Associate Judge—JOHN GROVE. Sheriff—JOHN NOLL. Treasurer—JAMES KIMPORT. Register—JOHN A. RUPP. Recorder—W. GAYLER MORRISON. Commissioners—A. J. GREIST, M. S. FEIDLER. Auditors—H. A. MCKEE, W. A. KRISSE.

Governor Beaver approved an act of the Legislature which provides that if any election officer or assessor of poll taxes shall become intoxicated during the time he is engaged in the discharge of his official duties, he shall be guilty of a misdemeanor, and if convicted, shall be sentenced to undergo an imprisonment of thirty days and pay a fine of twenty dollars and the cost of prosecution, or both, or either, at the discretion of the court.

Jake Sharp is said to be primed with a large lot of dangerous knowledge, and that he proposes to use it to keep himself out of Sing Sing. It is said that a disclosure of the entire story of the transactions for his share of which Sharp has been convicted, would make the most tremendous sensation since Tweed's downfall, implicating prominent and ambitious politicians. If Sharp escapes Sing Sing it will be believed that his threats have had their effect, and people will know where to place the responsibility of shielding the unknown criminals. For the public good, it is to be hoped that the whole business will be disclosed, for it cannot be supposed for an instant that no other beside Jacob Sharp are as worthy of punishment.

We never took much, or any, stock in the Salvation Army, and any one who did, after reading the following intelligence from Georgia, will likely consider his Salvation stock at a discount: The Salvation Army, which has been thriving in Georgia for a year past, has met with a series of disasters during the past month which has broken it up. The Rome encampment was broken up by the arrest of its leader, Henry Johnson, for attempted assault on Nora Maginnis, a child of eight years. The army in Griffin was rotten-egged, and one of the City Alderman, Mr. George, is now under bonds for his activity in hurling the missiles. In Columbus and other places the leading female officers married and so scandalized the other soldiers that they would not parade any more. In Augusta three women deserted husbands and children, causing such indignation that the barracks is now empty. In this city Nat Anderson, the leading singer, has deserted, and accuses his comrades of various unmentionable crimes. Four families have been broken up here by a rmy.

WORTH REMEMBERING.

By a decision recently rendered in Cambria county the title to a large tract of land, upon which there are many settlers; has been unsettled, and the Johnston Tribune makes it the opportunity for giving people some very good advice about the purchase of land. Too many buy land without having the title examined by a competent lawyer, and when they lose the land, as the Cambria county people will, they will then whine about the injustice of the law, and totally forget their own negligence in the matter.

And, as we noticed in the REPORTER, a few weeks ago. The courts of this State have decided that no boundary fence can be made of barbed wire without the consent of the parties owning the adjacent lands, and any man who puts such fences along the highway renders himself liable for all injuries to stock passing along the highway.

GIVE THEM A CHANCE!

That is to say, your lungs. Also all our breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousand of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well. Call in cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed, you may depend upon this for certain.

Lewis has fall overcoats and a new stock of suits for men and boys, cheap and down to cost. Suits made to order, too, and satisfaction guaranteed.

Are you going to the show? If you are, buy your boots and shoes at Power's and you will save enough money to buy your ticket.

Fleming the tailor, at Bellefonte, opened up a fine line of goods for fall suits. Keep an eye on what he has to say in regard to suits and prices.

A MISSISSIPPI OUTFRAGE.

An Editor Fearfully Beaten by Two Saloon Keepers.

COFFEYVILLE, Miss., Oct. 3.—The quiet little town of Holly Springs, in north Mississippi, was thrown into a fever of excitement on Friday afternoon over an assault on W. H. Reynolds, newspaper editor, by Jules Sigman and E. E. Wilkerson, both saloon keepers. A short time ago Reynolds, a young man from Wichita, Kan., came to Holly Springs and announced his intention of starting a daily paper. No one knew him, and nothing more was thought about the matter until Thursday afternoon when the paper, bright and spicy, appeared on the streets. Its main feature was an editorial headed "Darkness that is Dense." In the editorial the following language occurred:

As you brutes in the shape of a man who will stand behind the bar and deliberately deal out dirty, deadly, devil concoctions to his fellow brutes, or rather his weak and painful slaves, knowing its awful effect, is a stinging disgrace to any community. He is generally too cowardly to murder honestly and outright, and through the satanic power of his terrible traffic for sin, he shoulders his crime on the shoulders of his enslaved patrons. The mayor of our city, and the council, or any one who sympathizes with the dispensers of the accursed essence of all that is degrading and disgusting, can no more enter the pearly gates of heaven than the unclean and deadly viper can soar among the fleecy clouds with the birds of paradise.

Late that afternoon Jules Sigman and Wilkerson, both saloon keepers, armed with a loaded whip and a bludgeon, went to Reynolds's office. He was in his shirt sleeves, busily setting type, and not looking up to see who his visitors were until informed by a stunning blow from a club in the hands of Wilkerson. The young editor fell, and then Sigman began to lash him with the heavy whip. Full one hundred blows were given the helpless victim, every one of which brought the blood streaming through his shirt.

A crowd being attracted by the noise, attempted to enter the doors, but were repulsed by Preston Faut, until Deputy Sheriff Matthews pushed his way in and placed the assailants under arrest. They were taken before the mayor on a charge of assault and battery, and held to answer to the grand jury in \$400.

The citizens of Holly Springs are indignant, and threaten to deal severely with the perpetrators of the assault. Every business house in the city was closed on Saturday at 10 o'clock, and the citizens met to express their opinion of the outrage. Strong speeches were made by Judge Watson, Capt. James T. Faut, and Judge Smith, and a committee of ten leading citizens was appointed to draft resolutions denouncing the actions of the saloon keepers.

Reynolds is a pleasant looking young fellow of 21 years. He is a near relative of Robert Toombs of Georgia.

A Tornado in North Carolina.

CHARLOTTE, N. C., Oct. 2.—Citizens of Chariton township report that a tornado passed over their section Friday, tearing down the clouds like a big balloon, dipping down and rising again, carrying an eddying mass of fence rails and tree limbs in its circling path. It looked like a big black funnel, an whirled around like a top. It was about 100 feet above the surface of the earth, but would occasionally sweep down, wrench off the tree tops and tear up the ground. The tornado traveled at the rate of thirty-five miles an hour. It dipped down on the plantation of Mr. Alexander, tore up a number of peach and apple trees, took away the roof of his house, and rising again, disappeared in the direction of Philadelphia church. The skies were overcast with heavy clouds, among which a visible commotion was made as the black funnel-shaped mass tore its way through them.

A Reminder of Ives.

CINCINNATI, Oct. 2.—A petition was filed in the common pleas court yesterday by the Cincinnati, Hamilton and Dayton railroad company for an injunction restraining Kuhn, Loeb & Co., of New York, from transferring 4,500 shares of Dayton and Michigan railroad preferred stock, which they hold as security for one of the Ives' loans. The par value of this stock is \$25,000. The petition alleges that this stock belongs to the plaintiff company, and was wrongly hypothecated by Ives without plaintiff's consent or knowledge to secure an individual debt. In addition to enjoining the transfer of this stock the court is to require Kuhn, Loeb & Co. to surrender the certificates to the plaintiff and to require the Dayton and Michigan railroad company to transfer them to the plaintiff upon its stock book.

Blown to Atoms With Dynamite.

UNIONTOWN, Pa., Oct. 2.—The large boiler and pumps at Bliss & Marshall's kyle coke works have been blown to pieces by dynamite. The employees have been on a strike for several weeks and the outrage is supposed to have been committed by some of the strikers. The damage was about \$500. On the same night a party of the strikers surrounded the houses of the non-union men for the purpose of driving them away, but the mob was frightened off by some armed officers who have been guarding the works. The firm claims that the strike is broken.

Harry Hill's Last Night.

NEW YORK, Oct. 3.—Harry Hill, who for the last thirty years ran a concert hall on Houston street closed Saturday night. "To-night is my last night in the old place where I have been so many years," Harry said, and then referred feelingly to his regret at parting with his old employes. Several people Hill says, are anxious to lease his little theatre, but he could not say who would succeed him. The waitresses and bartenders, who are much attached to Hill, presented him with a magnificent floral emblem, and a band which they had engaged, serenaded him.

Killed by a Register.

GREENVILLE, Tenn., Oct. 3.—The Hon. W. E. Milburn shot and killed Will Ward, the son of Betsy Ward, who has kept a notorious saloon near Andy Johnson's old home for several years. The men got in a controversy about the return in the month-long election, when Ward called Milburn a liar. The latter pulled a pistol and shot Ward dead. Milburn is a prominent lawyer, a member of the legislature, and was a candidate for congress against Roderick Butler.

Deadly Gas.

ASHLAND, Pa., Oct. 3.—Three men and two boys were suffocated, and thirteen others overcome with gas yesterday afternoon in the Best colliery. Those killed were Frederick Oulrich, fire boss, aged 40 years; John Cochran, aged 33; John McDonald, aged 30; John Gilliam, aged 17, and Faye Tully, aged 14, door boy. It is feared that some of the thirteen others who were overcome by the deadly gas will die.

BASEBALL RECORD.

The Standing of the Various Leagues Up to Saturday Last.

NEW YORK, Oct. 3.—It is now impossible for Detroit to lose first place in the National league. During the last week the Philadelphia have been playing a strong game, and have their eyes on second place, and Chicago will have to work hard if she retains the coveted second place. Following is the standing of each club to date:

Table with 5 columns: City, Won, Lost, Played, Per cent. Detroit: 77, 42, 119, .647. Chicago: 69, 48, 114, .593. Philadelphia: 70, 45, 118, .559. New York: 66, 52, 118, .559. Boston: 60, 53, 115, .522. Pittsburgh: 50, 68, 118, .424. Washington: 43, 73, 116, .371. Indianapolis: 34, 86, 130, .283.

AMERICAN ASSOCIATION.

Cincinnati has strengthened her hold on second place this week in the series of games with St. Louis. Louisville has been playing badly all the week, and hardly has a chance for second place. Following is the record to date:

Table with 5 columns: City, Won, Lost, Played, Per cent. St. Louis: 74, 36, 130, .714. Cincinnati: 73, 52, 131, .593. Louisville: 73, 56, 156, .566. Baltimore: 67, 54, 127, .559. Athletics: 61, 66, 127, .486. Brooklyn: 57, 70, 127, .449. Metropolitan: 40, 85, 125, .320. Cleveland: 38, 93, 128, .297.

IN LEAGUE WITH ITALY.

The Interview Between Prince Bismarck and the Italian Ambassador.

BERLIN, Oct. 3.—The Italian ambassador to Germany has gone to Friedrichsruhe. PARIS, Oct. 3.—The Observateur says it believes that Prince Bismarck has submitted to the Vatican and Quirinal proposals regarding the Roman question which will soon be carried into effect, and that it is in consequence of these proposals that Signor Crispi has gone to Friedrichsruhe. The interview, it says, will be of great interstate importance.

ROME, Oct. 3.—The Tribuna says that Prince Bismarck's invitation to Signor Crispi for a conference at Friedrichsruhe was couched in terms that were friendly to the prime minister and flattering to Italy. Signor Crispi had a conference with King Humbert and then accepted the invitation. His journey, the Tribuna says, affords much satisfaction to Italian statesmen.

The Italia says the interview is important, but not unexpected, as Italy has lately entered into an alliance with Austria and Germany on an equal footing with the two empires; and in view of Count Kalnoky's meeting with Prince Bismarck it is only natural that Signor Crispi should confer with the chancellor in turn. The Italia believes that the interview is intended to strengthen the peace of Europe, not to prepare for war.

The Tribuna denies that the object of Signor Crispi's visit to Prince Bismarck is to conciliate the Vatican.

Sporting Notes.

The Middlesex gun club will hold a six-day pigeon shooting tournament beginning to-day at Purfleet, N. J.

Frank Burridge of New York has sold to Amos Wilkins the b. g. Eph, record 2:28 1/2, by Jack Wilkes, dam by Hambletonian, for \$5,000.

George Bubar, champion sculler of England, will leave New York for home on Oct. 11, to prepare for his race with Jake Gaudaur over the River Thames.

Jack Dempsey thinks Jake Kilrain can whip Jim Smith, but does not see how he is going to do it by training in England under Englishmen, seconded by Charley Mitchell and fighting on foreign soil. "Under these conditions," he remarks, "Jake's chances are dubious in the extreme." Dempsey is not alone in his opinion.

Emile Paul is going to try to run from New York to Philadelphia on Oct. 7. He said that he expected to have plenty of company on the road. Besides the judges and timekeepers, four other members of the Olympic club are talking of starting for the prize silver pitcher. They are Capt. Hirschberger, Louis and Willie Newman, and T. B. Fred. Saal Lassen will follow the race on a bicycle.

THE IMPROVED Henly Monarch Fence Machine

COMMON SENSE REASONS WHY THE IMPROVED HENLY MONARCH FENCE MACHINE IS THE BEST AND HAS NO EQUAL.

- 1 Because the wire is stretched the full length of the field before the weaving is commenced.
2 Because any sized wire can be used, and either 2, 3, 4, or 5 double strands can be used, weaving all with equal facility.
3 Because any size, length, or style of picket, or slab, or board, can be used, weaving fancy iron pickets equally well and solid.
4 Because it will make a fence over rough and uneven ground, or up and down hill alike, making as good a fence as on even, level ground, and the machine being adjustable, the pickets are all woven plumb.
5 Because the Monarch machine stretches the wire tighter, thus making the strongest and best wire and picket fence.
6 Because any one, man or boy, can operate it, and there are no parts to get out of order and repair.
7 Because it is made of the best materials, and, with proper care, will last a life-time.
8 Because the price is within the reach of every farmer.
9 Because it is the only machine that forces the slab or picket firmly against the wire, thus securing the slab in such a solid and permanent manner that it cannot be pulled out, and breakage is impossible.
10 Because the fence made by this machine will turn all kinds of stock, and is much stronger than any barb wire fence, and completely obviates all danger of injury to stock.
11 Because by weaving past the post, and flattening the wire strands to the posts with staples, and not nailing the slabs to posts, thus keeping the wood parts from coming in contact with each other, it will not hold the moisture or rot. This is a very important matter, as all boards on board fences soon rot off at post, and occasion continued expense for repair.
12 Because all kinds of old material can be used for making new fence.
13 Because it makes the handsomest, best, strongest, and most durable fence, and is the only first-class, practical fence machine in the world.
