CENTRE HALL, PA., July 20, 1887.

Ohio Democrats are calling loudly upon Judge Thurman to run for governor. The Judge refuses to be a candidate.

The story circulated, by parties who know it to be false, that Judge Orvis, in his Fourth of July address, had made an for ten years broke directly over this city, att ack upon the organization of the Knights of Labor, is not true.

Over in Huntingdon county there are sixty Republican candidates for the different offices to be filled at the fall election. That beats Centre two to onehow hungry the well-fed Republicans must be.

How foolish it was to take a jaunt to Williamsport, for a train of cars, when the head of the concern lived right here. Some fellows live without ever learning anything until it is too late, which accounts for the occasional fools there are sometimes.

The killing of nine negro es by lightning near Nashville, Tenn., was a re. markable event, and some demagogues will probably be found willing and ready to ascribe it to a Democratic ascendancy and an obvious desire to suppress the negro vote. If Democrats had nothing to do with the coldblooded deed, how is it that only negroes were killed?

News from native sources has been received to the effect that a battle between | turned in sail and row boats. the troops of the Ameer of Afghanistan and the insurgents recently took place at Mashaki, south of Ghuzni, and that the Ameer's forces were victorious.

They are said to have captured 160 Andars and Tarakis, and to have sent the heads of 200 of the slain to Cabul.

A large force of Jaghuri and Hazarahs subsequently defeated the troops of the Ameer, who is now sending reinforcements to his army.

We are pleased to observe that the Democratic candid ates for nomination, have followed the REPORTER's repeated admonitions, and carried on a canvass devoid of acrimony. This fact is a dispointment to a few who were wishing that trouble could be engendered in order to injure the Democratic ticket nex fall. We were made aware of a scheme sick and otherwise very miserable passenwhich, however, fell through. The Democracy are going to roll up something like an old majority next fall, in this county.

#### K. OF L. DESERTIONS.

The Commercial Advertiser, in a long it article on the Knights of Labor, says: From figures given out lately by Powderly, not to reporters, however, it is as-Order of the Knights of Labor has fallen from 1,000,000 to less than 600,000 within the last 14 months. The loss has been steady and is on the increase, while accessions to the order grew fewer each month. The cause of this is attributed to its failure to carry its point in its vital part-strikes-in two great strikes, that on the Missouri Pacific and the coal handers here.

# JACOB SHARP'S SENTENCE.

Jacob Sharp, the New York millionaire contractor and dealer in aldermanic votes, was on 14, sentenced by Judge to pay a fine of \$5,000. Great influences were brought to bear to get the wealthy | Beach, but its three occupants were rescriminal off with a fine, which would | cued. have been a burlesque on justice, for the maximum fine, which was imposed, in have been a mere bagatelle. Sharp is an old man, said to be on the verge of the grave, but as Judge Barrett put it, referring to these reasons as well as the disgrace to his family for a light sentence, "with over a stolen million in his pocket, Sharp clamors for mercy without offer ing to pay back a penny of the money stolen, so that should be die in prison

# HEAT IN PHILADELPHIA.

Philadelphia, July 17.-With a single exception, July 8, 1876, to-day has been the hottest for over thirty years, the heat being even greater than that of yesterday. At 2 o'clock this afternoon the thermometer registered 102 degrees in the shade, being just one degree less than that of July 8, 1876, and one and a quarter degrees greater than yesterday. Ip to a late hour to-night there have been thirty cases of sunstroke reported, fourteen of which resulted fatally. At 11 o'clock to-night the thermometer

stands at 87 degrees.
Pittsburg had 101 in the shade, and 6

deaths by sunstroke.

IN BRIEF, AND TO THE POINT Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things

which ought not to be, have made the American people a nation of dyspeptics. But Green's Angust Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:-No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

#### THUNDER, WIND AND RAIN

CONSIDERABLE DAMAGE ON BOTH LAND AND SEA.

New York and Vicinity Visited By Mighty Gales - Vessels Overturned, Houses

Blown Down and Trees Uprooted NEW YORK, July 18 .- About 2:30 o'clock yesterday afternoon one of the worst thunder storms that has visited this region accompanied in its wild career by one of the largest sized wind cyclones that has visited this city in some time, the full extent of the loss of life and damage not

being yet fully known. The maximum temperature reached in the city yesterday was 91 degrees, just before 3 o'clock in the afternoon, while at the same hour it was 96 in Philadelphia, 98 in Baltimore, the same in St. Louis, Chicago and Jacksoville, 85 in Albany, 78 in Boston, 94 in Charleston, 81 in Buffalo and

84 in New Orleans. The bay was liberally dotted with sail when the cloud hissed thither. Veteran boatmen say it swooped down with unprecedented suddenness. Many little sailing

craft and row boats were capsized. The doctor's tug George C. Preston, started from quarantine out to the National line steamship Erin just as the storm got there. A two-masted schooner was blown against her, striking her bow on the port side and smashing a big hole in her under the foremast above the water line. The schooner was blown away with the loss of her bowsprit. The doctor's boat rescued a seamen of the sloop yacht Fanny then abreast of quarantine. The seaman was taking in the awning of the Fanny's yawl when the squall engulfed the yawl.elt was towed to quarantine, righted, and the seaman rowed back to the Fanny

Police Captain Smith took the sidewheeler patrol out in the storm and picked up thirty men and boys who had been over-

The ships Annie Wright of Dorchester N. B., and Lorenzo of Connecticut dragged their anchors and came into collision, and were slightly damaged.

The steamer Columbia, with 2,600 souls on board, was on her way to Rockawny when the squall struck her. She had almost reached the entrace to Rockaway inlet, but seeing the squall hard aboard the pilot put over his wheel to port and headed her out

A good many of the passengers were frightened at the prospect of running to sea before such a howling tempest as seemed bursting upon them. Women wept and screamed, and became almost panicstricken. Many stayed on the upper decks fearing to go into shelter, lest the vessel sink and they be drowned like rats in a hole. These were drenched by the rain. The squall was soon over, but it kicked up a stylish sea about the Columbia while it lasted, and she was headed bow on to it when a sufficient offing had been obtained, and thus rode it out easily for the vessel, but very uncomfortably for the wet, seagers. A report got all over the city last night that the Columbia had foundered in

the squall. The yacht Tough of this city, was sailing near Staten Island when the storm arose. Those on board of her saw another yacht, with five occupants go over. The Tough's crew were unable to render any aid until was too late and the five drowned. They belonged on Staten Island and their boat was towed there by the steamboat Eliza Hancock,

These were some of the minor accidents: certained that the membership of the The sloop yacht Angler, with thirteen young men on board from Communipaw, was capsized off Tompkinsville. The occupants clung to the bottom of the boat for nearly half an hour, when they were picked up by a steam launch from Bay

At Staten Island four upsets were reported. It is believed that no loss of life accompanied the accidents. A big white catboat went ashore on the little rock reef off the Cliffton dock, and every man on her went overboard and laid hold of the slde to keep her off the reef.

The Windward club of Brooklyn was sailing in Jamaica bay, near Barren island in the yacht Julita, and saw a catboat knocked over. Two men and a boy were seen floundering in the water. One of the men was entangled in the sail. Captain Rohe, of the Julita, took off one of the Barrett to four years' imprisonment and men, and a man in a rowboat got the other man and the boy ashore.

A yacht was capsized off Manhattan

At Rockaway Beach the gale picked up the sand that fills the streets and lines the shore and hurled it against the buildings addition to the imprisonment, would so that the buildings rattled. Hail fell in some places. Small fruit and peacut stands were blown away. Chairs on piazas were blown off, flags carried away, and trees were blown down.

Coney Island got its share of the squall, but it did not interfere much with business there. The crowd that visited the beach was one of the largest of the season. No loss of life was reported.

Capt. I. S. Crowell, a life save at Manhattan Beach saw a sailboat capsize five miles to the eastward, and saw three men his family has a vast fortune to fall back struggling in the water. He rted after upon." ing to the capsized boat. He got them all safely into his boat and brought them

At Sheepshead Bay the storm did great damage to the crops and shade trees. Trains to and from Coney Island were brought to a standstill to prevent being de-railed until the force of the wind had sub-

All over Brooklyn trees, awnings, and fences were blown down, and houses unroofed, and there was a general disarrange-ment of the telegraph and telephone sys-

tem by injury to the wires.

The spire of the Dutch Reformed church at Canarsie was struck by lightning and destroyed, although no other part of the building was damaged. The shutters of the German Lutheran church were blown off. The engine house of the Brooklyn, Canarsie and Rockaway railroad was blown

down and many trees were uprooted. The Dutch Reformed church of Lafayette, at Pine street and Communipaw avenue Jersey City, was struck by lightning about 12% o'clock. About 100 persons were in the church.

The bolt struck one of the lightning rods The boit struck one of the lightning rods at the back of the spire. An iron rod runs lengthwise through the church near the ceiling, and from it are suspended two large chandeliers. Persons who were in the organ loft say they saw a small ball of fire glance along the iron rod, strike one of the chandeliers and disappear. A portion of the chandlier was twisted out of shape and plaster was knocked from the ceiling. No other damage was done.

and plaster was knocked from the ceiling. No other damage was done.

The second squall arrived at about 10 o'clock last night. It had been gathering slowly for over two hours, but when it got here the wind this time came howling through the streets in advance of the rain. It reached a speed of thirty-six miles an hour at the signal service office on top of the Equitable building, but to pedestrians on the street, who were caught by and sent scurrying down to leeward in spite of efforts to breast it, it seemed to blow like a hurricane. It was a local storm. The temperature dropped temporarily to 72 temperature dropped temporarily to 72

#### BRACE UP.

You are feeling depressed, your appetite is poor, you are bothered with Headache, you are fidgetty, nervous, and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which stimulate you for an hour, and then leave you in worse condition than before. What you want is an alterative that will purify your blood, start healthy action of Liver and Kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at all Drug Stores.

A quarter dozen of little curs keep barking lustily at the REPORTER's heels. What troubles the dear puppies? we are neither a B. O. agent nor a candidate

#### MOST EXCELLENT.

J. J. Atkins, Chief of Police, Knox-ville, Tenn., writes: "My family and I are beneficiaries of your most e: cellent medicine, Dr. King's New Discovery for Consumption; having found it to be all that you claim for it, desire to testify to its virtue. My friends to whom I have recommended it, praise it at every op-portunity." Dr. King's New Discovery or Consumption is guaranteed to cure Coughs, Colds, Bronchitis, Asthma, Croup and every affection of Throat, Chest and

Trial Bottles Free at all Drug Stores. Large Size \$1.00.

At Augusta, Ga., on Sunday, the thermometer registered 104. At Washing-

#### ton, 99. At Piken, Ill., 103. ROCHESTER CLOTHING HOUSE.

Mr. M. Fauble, formerly with S. & A. Loeb, Bellefonte, has opened a new clothing house in Ammerman's Block, Bishop street, Bellefonte. Mr. Fauble makes a specialty of the celebrated "Rochester Clothing," which is considered by merchants and the public, to be the best article in ready made godos. His stock has been received and is brand new in every particular. Along with nothing is a complete line of gents furnishing goods, hats, collars, shirts, under clothing, trunks, satchels, etc. Mr. Fauble invites his many friends in Penns Valley to call on him at his new stand and promises to give them better bargaine than heretofore.

STOVES, STOVES, STOVES.

\$1.50 a Year.

THE IMPROVED

Henly Monarch Fence Machine

COMMON SENSE REASONS WHY THE IMPROVED HENLY . MONARCH . FENCE .\* MACHINE IS THE BEST AND HAS NO EQUAL.

Because the wire is stretched the full length of the field before the weaving is com 2 Because any sized wire can be used, and either 2, 3, 4, or 5 double strands can be used, weaving all with equal facility.

3 Because any size, length, or style of picket, or slat, or board, can be used, weaving fancy iron pickets equally well and solid.

4 Because it will make a fence over rough and uneven ground, or up and down hill alike, making as good a fence as on even, level ground; and the machine being adjustable, the pickets are all woven plumb.

5 Because the Monarch machine stretches the wire tighter, thus making the strongest and best wire and picket fence.

6 Because any one, man or boy, can operate it, and there are no parts to get out of order and

repair.

7 Because it is made of the best materials, and, with proper care, will last a life-time.

8 Because the price is within the reach of every farmer.

9 Because it is the only machine that forces the slat or picket firmly against the wire, thus securing the slat in such a solid and and permanent manner that it cannot be pulled out, and breakage is impossible.

10 Because the fence made by this machine will turn all kinds of stock, and is much stronger than any barb wire fence, and completely obviates all danger of injury to stock.

11 Because by weaving past the post, and fastening the wire strands to the posts with staples, and not nailing the slats to posts, thus keeping the wood parts from coming in contact with each other, it will not hold the moisture or rot. This is a very important matter, as all boards in board fences soon rot of at post, and occasion continued expense for repair.

12 Because all kinds of old material can be used for making new fence.

13 Because it makes the handsomest, best, strongest, and most durable fence, and is the only first-class, practical fence machine in the world.
