the usual form, but it is only recently six pounds; corn meal, four pounds. that we have seen it recommended in diarhœa. Dr. Vigouroux recommends a glass of hot lemonade every hour or only in sufficient quantity to balance half hour, agreeable and efficient for diarrhœa.

A PLEASANT remedy for a cough is lemon honey. It is made of the juice of three lemons, one pound of sugar, quarter of a pound of butter and six eggs. The mixture is boiled and taken

Lumbago may be quickly relieved by binding a piece of oil skin cloth, such as is used to cover tables, over the loins, outside of the flannel shirt. Profuse prespiration is produced which rapidly relieves the pain.

FARM NOTES.

uary-not later. Plough the manure the successful breeding of duks. under as soon as the ground will admit in the spring. Harrow well and plant in drills, three feet apart, pieces of through the ground; crossharrowing, killing all the weeds that have started. | the field will have a clean appearance. Then cultivate often until the vines are too large to work in. I am entirely satisfied that manure applied broadelse on that lot. I use manure every wine with them. year, in December, thirty loads to the acre. Of course the ground is getting very rich and mellow by constant manuring and tilling, and that is just always sure of a crop. I have no pose. The curtains should be tied back trouble whatever with grubs, and I quite high and not in the old style, think this is because I apply the manure when I do.

THE carcass of our sheep should be made valuable by its ability to reprodrippings, and may be eaten with sugar | duce itself annually in a valuable or syrup, like griddle-cakes. Pieces of market lamb, and to sell, when its turn bread which are not too hard can be shall come to be turned into money, for made into a resemblance of turkey a sum which would afford a profit upon dressing. Cut the bread into dice, and the cost, The fleece, as a secondary if you have a quantity of gravy from | consideration, should be made as valuable as possible. To secure these results the skill of breeders should be brought to use to improve all of our sheep up to this standard.

> OIL, is fatal to every insect it touches, and sulphur is very offensive to them. A mixture of four ounces of lard and one of sulphur, well rubbed together, and with the addition of one ounce of kerosene oil and one drahm of creosote, will be found an excellent remedy against all sorts of insects vermin, while the liberal use of kerosene oil on poultry roots will free the fowls of their tormentors.

THE practical benefit to be derived these slightly browned crumbs make from raising good stock depends, among excellent griddle-cakes with the addi- other things, upon the treatment received at its owner's hands, Blood and breeding and rare natural capacity may be utilized in making a custard are powerless to contribute to successpudding also. The fact is, that where ful stock-raising unless accompanied economy is the rule bread will not be by the co-operation of humane thoughtfulness, intelligent management and regular care. Merit is not proof against neglect, starvation and abuse.

WHEN one recalls the fact that the eggs used in this country every year, imported and domestic, have been estimated as worth \$112,000,000, and that lime water, etc. The great thing is to the chickens eaten by our people are mouth mornings, the vision becomes dim, prevent it by the use of a proper diec. worth at least half as much, so that the memory impaired, and there is frequent we consume annually in fowls and eggs knew it to be half arsenic. Let others \$168,000,000, the importance of well-eat all the sweet things. Take a large managed poultry shows is apparent. proportion of animal food, though not Every effort made that tends to the a tremor or trembling or palpitation of the improvement of domestic fowls is of

LOOK out for frozen combs colds nights, especially in the large combed breeds, such as Minorcas, Leghorns, is recommended to send a flax seed in etc. A frozen comb would mean the loss of not a few eggs just at a time when they are most valuable, As a general thing where reasonably warm houses are built this can be avoided by keeping the doors and windows closed, which can be safely done if a building be properly ventliated, opening them once or twice a day to thoroughly air the house.

As an example of what some men can do with an acre of land by judicious management and the skillful application of chemical manures we learn that a Scotch farmer recently harvested a crop of greentop Swedish turnips which weighed over fifty tons per acre. But this record is outstripped by another Scotch farmer, who has a crop of turnips calculated to average eighty tons per acre; the roots of good shape button it up. Then put it into a pan and weighing from sixteen to seventeen

A FARMER of many years experience gives some of the many causes of the deficient hay crop. He says it is the soften the leather, shaping it to the close cut of the mowing machine and the foot. If the shoe squeaks, the sole is dull knives pulling up the grass roots; also the scratching and harrowing of the remorseless wheel-rakes held down to get the last spear, followed by the close pasturing in the fall. Moral: Raise up the cutter-bar and keep sbarp knives for the good of the team, if nothing else. Above all things, keep off stock in the fall. Also use top dressing.

THE honey extractor is simply a can containing a revolving frame. Into honey are placed and rapidly revolved, or whirled around, by turning a crank. The centrifugal force throws the honey from the cells without breaking or in any way injuring the combs. combs can then be returned to the hive to be again filled with honey.

PROFESSOR HENRY, of the University of Wisconsin who is well known as a conservative and careful agricultural forded: Put five drops of chloroform experimenter, advises, where cornstalks on a little cotton or wool in the bowl of are to furnish the principal rough foed, a clay pipe, then blow the vapor the following as a day's ration for a through the stem into the aching ear. cow, to be fed at two or three feeds: Corn stalks cut, fifteen to eighteen Some people prefer hot lemonade to pounds; clover hay, five pounds; bran,

> COTTONSEED-MEAL should be used coarse grass and rough forage. If fed in this manner it will assist in rendering the food more digestible, and also supply those elements that may be lacking in the rough food. It may be alternated with linseed-meal if pre-

A SAUCE that is good for almost all kinds of boiled puddings is made by cast in January is worth at least four | beating one-quarter of a pound of buttimes as much as that put on at the ter and the same quantity of sugar totime of ploughing. I keep one lot es- gether till they are like cream. Then pecially for potatoes and raise nothing mix a wine-glass of brandy, rum or

THE prettiest way to arrange curtains in a doorway is to have two instead of one, and to tie these back with what potatoes want. I can get in this ribbons or handsome bands which are way, say, 200 bushels per acre; and am manufactured expressly for the pur-

> The first bread is supposed to have been made by the Swiss lake-dwellers, at a period to which no date can be assigned, although it may have quite closely approached historic times. Specimens of the bread, which was baked between two red-hot stones. have been found in the form of little circular cakes, four or five inches in diameter by an inch and a quarter thick. Wheat and barley were the cereals used, but a cake made from poppy-seeds has been found among the ruins of the lake-dwellings. The grains were imperfectly ground, or crushed, in stone mortars, and the bread was unleavened.

> The knot or naut cal mile is variously reckoned at from 6076 feet to 6125 feet. According to the standard of the British Admiralty the knot is the length of the minute of longitude at the equator, or 6086 feet 1 1527 statu e inches, or 1855 metres. The mean length of latitude, sometimes reckoned as a knot, is 6076 feet 1.151 statute mile, or 1852 metres. A marine league is three of these sea miles.

NERVOUS DEBILITY.

A Sure and Positive Cure for This Common Complaint.

Sufferers from nervous debility complain of physical and nervous weakness and ex-haustion; there is prostration of the physi-cal strength, a tired feeling with no inclination for exertion, and the power to work is diminished; the patient wakes mornings tired and unrefreshed; there is an extreme nervous and irritable condition, a dull, cloudy sensation often accompanied by disagreeable feelings in the head and eyes; the ughts wander easily; there will be gradual failing of strength, with weakness and pain in the back; bad taste in the dizziness; often the patient is gloomy and despondent, and the nerves become so weakened after a time that the least excitement or shock will flush the face, bring

vura Nerve Tonic, the great strengthening and invigorating remedy, is a sure and positive cure. Under the use of this wonderful restorative, which is purely vegeta-ble and therefore harmless, the dull eyes regain their brilliancy, the pale look and hollow cheeks show renewed health and vitality, the weak and exhausted feelings give place to strength and vigor, the brain becomes clear, the nerves strong and steady, the gloom and depression are lifted from the mind and perfect and permanent health is restored. It is an absolute and certain specific for nervous debility. Young men with weakened nerves and exhausted vitality can regain their strength by its use. It ores lost energy and invigorates the weakened vital powers in old and young. No one need despair of a cure. Use Dr. Greene's Nervura Nerve Tonic, and an ab-

solutely certain cure will result.

Druggists keep it. Price \$1 per bottle. Be are and get Dr. Greene's Nervura Nerve Tonic; take no other, for this remedy has no equal. If your druggist does not have it, he will get it for you. Dr. Greene, 35 West 14th st., New York, the great specialist in curing nervous and chronic diseases, can be consulted by letter free. Write him about your case.

Great effects come of industry and perseverance; for audacity doth almost bind and mate the weaker sort of mind.

Frazer Axle Grease. Use the Frazer Axle Grease, 'tis the best in the world-will wear twice as long as any other. Ask your dealer for it, and take no other.

Hypocrisy is much more eligible than open infidelity and vice; it wars the livery of religion, and is cautious of giving scandal.

If, after a ten day's trial of Taylor's Hospital Cure for Catarrh, the remedy fails to meet the requirements of the case the price will be refunded. Address, City Hall Pharmacy, 264 Broadway, New York, for free pamphlet.

The forms required by good breeding, or prescribed by authority, are to be observed in social or official life,

"Try it and see." The groceryman took a stick and jabbed away until satisfied that such was the case and then said:

"Well, it's queer, and I'll make it all right. That must have come from the barrel that I sell for medicinal pur-

TIME ENOUGH TO LIE,-There is a young man studying law in a Texas lawyer's office, and the young man is not very regular in his habits. Yesterday the old lawyer said:
"Why didn't I see you in court yes-

terday?" "Because I wasn't there, I reckon. I was confined to my room with the toothache," was the response of the in-

cipient Blackstone. "Come, now," said the lawyer good naturedly, "you have plenty of time to lie after you have passed your examination and been admitted to the bar."

WANTED IT CHANGED .- Ethel and Maud were taken in by the nurse for their first glimpse of a little baby brother, whose age was numbered by hours. Ethel did not seem at all pleased, and in answer to a question she replied, with no little disdain: "No, I den't like it. I wouldn't have such a red-faced baby. If I was mother 1 would send it back and change it." She knew that her mother, when dissatisfied with some purchase, frequently returned it to the store and exchanged it for something more to her taste.

FIRST Farmer-"Ever been up ter the city?"

Second Farmer-"Once." First Farmer-"Only once eh? Got took in, did ye?"

Second Farmer-"Yes, but I'm gettin' even on them there city folks now.

First Farmer—"Ye are! How?"
Second Farmer—"I'm takin' in city boarders,"

Doing a Good Deal. - Friend (to amateur humorist) - "Are you doing anything for Texas Siftings nowadays, Charley?"

Amateur Humorist-"No, I haven't sent anything to Texas Siftings for over a year. "

Friend-"You don't say so! Why, that is doing a good deal for the paper, Charley. They ought to pay you well

"YES, sir," yelled a preacher in a Dakota church one Sunday morning, "there is more lying and swearing and stealing and general develtry to the square inch in this here town than all the rest of the American country," and then the congregation got up and dow.

EASY WORK AT HOME .- "I see the papers advertising easy work at home." said Mrs. Brown, as her husband settled himself in his easy chair to read the evening news.

"Yes." he replied, "I have noticed advertisements of that kind." "Well," she said, as she prepared to wash a sinkful of dirty dishes, "it ain't

house work, you bet!" A DOUBTING THOMAS. - Teacher-"With the exception of the animals Noah took with him into the Ark,

every living thing perished in the flood. Doubtful Tommy-"The fishes, too?"

It has been claimed that Hungarian grass is equal to timothy, and that barley is an excellent late green crop.

\$500 Reward is effered in good faith, by the manufacturers of Dr. Sage's Catarrh Remedy for a case of catarrh which they cannot cure. It is mild, soothing and healing in its effects, and cures "cold in the head," catarrhai deafness, throat ailments, and many other complications of this distressing disease. 50 cents, by druggists.

Verbenas, if kept in the house, will be liable to mildew, which will render them undesirable for the window.

There are very few men who do not pride

There are very few men who do not pride themselves on always having the correct time; and wonderful and delicate mechanisms are devised to enable them to do so. But the more delicate a chronometer is made, the more subject it becomes to derangement, and unless it be kept always perfectly clean, it soon loses its usefulness. What wonder, then, that the human machine—so much more delicate and intricate than any work of Man—should require to be kept thoroughly cleansed. The liver is than any work of Man—should require to be kept thoroughly cleansed. The liver is the main-spring of this complex structure, and on the impurities left in the blood by a disordered liver, depend most of the ills that flesh is heir to. Even consumption (which is lung-scrofula), is traceable to the imperfect action of this organ. Kidney diseases, skin diseases, sick headache, heart disease, dropsy, and a long catalogue of grave maladies have their origin in a torpid, or sluggish liver. Dr. Pierce's Golden Medical Discovery, by establishing a healthy, normal action of the liver, acts as a cure and preventive of these diseases. as a cure and preventive of these diseases.

Granulated sugar and water brought to the boiling point and then cooled is said to be excellent for bee feeding.
