This part. embraces the roads in regard to which restoration orders have thus far been issued. Thanks to a Democratic administration for gaining back what the Republicans had given away.

Father Thomas McGovern, of Danville Montour county, formerly of Bellefonte, has been appointed Bishop of the Harrisburg diocese to fill the vacancy caused by the death of Bishop 'Shannahan. A better selection could hardly have been made-could not have been made, in fact. Father McGovern is a clergyman of much piety and great ability, and is vastly liked both as a man and a priest. The REPORTER is pleased to note this ap. pointment of one in whom it recognizes a valued friend.

There is no sign of a settlement of the wage dispute in the coke region. A number of operators held their regular meeting and reasserted their determination to offer no other scale than the one already presented. During the afternoon more than one operator stated that a are something marvelous. strike will be preferable to any scale which gives an advance in wages.

On the other hand the workmen, through their Union, declare that no Frick scale will be agreed upon. The workmen are emphatic on this point and are holding meetings and throughout the region declaring their intentions to hold out against the proposed scale of the operators.

The demand for rooms from which to view the procession in Philadelphia on the occasion of the celebration of the centennial of the Constitution is as lively as it was in London when the royal procession was to be seen on Jubilee Day. A Philadelphian offered \$100 a day for the use of a room in a Broad street hotel and could not get it from the occupant, who had engaged it at a much lower rate. At other hotels rooms are had for \$25 a day, but ordinarily the price is \$15. These prices are, of course, only for rooms from which to view the procession, the hotel-keepers have agreed that rates of rooms for regular of next days. entertainment shall be kept reasonable.

THE MILTON FAIR.

GREAT PREPARATIONS MAKING FOR A FINE EXHIBITION.

The Third annual exhibition of the Milton Driving Park and Fair Association will open on Wednesday, Sept. 28th and continue four days. The management are putting, forth every effort to make it a grand success in every respect. The premium list has been revised and enlarged, many additions having been adopted and in addition to the exhibits of agricultural, horticultural and mechanical products, a number of choice attractions, including the world-re-nouned Myrtie Peek Combination with their matchless running horses, have been secured. The sum total of premiums an, nounced aggregates seven thousand dollars, of which fully \$1850 will be paid for trials of speed. Already many noted horsemen have signified their intention of being present to enter the contest, and some fine trials of speed may be expected. Taken all in all, the coming exhibition promises not only to be the largest, but the finest and grandest ever held in this part of the State. Excursion rates over all railroads running to Milton. The trains of the Pennsylvania railroad stop at the grounds.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature. The human digestive apparatus is one

THE IMPROVED

Nenly! Monarch Fence Machine

COMMON SENSE REASONS WHY THE IMPROVED HENLY . MONARCH . FENCE . MACHINE

IS THE BEST AND HAS NO EQUAL. Because the wire is stretched the full length of the field before the weaving

2 Because any sized wire can be used, and either 2, 3, 4, or 5 double strands can be used, weaving all with equal facility. 3 Because any size, length, or style of picket, or slat, or board, can be used, weaving fancy iron pickets equally well and solid. 4 Because it will make a fence over ro ugh and uneven ground, or up and down hill alike, making as good a fence as on even, level gro und; and the machine being adjustable, the pickets

are all woven plumb. 5 Because the Monarch machine stretches the wire tighter, thus making the strongest and best wire and picket fence.

Because any one, man or boy, can operate it, and there are no parts to get out of order and repair

Becanse it is made of the best mate rials, and, with proper care, will last a life-time.

8 Because the price is within the react he of every farmer. 9 Because it is the only machine that forces the slat or picket firmly against the wire, thus beuring the slat in such a solid and and permanent manner that it cannot be pulled out, and reakage is impossible.

securing the slat in such a solid and and permanent manner that it controls and is much strong-toreakage is impossible. 10 Because the fence made by this muchine will turn all kinds of stock, and is much strong-er than any barb wire fence, and completely obviates all danger of injury to stock. 11 Because by weaving past the post, and fastening the wire strands to the posts with sta-ples, and not nailing the slats to posts, thus keeping the word parts from coming in contact with each other, it will not hold the moisture or rot. This is a very important matter, as all boards in board fences soon rot off at post, and occasion continued expense for repair. 12 Because all kinds of old material c in be used for making new fence. 13 Because it makes the handsomest, locst, strongest, and most durable fence, and is the only first-class, practical fence machine in the world.
