- Friday morning last, 10, was the boss morning for cold weather this winter. The temperature began to fall the evening before, and by 9 p. m. it was extremely cold already, with a perfectly calm atm sphere, and it kept getting colder right along notificers. colder right along until morning. The thermometer indicated from 8° to 18° below zero, depending upon locality, and under it no one could have puckered his lips I ng enough to whistle the first bar in Yankee Doodle. Reports from all parts of the country show that this cold snap was general and in some parts the marroury was down to 33. BOYS, A GOOD EXAMPLE.

Little Willie Shoop, a son of Samuel Shoop, of this place, aged about 10 years, EDITOR and Prop's has undertaken something rather remarkable for a boy of his age and we think it is worthy of public notice. Little Will for about a year has been the and Sunday papers which have a large sale in this section. He is always on hand attending to his business and manages to dispose of all his papers each day and by the end of toe week has a fair sum in pocket, as the result of his labor.

Since a new street bas been opened in town, and building lots have been selling quite readily, our young news agent had a small surplus on hand and concluded to purchase a good plot, and was able to pay a fair portion of the price down in cash. He has arranged to meet the balance by weekly payments' which he thinks he can do in a short time by saving every penny he earns. Newsboys do not make a fortune selling papers at this place, yet in a short time it will amount to a considerable sum. There is an old adage that says if you take care of the pennies, the doilars will take care of themselves. We believe there are many boys in town who if they took care of their money, would be able to make similar investments, of course it would be a little hard on our peanut stands and cigarette counters. Many boys have good opportunities for making money vet are to a careless and indifferent to improve them, and again there are others who spend most of their time loafing in the stores when they should be at school and their parents are equally indifferent. Then there are boys in this town who are too dishonest, to be trusted furtuer than they can be seen. We know of some cases where newsboys would spend the money they got for pa pers, for cigarettes, which Sam Jones terms coffin nails; such fellows have a brilliant future before them-making brooms

boots, etc, in the western penitentiary. Now boys the best advice we can give you is, don't waste your time loafing in the stores and on the streets but be at school during the day and at home in the evenings studying your lessons. Be honest and industrious; don't spend your but save it for a better purpose and you will surely make your mark some day.

THE BOARDWALK.

The matter of the snow bound boardwalk is just now engaging the attention of the taxpayers of our boro'. Unfortu-nate y the council in placing it did not follow the law, and when they demanded pay for it from the party owning the land along the pike, they began to see their mistake. Since the Hoffer estate could not be made to pay on account of this non-observance of the law, the council thinks of getting out of the dilemma by drawing orders upon the boro' treasury for it. But there does not appear to be any authority in law to have the people taxed for it, and if there is no such authority, then the audit can not pass he accounts without a violation of their oaths, and the citizens do not intend to

on Saturday evening. A rich musical for the job, because the law was not observed.

> Now a board walk to the station is this can only be done by a private ar | only fault was his love of drink. rangement on their part with the owners the lots to take it off the council hands. If they refuse, then let the council proceed anew, according to law, and put a walk as the law directs, "on the land adjoining the pike," and charge it up against the owners of the land. This latter would cost the land owners 25 per cent more than the walk now down, and their wiser plan would be to accept the present one

Jacob Harpster, Miss Lizzie Durst. Mrs Katie Durst, and others, had to put down board watks across their vacant lots, at their own expense, and by no ressoning can it be shown to be fair or just that they should be taxed for walks across variant lots of others, and there is no la sto compet them to do it.

The council certainly can see a way to seife this matter without an attempt to make the citizens pay and at the same time save themselves for their mistake.

BIRTHDAY PARTY.

On last Saturday evening quite a num-ber of persons gathered in the parlors at Meyer's hotel and among them was to be seen, it was, exclusively, a stag party. They had assembled to celebrate an event of no little importance.

The story runs thus: On February 11, 1860, there was ushered into this world of joys and sorrows, of struggles and endless conflicts, a tiny specimen of hu-manity, with wee small feet, prattling hands, and of powerful lungs which announced its arrival in the region of Berks county, where it first opened its eyes and beheld the gorgeous beauties and wonders of this mundane sphere. It was of the male persuasion and as time in its rapid flight harried on completing many cycles, this subject of interest and, early expense, developed into a man of noble qualities and sterling worth. It -The Methodist Episcopal church was the twenty-eighth anniversary of Meyer and mine host E. M. We will not give particulars but say that all enjoyed themselves immensely and left with the best wishes for Mr. Huvette and expressed the hope that he would live to celebrate many similar anniversaries.

PREPARING TO OPEN THE COL LIERIES UNDER ARMED PRO-TECTION.

Pottsville, Feb. 11.-The replies to the General Executive Board of the Knights of Labor by Presidents Corbin and Keim seem likely to have the effect of bringing more miners back to work on Monday morning than had been expected. In fact, Monday promises to be another critical day of the strike. Its events are awaited with mingled curiosity and dread. Especially is this true at Shenandoah, where a special effort will be made to renew work under armed protection for those miners who wish to resume operations .The Reading Company will start again the Shenandoah City and the West Shenandosh Collieries, and the Thomas Coal Company expect to begin work once more at the Kebley Run Colliery. All of these have been idle since the riots The miners at Tower City will meet to morrow to vote upon the question of returning to work. The Lehigh strikers at Nesquehoning are also expected to return to work in large numbers.

The strike leaders are urging their followers at Shenandoah to maintain order, but it is certain that many of them will wish to attack the men who go to work, and if a riot should break out on Monday evening bloodshed is certain to result. There are nearly 300 Coal and Iron police at Shenandoah, all armed with repeating rifles, beside fifty deputy sheriffs and the borough special police. Strong detachments of Coal and Iron police are also stationed at various points in the region where collieries are expected to start on Monday. One hundred of them were sent to Nesquehoning
