CENTRE HALL, PA., August 3, 1887.

DEMOCRATIC DELEGATE ELECTION AND COUNTY CONVENTION.

The Democratic voters of Centre county will meet at the regular place of holding the general election for their district, on

SATURDAY, AUGUST 6, 1887,

to elect delegates to the Democratic County Convention, under the rules the election will open at 2 o'clock, p. m., and close at 6 p. m.

The delegates chosen at the above time will meet in the Court House, Bellefonte, on

TUESDAY, AUGUST 9, 1887,

at 2 p. m., to name one candidate for Associate Judge, one candidate for County Treasurer, one candidate for Sheriff, one candidate for Register, one candidate for Recorder, two candidates for County Commissioners, two candidates for County Auditors, and to elect four delegates to the State Convention for 1888, Chairman, County Committee, and to transact such other business as the interest of the party may require.

Table listing delegates to the Democratic County Convention by district, including names like Haines E. P., W. W. Moore, and others.

The coal tonnage of the Tyrone and Clearfield division, on last Wednesday amounted to 16,051 tons. This is said to be the largest shipment ever made in one day over that division.

Senator Frye never requires liquor refreshment when fishing, and is a strict temperance man, says an exchange. Well he must be a funny man that wants a "bite" and not a "drink."

The dairy cattle of the United States occupy 100,000,000 acres of pasture land, and annually yield \$500,000,000 worth of dairy products, which include 1,500,000,000 pounds of butter and 6,500,000,000 pounds of cheese. The yield of our dairies is more valuable than our wheat crop, and the capital engaged in their production amounts to \$3,000,000,000—about five times as much as is invested in the entire banking interest of the country.

A gentleman who is well posted on all matters pertaining to Clinton county tobacco informs the Lock Haven Express that there is yet on hand unsold of last year's crop 4,000 cases, or 1,200,000 pounds. This, he says, is a low estimate, as but little of the '86 crop has been disposed of to dealers. This tobacco is now worth on the average eleven cents per pound, or \$132,000. There is a slight boom in the tobacco market which will probably bring in buyers who will purchase the crop. Nearly all of the '86 crop was of fine quality, well cured and free from hail cut, and is likely to be in demand soon. The growers are in need of the money their crops will bring them, and will hail with delight the presence of buyers, for whose coming they are waiting so patiently.

Since the imposition of internal taxes, which were first collected in 1863, the government has collected from this source, up until the 30th of June last, the enormous aggregate of \$3,762,000,000. Of this vast sum \$1,258,000,000 from fermented liquors, and \$848,000,000 from tobacco. These are now the three principal sources of internal taxation. Last year \$723,000 was collected from oleomargarine, a new tax. In the war period, and until 1869, there were other taxes, on incomes, etc., that yielded largely. The total collected from internal revenue in these 24 years is a thousand millions of dollars more than the highest notch the public debt reached in 1866, which was \$2,773,000,000. In fact, the collections from liquor and tobacco alone come within \$400,000,000 of that mighty aggregate. If the military operations of the war of the rebellion seem to the student of to-day to have been on a gigantic scale, no less were the financial operations, for to these internal taxes must be added the customs taxes and the bonded debt. These three sources represent where the money came from. It has been roughly estimated as aggregating five thousand millions of dollars.

THE MAYOR OF WILLIAMSPORT ARRESTED.

A warrant was issued for the arrest of Mayor Jones and the members of select and common councils, of this city, to answer the charge of neglecting for several years past to keep East Third street in proper repair. The street extends from the crossing of the Philadelphia and Erie railroad to the city line. August Na-t, a resident of the street named makes the complaint. The arrest has been threatened for some time. Officers are amenable to the law for neglect of duty as well as for actions not warranted by law.

A discussion at Andover recently on Christian Union, in which Congregationalists, Episcopalians, Methodists, Baptists, Free Baptists, and Universalists and Unitarians were represented, proved to be quite interesting. The Congregational speaker urged the tearing down of the walls and fences of denominationalism; the Episcopalian was hopeful of the gradual coming together of all the families of the Church of Christ; the Methodist pronounced for strict adherence to essentials with liberty in non-essentials; Universalists, Unitarians and unsound Congregationalists could not come into the union he desired; the Baptist believed the time would come when Baptists would cease to make difficulty on ecclesiastical points; the Unitarian said there could be no Christian union without recognizing his sect and every sect; the Universalist believed union must come on the basis of Universalism; the Free Baptist was not afraid of denominationalism, union must be in the heart.

General Tuttle, the commander of the department of Iowa G. A. R., who has the unenviable distinction of being the first to object to receiving the president at the St. Louis encampment, has had his career pretty well ventilated, with the result of exposing to the public his unmitigated record of villainy. A shrewd knave would not have thrust himself into so conspicuous an attitude when there were so many reasons why it would be best for him to draw as little attention as possible in his own direction. But Tuttle appears to be in character of that composite stamp, made up half of rascality and the other half of conceit. He probably enjoys his present notoriety, notwithstanding it has been the means of exposing him to the country as a coarse swindler and rogue.

The long looked for statement of the affairs of the defunct wheat clique house of C. J. Kershaw & Co. was given to the public, and shows that their liabilities aggregate \$1,800,000, their gross assets \$1,760,000 including \$1,500,000 due from Wilshire, Eckert & Co. and other Cincinnati parties of only \$200,000.

NEW BRIEF, AND TO THE POINT

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature. The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order. Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics. But Green's August Flower has done a wonderful work in reforming this sad business, and making the American people so healthy that they can enjoy their meals and be happy. Remember—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

FIVE THOUSAND PEOPLE WANT FOOD.

The American Board of Commissioners for foreign Missions received a cablegram from the treasurer of the famine relief fund at Constantinople, saying: "Five thousand people at Adana have nothing to eat. Number increasing. Other towns ask help." Adana is the centre of the Cilician plain, ordinarily so fertile, but this year absolutely barren on account of drought. A little over \$4,000 has already been contributed in this country for the relief of the starving people.

GOOD RESULTS IN EVERY CASE.

D. A. Bradford, wholesale paper dealer of Chattanooga, Tenn., writes that he was seriously afflicted with a severe cold that settled on his lungs; had tried many remedies without benefit. Being induced to try Dr. King's New Discovery for Consumption, did so and was entirely cured by use of a few bottles. Since which time he has used it in his family for all Coughs and Colds with best results. This is the experience of thousands whose lives have been saved by this Wonderful Discovery. Trial Bottles free at all Drug Stores.

THE IMPROVED

Henly Monarch Fence Machine

COMMON SENSE REASONS WHY THE IMPROVED HENLY MONARCH FENCE MACHINE IS THE BEST AND HAS NO EQUAL.

1 Because the wire is stretched the full length of the field before the weaving is commenced. 2 Because any sized wire can be used, and either 2, 3, 4, or 5 double strands can be used, weaving all with equal facility. 3 Because any size, length, or style of picket, or slat, or board, can be used, weaving fancy iron pickets equally well and solid. 4 Because it will make a fence over rough and uneven ground, or up and down hill alike, making as good a fence as on even, level ground; and the machine being adjustable, the pickets are all woven plumb. 5 Because the Monarch machine stretches the wire tighter, thus making the strongest and best wire and picket fence. 6 Because any one, man or boy, can operate it, and there are no parts to get out of order and repair. 7 Because it is made of the best materials, and, with proper care, will last a life-time. 8 Because the price is within the reach of every farmer. 9 Because it is the only machine that forces the slat or picket firmly against the wire, thus securing the slat in such a solid and permanent manner that it cannot be pulled out, and breakage is impossible. 10 Because the fence made by this machine will turn all kinds of stock, and is much stronger than any barb wire fence, and completely obviates all danger of injury to stock. 11 Because by weaving past the post, and fastening the wire strands to the posts with staples, and not nailing the slats to posts, thus keeping the wood parts from coming in contact with each other, it will not hold the moisture or rot. This is a very important matter, as all boards in board fences soon rot off at post, and occasion continued expense for repair. 12 Because all kinds of old material can be used for making new fence. 13 Because it makes the handsomest, best, strongest, and most durable fence, and is the only first-class, practical fence machine in the world.
