visitors.

HAY AND CORN.

Our farmers are now in the midst of aymaking, and the weather this week, thus far, has been quite favorable. Some grass was mowed last week, but a shower happening each day, it did not cure in good condition. Many farmers who have timothy and clover together will not make hay until next week, as the truest gentlemen. Of course, one the timothy is not quite fit, while the

The corn is doing well, thus far; our farmers have been unable to work it, on account of the frequent rains, hence the working of corn is crowded up into the haymaknig season pretty closely.

DEMOCRATIC COUNTY COMMITTEE. There will be a meeting of the County Committee to be held in the Arbitration room in the Court House at Bellefonte, on Saturday, July 9th, at 11 o'clock a. m. sharp, for the purpose of apportioning the Delegates to the several Election Districts in the county, and making arrangements for holding the Delegate Election etc.

Go prepared to suggest the names of two good Democrats to assist you in holding said election. .

NEW BUSH ARCADE.

The ruins of the Bush Arcade, which was destroyed by fire last winter, are being cleared away and preparations are being made for a new building on the same site. The first floor will be composed of storerooms and part of the upper floors will be turned into an Opera house. Mrs. Bush has determined that the building shall be a fine one and an ornament to the town.

-Another addition was made at the little village called the station, this week. It was the raising of Jacob Lee's new dwelling on the south side of the pike near the station. From appearances it will be a large and handsome dwelling and an ornament to that section of our -Mr. Solt finished the board walk town. Next addition will be the erecto near the station, this week; it is made tion of Will Kurtz's dwelling near the of hemlock boards, and is four feet wide. station which has foundation about This puts an end to the REPORTER's lam- finished and ready for the carpenters. Yes, our little town is booming slowly.

> -Wednesday, June 22, at high noon, in Boalsburg, witnessed a happy and festive occasion. It was the ceremony and attending social enjoyments incident to the marriage of Mr. T. R. Reynolds, one of Bellefonte's wealthiest citizens, to Mrs. Annie Jack Blymer, of Boalsburg. About fifty guests added their presence and graces to the occasion, the company largely consisting of the near relatives of the bride and a few relatives of the groom.-News.

IMPRESSIONS OF THE WEST.

LETTER NO. 2. The crops of Indiana, so far as seen, were not disheartening. The object of peculiar interest to me on nearing Chi-

cago was Lake Michigan. At first sight, it makes one think of a mountain in the distance. Indeed, most of our party thought it was a mountain in the distance. On nearer approach, the white crested waves could be seen chasing each other under the impulse of a stirring breeze, and breaking into frothy nothingness upon the beach. I longed for a martins, that make their nests in this dip in its bottle green waters, but had learned earlier in my youth, that discretion in this matter, is the better part of valor. So I sat quietly in the car, and in imagination transported myself across the intervening green to the lake and thus enjoyed its waters. From a birdseye-view of the city of Chicago, I was impressed with its extent and thrift. Of the grain elevators, I got a very close view along the Chicago River. These structures are simply immense, and they are building new ones of no less capacity. Millions of bushels can be stored in these buildings. Some of the public buildings seen at close range, were eleven stories high, and the thought of escape from those upper rooms in case of fire, made my heart grow sick in the impossible prospect. I stood on the drawbridge crossing the Chicago river, and had pointed out to me the course of the dreadful conflagration in 1871. 17,460 buildings were then destroyed, 98,860 people rendered homeless. 73 miles frontage of streets was burned over. The total loss has been estimated at \$196,000,000, of which \$53,000,000 represented the value of the buildings destroyed, \$58,710,000 on the personal effects, and the remainder, business stocks, produce and manufactures of every description. Before the cinders were cold, work was begun in reouilding and in 3 years the city was provided with buildings equal in capacity, and of two-fold value. The solidity and permanence of the prosperity of Chicago, will appear, when you recall the fact that in the panic of 1873, its banks alone, among those of all large cities, were not compelled to issue certificates of deposits, but continued steadily to pay out current funds. Chicago is the distributing centre of the breadstuffs and provisions of the great Northwest. 750 trains arrive and depart daily. Land obtained 50 years ago from the Government at \$1.25 an acre, is now worth \$12,000 an out of bed, again breaking it in the same acre. I could mention other items of place. He is now improving. interest, but I did not start out in these letters with the idea of furnishing such facts with reference to Chicago. They occurred to me as I wrote, and I kive them as showing the ambition, energy and stability of this "beautiful city by the sea." One other item is worth mentioning, and that is that the Palmer House, costing over one million dollars, is the finest hotel in the United States, Wm, Wolf, and I ate supper there on Tuesday, May 31,-and I felt as if I was in fairy land. The dining room is a perfect panorama of bewitching beauty. advise all persons going West, to by all means look in on the Palmer House, even if they don't want a meal.

The C. B. & Q. R. R., took our dele-

system. And without wishing to insti-

tute any invidious comparisons, I desire

must perhaps make allowance for the purely clover fields will be mostly cut fact of the great competition from Chicathis week. The hay crop will be a large go westward. But that fact cannot in full account for the conduct of these railroad men. No matter how many questions you may ask, you will always get a respectful answer. More than this, the conductors, brakemen, and all connected with the conduct of the train, will inconvenience themselves to pleasantly engage a passenger. I wish I could say this of all our railroad men. The rate of speed is not as high on an average, as is that of our P. R. R., but the motion is graceful and grateful to the occupants of ster. the cars. The road is uniformly at grade, there being few cuts from Chicago to Omaha. The ballast is made of a red dish clay, burnt into a hardness almost equal to stone, and which is considered very good for this purpose. The only inconvenience experienced on this line was the Register with the necessary blanks, the blinding dust sucked up where the ballast was renewed, or just freshly put on the road. The distance traveled from Chicago to Omaha, over the C. B. & Q. system, was 508 miles, and the expenses for the round trip between these points was only \$13.00. Our meals were taken between these two points, on the superb hay. dining cars of the C. B. & Q. line. The idea of eating dinner, as one of our party put it, "fifty miles long," was a novel experience. The menu was the finest to be imagined, and only 75 cents a meal. I know that our good wives will not scold us, if I say, that we ate on those cars as we never ate before. It was put up in western dress, and so appetizing withal, that one had to eat "whether or no. The country of Northern Illinois, through which I passed en route to Omaha, is of the same general character as that of Indiana. I saw very little wheat or grain of any character along this part of the route in Illinois. Des Moines river, Iowa, is a pretty clever stream. Bat the water of all waters in this country, that I had an ambition to see, is the Mis sissippi, the "father of waters." I crossed it just before getting into Burlington, Iowa. It is a majestic body of water. longed to get out and paddle in it, at least with my hands, with something of the same spirit that prompts the average tourist into a new country,—or that led a young man some years ago excitedly to say to me: "I touched the tree under which Reynolds fell at Gettysburg." There is that in the soul that loves the great and famed, and that anxiously embraces the opportunity of some contact with it. Of course I couldn't get off the train; they don't stop to allow a fellow to indulge his poetic fancies in that way; but to my intense gratification, the porter of our sleeper said "the water in the tanks is Mississippi water." I rushed out into the gentlemen's toilet room and eagerly pumped the basin full, and then litteralbaptized my face and head and hands in the "Father of Waters." Now don't some critic spoil this for me, by saying, "Why, it was only a basin full of water out of the Mississippi." Iowa is variegated in its appearance. There is considerable scrub oak in the southern part through which I passed, and on the whole, not very prepossessing in its showing. It may be better further north. I don't think, however, that any one can ever grow enthusiastic over Southern

time I crossed the Platte river, that is al-

nel. The soil is very sandy and of a mushy character, and the snows raise it so decidedly, that navigation is almost wholly out of the question. Small boats stick fast in the mud, where but a day or two previous there was an abundance of water,-the water covering the bottom sufficiently to deceive the boatmen as to its real depth. Between the Platte river and Omaha, lies a swampy stretch of land. Over this at times the Platte river spreads itself. The railroad runs through this stretch of country. Occasionally the monotony is broken by a bluff, the face of which is systematically perforated by W. E. F.

A SUGGESTION FOR THE 4TH. ED. REPORTER:-Pride is pronounced

On 24th inst., near Shingletown, Lavina, wife of John Kuhn, aged 51 years, slothfulness, carelessness and indifference, as to appearances of person, or home? We think a little pride in the right direction just now, not out of place in front of some homes in our town. We mean in the way of removing weeds, unsightly boulders, rail piles, small stone piles, board pieces, logs, old buggies and wagons, old tin cans, old boots and shoes, loose stone, etc. Every occupant of a home should have pride enough to be the owner or not, about him, to remove all the above named eyesores before Saturday evening comes, and let the glorious 4th find our little town trimmed up as it has not been for years. An hour's - Ice cream every day ad evening work in front of every house will tell. A CITIZEN.

SPECIAL RATES TO GETTYSBURG VIA PENNSYLVANIA RAILROAD.

On the twenty-fourth anniversary of the battle of Gettysburg many veterans will assemble on the historic field, to renew the mera less of the great battle. A most interesting reunion will take place this year. The Philadelphia Brigade, which held the centre of the Union line and received the famous onslaught of Pickett's Division, will entertain representatives of the survivors of that celebrated division on the scene of the struggle. This is the most conspicuous event in the history of the field since the battle was fought, and the ceremonies between hosts and guests will be of the most interesting character. To the veteran it will be a most memorable occasion, while the general visitor will find it the best opportunity ever offered of seeing the battle-field. The field is one of the most interesting battle-grounds in the world, and there is none other containing as many monuments. One hundred and one monuments and tablets boys, all prices, and latest styles-barmark the spots where the most important events of the fight occurred.

For the accommodation of the public the Pennsylvania Railroad Company will sell excursion tickets from all stations on its lines, on July 2d, 3d, and 4th, 1887, good to return until and including the 5th, at one fare for the round trip.
