SALT-RHEUM

AND

RHEUMATISM.

"COLUMBES, OHIO, Aug. 18th, 1887.

"TION, 663 Main Street, Buffalo, N. Y.:

"Gentlemen—For several years I have felt it to be my duty to give to you the facts in relation to the complete cure of a most aggravated case of salt-rheum, by the use of your 'Golden Medical Discovery.' An elderly lady rupwards of forty years. The disease was most distrossing in her hands, causing the skin to crack open on the inside of the fingers at the joints and between the fingers. She was obliged to protect the raw places by means of adhesive plasters, salves, ointments and bandages, and during the winter months had to have her hands dressed daily. The pain was quite severe at times and her general health was badly affected, paving the way for other diseases to creep in. Catarra and rheumatism caused a great deal of suffering in addition to the salt-rheum. She had used faithfully, and with the most commendable perseverance, all the remedies prescribed by her physicians, but without obtaining relief. She afterwards began treating herself by drinking teas made from blood-purifying roots and heros. She continued this for several years but derived no benefit. Finally, about ten years ago, I chanced to read one of Dr. Pierce's small pamphlets setting forth the merits of his 'Golden Medicai Discovery' and other medicines. The name struck

my fancy, and seeing that it was essentially a blood-purifier, I immediately recommended it to the old lady who had been so long a sufferer from salt-rheum. She commenced taking it at once, and took one bottle, but seemed to be no better. However, I realized that it would take time for any medicine to effect a change for the better, and encouraged her to continue. She then purchased a haif-a-dozen bottles, and before these had all been used she began to notice an improvement. After taking about a dozen bottler she was entirely cured. Her hands were perfectly well and as smooth and healthy as a child's. Her general health was also greatly improved; the rheumatism entirely left her, and the catarrh was almost cured, so that it ceased to be much annoyance. She has enjoyed excellent health from that day to this, and heas had no return of either salt-rheum or rheumatism. The 'Discovery' seems to have entirely eradicated the salt-rheum from her system. She is now over eighty years old, and very healthy for one of such extreme age.

She is now over eighty years on, and the extreme age.

I have written this letter, of which you can make any use you see fit, hoping that some sufferer from sait-rhoum might chance to read it and obtain relief by using your 'Golden Medical Discovery'—for 'Golden' it is in its curative properties, and as much above the multitude of nostrums and so-called 'patent medicines,' so zealously flaunted before the public, as gold is above the baser metals.

Respectfully yours.
