Matthew Bird, 11 years old, lies dead at his home, No. 1741 Norwood street, the victim of cigarette smoking, says the Philadelphia Record of Sunday. We see some cigarette smoking youngsters of Centre Hall looking as tho' they were on a trot to their graves.

Thanksgiving was a damp and dreary day, but the turkey had to go through the frying pan all the same. It was heads off with it for two or three days previous, as the proclamation had gone out. The most that one could have been thankful for, was that the day was wet.

In a short time McFarlane's hard ware store in Bellefonte will be moved from its present location, on Allegheny street to the largest and most commodious room in town, situated on High street. Last Friday morning two freight engines collided on the Shamokin and Lewisburg branch with terrific force. The accident happened on the bridge crossing the Susquehanna canal. Howard Spangler met with a very painful accident at Bellefonte a short time ago. He was working in one of the foundries, when by some mishap a pot of molten metal was upset and run over his foot, burning off the leather of his shoe and penetrating to the very flesh of his left foot, roasting it terribly. He has been on the retired list since but is able to move around by the aid of a cane.

T. T. Abrams, Esq., is expected to defend Luther Shaffer and W. H. Clough, Esq., will perform the same duty for Johnson and the Klins.

**NOTHING COMES FROM MUMMY WHEAT.**

We do not hear very much in these days of mummy wheat and barley, but many people firmly believe that the seeds of both plants found with Egyptian mummies, and supposed to be 3,000 or 4,000 years old, will sprout if put in the ground. A few years ago such wheat was commonly sold as a curiosity, and we believe that many purchasers succeeded in raising a small crop from it. Prof. Bentley, who has recently commenced a series of lectures on the physiology of plants, asserts most emphatically that no grains which with certainty have been identified as contemporaneous with the deposit of the mummified corpse have ever come to life. In cases where the so-called mummy wheat has germinated it has been introduced into the coffin shortly before or at the time of discovery of the body. Prof. Bentley does not name a limit to the time during which seeds retain their vitality, but he says that very few will germinate after being three years old.—*Chambers's Journal.*

**STATE COLLEGE.**

The Penna. State College now has about 140 students—a higher number than at any time before. The institution is gaining in reputation and our state can point to it with pride over the success that is now attending it, in fulfilling the requirements of the act of congress, and as a first class educational institution.

The college for a number of years was under a cloud from prejudices and misrepresentations by parties who either met with disappointments in desired control over it as well as from cranks motives. There were mistakes, no doubt, and these were magnified ten fold by the enemies of the College, who gladly caught at any error to decry and misrepresent it.

To the ability and untiring efforts of the President, Dr. Atherton and his efficient corps of Professors, the prosperity that is now attending the College, is mainly due, and for once it has a proper head who is making the institution a success, leaving no foothold at all for petty cavilers.

**MAGGIE BECK'S DEATH.**

FURTHER PARTICULARS OF THE SAD AFFAIR—HOW SHE WAS BROUGHT HOME.

The Lock Haven Democrat says: The body of Miss Maggie Beck, whose death was recorded in these columns recently, was brought home in the afternoon between three and four o'clock—a sad homecoming, indeed. It is indeed a mournful story, and what makes it so much worse is the fact that the family knew nothing whatever about it. They supposed that their beloved daughter was either with the Betts family at Carlton, or with other friends down at Newberry. No letter had been received, no word was sent them, and while they fondly supposed that she was enjoying herself and having a pleasant visit the poor soul lay dying in wretchedness and filth at the Half Way House, alone with her misery and with no kind mother or sisters to help sympathize with her. As soon as the news of her condition was received here on Sunday morning, her mother started to go to her, but when she reached the Half Way House she found her daughter's corpse. She was in a terrible condition, as we learn from her father, and did not even have her own clothes on, although she had plenty of her own with her. She was fearfully reduced in appearance, and only God knows the terrible agony of body and mind in which she died. It is a great pity that somebody didn't send word to her parents. Had this been done in time, the poor girl's life might have been saved. But perhaps no one knew who she was. Miss Beck was a bright, intelligent, highspirited girl, and her death is universally lamented. Her destroyer has a fearful sin to account for, both here and hereafter.
