Without doubt one of the greatest mining achievements of modera engineering is the construction of the Big Bend Tunnel on the Feather river, situated in Butte County, California. Feather river is formed by the North, Middle and South Forks, which rise in the Sierra Nevada Mountains in Plumas County, run southwestward, and unite in Butte Co. to form the main Feather. It is well known, among gold miners, that the richest and most productive gold mines of California have been the beds of rivers, and the "Feather" especially has been known for years under the name of "The Golden Feather,"

But the Big Bend of Feather river whose gravel deposits have been estimated in value from \$100,000.000 to \$150,-000,000, has hitherto baffled the skill of man to rob it of its treasure. This vast amount of wealth has been guarded and preserved for ages by the minimum constant flow of one hundred thousand miners' inches of water rushing through a narrow canon of from 1,500 to 2,000 feet deep, which rendered it impossible to wing-dam or flume. Only recently these obstacles could be overcome through the intervention of modern engineering skill,

There is a little stream running through Dark Canon, which empties into the West Branch of the Feather and from there into the main Feather.

A tunnel was commenced in Dark Canon, and a bore 12x16 feet drilled through a spur of Big Bend mountain a distance of 12,007 feet, or nearly two and one third miles in length out to the mountain side of Feather River, at the upper end of the Bead. Just below where the upper end of the tunnel taps the river a dam was constructed which is to force the water through the tunnel into Dark Canon, out of which it will flow into the West Branch, and then into the main Feather again. This will leave about fourteen miles of the river bed exposed to sight during the season of low water, which is from seven to nine months in the year. At the head of the tunnel six gates of iron and steel, 41 by 8 feet, will let the water in or keep it ont. In times of high water the gates will be closed, and the river will run along its old bed, to be turned out of its course and through the tunnel at low water.

The President of the Big Bend Tunnel and Mining Company, and the largest stockholder therein, is Dr. R. red pepper, a little bunch of sweet V. Plerce, who, being fully satisfied with the feasibility of the plan from its inception, has with an unstinting hand supplied the funds for the prosecution of this enormously expensive work, and his confidence and liberality will soon meet its reward.

The Doctor besides is President of the Buffalo Loan, Trust and Safe Deposit Company, one of the foremost banking institutions in the city of Buffalo. But he is perhaps best known as President of the "World's Dispensary bread and fish in the tureen. Medical Association and Invalids' Hotel and Surgical Institute." This institution is situated on Main and Washington streets, Buffalo, N. Y., having the design to furnish a home to those de tring private treatment of the most skilled class, especially to those suffering from chronic and surgical diseases. It is not a hospital, but a pleasant, remedial home, furnished with every comfort, and the most approved sanitary, medical and surgical appliances. There are eighteen skilled physicians and surgeons constantly at the Hotel. and a corps of efficient and trained hard with a piece of flannel or coarse nurses. Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimo-mials, received from patients and from physi-cians who have tested it in the more aggra-vated and obstinate cases which had baffied their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect Specific for woman's peculiar aliments. As a powerful, invigorating tonic, it imparts strength to the whole system.

As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages im-particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening As a soothing and strengthening nervine, "Favorite Prescription" is une-qualed and is invaluable in allaying and sub-duing nervous excitability, irritability, ex-haustion, prostration, hysteria, spasms and other distressing, nervous symptoms com-monly attendant upon functional and organic disease of the womb. It induces refreshing: sleep and relieves mental anxiety and de-spondency.

Dr. Pierce's Favorite Prescription Dr. Pferce's Favorite Prescription is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in Rs effects in any condition of the system. Per morning sickness, or names, from whatever cause arising, weak stomach, indigestion, dys-pepsia and kindred symptoms, its use, in small-doses, will prove very beneficial.
