Every graad army boy should vote for John Noll, for sheriff.

We learn that some Republicans are per cent profit on the wages he must quietly trying to stuff Democrats with pay, capital will be found for the enterthe notion that John Noll was a kicker, prise. The Christian Union has rendered last fall. Democrats, don't believe a an important service in showing that word of it, Mr. Noll was straight, true these propositions are disproved by the very figures that Mr. Atkinson has re-

Growers have refused 75 in the orchards, and \$1 is asked for the most ordinary grade. Because of the ton will not open this season.

July firelosses, \$14,000,000, are the largest on record, and the loss since January 1st, \$77, 000,000, has never been exceeded for the first seven months of any to say, the capital invested was nearly year. The serious side of this loss is three times the annual wages, and ten that it is not due to any one large fire but to many small ones, and the manner in which fires increase during any period of stringency raises the question whether times for the last seven months have not borne harder on the small trader than most observers have imagined.

The entire Democratic ticket is com posed of working men. John Noll, for sheriff, is a well-known stone mason. John Grove, for associate Judge, is a life-long farmer. John Rupp, for register, is a practical miller. James Kimport, for treasurer, is an intelligent, hardworking farmer. Galer Morrison, for recorder, is one of the live school teachers of our county. A. J. Griest, for commissioner, is a hard working merchant; and Michael Feidler, the other nominee for commissioner, is a hardworking farmer.

Really, the Democratic ticket is a genuine workingmen's ticket, and every honest man can vote for it.

A convention embodying these principles, they assert, has been framed, and its signature by the two governments may be expected.

the railroad commissioners proves almost conclusively that the bridge caught fire accidently and that the horrible affair was the result of sheer carelessness.

J. O. Baker, professor of civil engineering in the university of Illinois, has made a careful examination of the burned Chatsworth bridge and other bridges and culverts in the vicinity. He says the incendiary theory has no foundation whatever; that while an attempt has been made to protect the bridges of the road from fire, he found that for several miles along the line of the road the grass and weeds had not all been burned off, and in the immediate vicinity of the burned bridge it was more car elessly done than elsewhere.

The New York World says:

The report that the Government intends to institute suits both civil and criminal against the officials of the Central and Union Pacific railroads who have misused their trusts is, if true, the most important piece of news that has come from Washington since the adjournment of Congress.

Facts enough have been disclosed by the World and the Investigating Commission to justify and to demand such proceedings There is no shadow of doubt that the funds of one of these companies, in which the Government has a security for vast loans has been impaired pre-emption and homestead laws. # A DYNAMITE SENSATION.

## Arrest of a French Woman at Cowes with Three Cakes of the Deadly Stuff.

LONDON, Aug. 13 .- A great sensation has been created at Cowes, in the Isle of Wight, by the arrest of a Fennchwoman named Deyroint, on the charge of having dynamite concealed in her baggage. She had taken up her abode at the fashionable Marine hotel, and the descent of the detectives on the place surprised everybody.

It is reported that three small cakes of the explosive were found. What would bring them in a lady's baggage unless for some criminal purpose is the question asked. Under the explosives act passed at the time of the conviction of Gallagher and his associates it was made a felony to possess dynamite under such circumstances.

The proximity of Cowes to the queen's residence, Osborne house, gives the discovery its most startling feature, as the woman may have intended to use it there. This is the police theory.

Says She Was Abducted and Sold.

TOLEDO, O., Aug 12-The sale of a wife for a glass of wine has created a sensation here and resulted in the arrest of Eugene Bevery, of Susquehanna, Pa., and W. J. Cowell, of South Valley, N. Y. The girl who was sold claims that she was abducted from the home of her grandmother and says that she was a member of one of the wealthiest families in Susquehanna. She claims that she was drugged and that when she became conscious she was in Cleveland, O. She joined Eugene Severy, an adventurer, and he, becoming tired of her, as she alleges, sold her to W.S. Cowell of South Valley. She has appealed to the police and the detectives are investigating.

Good and Bad Crops.

LEWISTON, Me., Aug. 14.-The Journal published yesterday a synopsis of the crop reports from all portions of Maine. Hay will yield from 25 to 50 per cent. more than last year. There will be less than half the average crop of fruit. There is also no increase in the average of corn. The yield is large. Potatoes average the same as last year. The yield is below the average. They are not bottoming well in some see tions, and some are rotting. Oats promised above the average, but are rusting.
