FACTS YOU CAN BET ON. That the oldest and largest tobacco factory in the

world is in Jersey City, N. J. That this factory makes the popular and worldfamed Climax Plug, the acknowledged standard for first-class chewing tobacco.

That this factory was established as long ago as

That last year (1886) it made and sold the enormous quantity of 27,982,280 lbs. or fourteen thousand tons of tobacco.

That this was more than one-seventh of all the to-bacco made in the United States notwithstanding that there were 966 factories at work. That in the last or years this factory has helped

support the United States Government to the extent of over Forty-four million seven hundred thousand dollars (\$44,700,000.00) paid into the U. S. Treasury in Internal Revenue

That the pay-roll of this factory is about \$1,000,oco.co per year or \$20,000.00 per week.

That this factory employs about 3,500 operatives. That this factory makes such a wonderfully good chew in Climax Plug that many other factories have tried to imitate it in vain, and in despair now try to attract custom by offering larger pieces of inferior goods for the same price.

That this factory nevertheless continues to increase its business every year.

That this factory belongs to and is operated by Yours, very truly, P. LORILLARD & CO.

While exhorting you to patience, it is by no means my intention to counsel tame submission to a harsh, oppressive law, framed for the purpose of depriving you of the rights of free citizens. All that is required is the avoidance of any crime or outrage condemned by divine law."

Girls Out on a Strike. NEW YORK, Feb. 12 .- Thirty girls employed by Max I. Rau, parasol manufacturer, struck yesterday. Their employer had reduced their wages during the slack season, and they insisted on receiving the former price for their work now that the busy season had commenced. The girls took the r work home and sewed it on their own machines, providing the thread; they afterwards took it to the factory and sewed each cover on a frame. For this they received four cents a cover. They demand five cents. By working until 10 o'clock at night a good operator could make \$2 a day in the busy season. The average wages were much below this. The girls said yesterday that they received the lowest prices in the city. They are not organized.

The Lakes Alive With Floating Coffins. OTTAWA, Ont., Feb. 11.-Evidence against the manner in which the Dominion Government permits vessels really unseaworthy to navigate the lakes and inland waters have been brought out. Nine-tenths of the large loss of life and property on the lakes last season was owing to the lack of inspection, for which the Government is responsible for permitting rotten old hulks to carry freight on those waters. The lakes are literally alive with these floating coffins.

Lamar in point of looks is fully as interesting as any man on the bench. His strong dignified face with the heavy mane of hair falling about his shoulders, compares well with the large handsome features of Judge Gray, Judge Harlan or Judge Miller. He is wearing nowadays a magnificent black silk robe, lent him by Judge Field, who had just received it from London the day Mr. Lamar was confirmed by the Senate. From what can be learned in a round-about private way, his colleagues on the bench received Mr. Lamar with great cordiality. They had known him personally for many years during his life in Washington, and had come to respect his ability as a lawyer. Besides all this, in the social life of the bench Mr. Lamar promises to be a most acceptable acquisi-

It is one of the traditions of the court that the little brass kettle with which the Judges make their punch was first carried to the Capitol by John Marshall, and it is a favorite conviviality for the Judges every noon before going to the bench to take their toddy made from this old kettle. No outsider is ever admitted to the robing room except the tall, soldierly negro man who keeps it in order and waits upon the Judges. His mouth is as a will die. While he never enjoyed practice at the bar, being too impatient with the opposition, obstinacy and stupidity of other minds with which he had to contend, he feels at home as a Judge. Keeping Warm While Driving, A well-known physician, whose experience enables him to speak with authority on the subject, gives the following advice for protection against cold when driving: "Provide yourself with a good kerosene lantern, well filled and trimmed, and with sufficient oil if necessary for refilling, and you have the most efficient means for en-during the cold that can be got. This lantern being lighted and kept beneath any covering that is used to protect the limbs, will add materially to one's comfort who must make winter trips. I will add, in connec-tion with the lantern, that a rubber coat or gossamer or rubber blanket is a most desirable garment for a long, cold ride. If any one will try these suggestions, he or she will never start out again for a cold drive without the lantern and oil; also a good, strong umbrella is a great protection against a cold wind."—St. Paul Press.
