Outside of a little silly clap-trap, not a single sound reason can be given why A. J. Griest should not be re-elected county commissioner. Under his watchful eye the debt of the county, that hung over us for years, has been wiped out. His vigilance and independence have settled up, without fear or favor. By this policy the money has gone into the treasury and the county tax has been in all the county's affairs and not a cent has been misapplied, nor can a day's per diem charged.

These facts should and will weigh with every taxpayer, and the small claptrap peddled against Mr. Greist is simply disgusting.

The present year promises to he notable for two things, the number of terrible casualties which it has witnessed, and the number of new political parties to which it has given birth. The Treatment of Little Children in a Rochester Baby Farm.

ROCHESTER, Sept. 26 .- A woman named Cynthia McDonald is in jail here, arrested yesterday on the charge of murder in the second degree.

Early yesterday morning officers made a descent upon her house and found four children in it. Two were dead, apparently from starvation, as they were mere skeletons. A physician made an examination of the food that has been administered to the infants and at once pronounced it unfit for use. The two others were found ying in bed, reduced almost to skeletons. Their little limbs and arms were about as large as broom handles.

Dr. Mulligan gave it as his opinion that these children would not survive twenty hours longer. He said that the little ones showed unmistakable signs of most cruel and wanton neglect. The claim is that Mrs. McDonald had administered coreials to make the infants sleep. The woman, it is learned, has conducted a baby farm for iliegitimate children at the place for several years.

Mexico Wants Arbitration.

CITY OF MEXICO, Sept. 24 .- The proposition to create an international tribunal to decide all questions pending or to arise in future between Mexico and the United States occupies the attention of a section of the public press, and the Monitor Repubicano urges the discussion of the matter. The fact that 200 members of the British parliament have signed a memorial to President Cleveland asking him to support the movement for a treaty providing for the arbitration of all questions arising between Great Britain and the United States has been used here as an argument in favor of Mexico asking permission to be allowed to join with these two powerful nations in the creation of an international tribunal, which would be a powerful means of preserving peace between her and the two Anglo-Saxon nations.
