THE RESULTIN THE COUNTY. The result of the election in this county on Tuesday, shows that the Democrats carried it with a bandsome majority for the Republicans. This proves that our party is still omnipotent, i. e., it can 'carry the county for its own nominees, and can defeat its own ticket and elect that of the enemy when it gets such a cranky

The Republicans feel good, naturally, over the kindly turn received from Democratic hands.

The defeat of the Democratic ticket is altogether owing to the work of men on the Democratic side who failed to get a nomination, and were soured thereby. some of them openly fighting the nominees of the convention whose action they had pledged themselves to abide. This disposition is to be deplored, and no party can maintain itself unless there are offices enough to go around to give all a lick instead of an excuse to kick.

The Democratic county ticket, this year, was an unusually good one. The defeat of Greist is a disgrace, considered in the light of his services as a commissioner, and had it happened six or three years ago, it would have been a positive calamity.

Noll and Kimport were both good men and consistent Democrats, and no valid reason can be given why any Democrat should refuse to vote for them Thus the entire list-the ticket never was surpassed in the excellency of its make up.

While unwise nominations in the past have been a drag upon the party, yet when actually good men were nominated, they should have been sustained. The placing of Republican material in nomination for important place upon for sheriff and controller by 5000. the ticket, a few years ago, nigh brought defeat, and brought our majorities down to a mere nothing and the party has not recovered from the demoralizing ef-

But, the ticket this year, was not open to any thing that should make a Democrat hesitate to do his duty, and we hope the mistakes of the past and the folly of this year's voting for revenge will be fuil of admonition for the future.

Just think, a pretended Democratic organ, whose backers are in constant consulation with the vile Gazette, and conspiring to defeat the party it professes to belong to!

Only the other day a Democrat from Gregg told us this:

"I remarked to one of the warm supporters of the new organ, who induced me last fall to subscribe for it, as a Democratic paper, that the thing seemed to be considerably backward in its advocacy of the Democratic ticket, and the Gazette and it is in such perfect harmony.
