### FARM NOTES.

APPLES FOR ANIMALS .- We used to feed apple pomace to cows, says an Ohio farmer in the New York Tribune, and they relished it keenly. Feeding apples to cattle is rather difficult. Too many founder the cows, sometimes, and they dry up for weeks. Some cows choke of them. I have known cows to break in and eat all the apples they wanted, and their flow of milk would much increase. On another occasion half the herd foundered; some of them stretched out and dried nearly up for weeks. Year before last we cut apples until the cattle got used to them, then turned them into the orchard for a short time; but then some of them went back on their milk. Last year we were more successful. I found by allowing them to eat apples for ten minutes twice a day, they did well and the flow of milk increased. Leaving the cows in twelve minutes, one of them foundered a little. One cow choked on apples twice. We tied her nose up and pushed the apple down with a rakehandle. But a cow that chokes will continue to do so, unless she runs in an orchard all the time. Cows will eat apples that hogs will not touch, and to pasture an orchard with cows is a good way, if the trees have been trained high, as they should be.

WHEN stock is turned on the pasture, and there left all day, the water supply must be looked after. A milch cow must have plenty of water. She cannot wait until she is driven up at night. The water is a necessary constituent of the milk, and she must have it during the time the milk is being manufac-tured. If deprived of water during the the time the milk is being manufac-tured. If deprived of water during the the time the milk is being manufac-tured. If deprived of water during the time the t warm days her supply of milk will fall following conversation: otf.

THERE is but one secret in preserving eggs, and that is to keep them in a cool place, the nearer 40 degrees above zero the better, but not over 60 degrees. The eggs should be turned two or three times a week. Eggs from hens not in company with cocks will keep fresh twice as long as will those that are fertile. No packing inaterial is 'necessary. Simply lay them on racks and keep them cool.

IT is important that the sheep sheds be well supplied with racks and feed troughs, so that the sheep will not crowd each other in their endeavor to get their share of feed. Often the smaller and weaker ones are crowded away entirely and do not get any grain and only the refuse hay. Abundance of room should be given, so that each animal may eat its fill at its leisure and without crowding.

sheep a writer says: "One almost wishes the judges would once in a while be a little bit bold and mark their approval of real merit by picking out approval of real merit by picking out the level shoulders, great girth round the heart, close wool and smart heads, leaving the tremendous achievements in weight for age for what they are worth-a mere matter of size and high feeding, but not a criterion of profit."

quicker than any known remedy. It was the first

AIN REMEDY That instantly stops the most excruciating pains, allays inflammation, and cures Congestions, whether of the Lungs, Stomach, Boweis, or other glands or organs, by one application. No matter how violent or excruciating the pain the Rheumatic, Bedridden, Infirm, Crippied, Nervous, Neuralgic, or prostrated with diseases may suffer.

# RADWAY'S READY RELIEF

Will afford instant case. Thirty to sixty drops in half a tumbler of water will, in a few minutes, cure Cramps, Spasms, Sour Stomach, Nausea, Vomiting, Palpitation of the Heart, Malaria, Chilis and Fever, Faintness, Heart-urn, Sick Headache, Diarhora, Dysentery, Colle, Wind in the Bowets and all Internal Pains. There is not a remedial agent in the world that will cure Fever and Ague and all other Mala-rious, Billous, and other Fevers (alded by RAD-WAY'S PILLS, so quick as RADWAY'S READY RELIEF. Medical and scientific skill has at last solved the problem of the long needed medicine for the ner-rous, debilitated, and the aged, by combining the best nerve tonics, Celery and Coca, with other effec-sive remedies, which, acting gently but efficiently on the kidneys, liver and bowels, remove disease, restore strength and renew vitality. This medicine is trying to get Agnes to vote for me for chairman. Mother-Why don't you vote for him daughter, so he can do what I told him to do?

Agnes-Very well, Johnny, I vote for you for chairman.

Johnny-That elects me. The chair appoints Agnes a committee to bring in the wood. .

As a Scotch minister and an English lawyer were riding together, said the minister to his friend: "Sir, do you ever make mistakes in your pleading?" do," said the lawyer. "An' what do ye do wi' mistakes?" was the question. "Why, sir, if large ones, I mend them; if small ones I let them go. And pray sir, do you ever make mistakes in preaching?" "Ay, sir, I have dune sae." "And what do you do with your mistakes?" "Oh, I dispense with them in the same manner as ye do yoursel'. I rectifee the large, an' let go the sma' anes, No lang since, as I was preachin' I meant to observe that the devil was the father o' a' hars, but made a mistake an' said be was the father o' a' lawyers. But the mistake was so sma'

MR. HUCKLEBERRY-When I marry, I don't want to marry a girl with her head all full of Latin and Greek and French and German-I don't want a girl who does embroidery and china painting and fal-fals and gim-cracks-I want a good, plain, old-fashioned girl, who doesn't know more than is good for her, and who will attend to her household and see that her husband is properly fed for his money. But I'm hanged if I know where to look for such a girl nowadays.

Mr. Raseredge-Why don't you try an intelligence office.

AN amusing story is told of a Scotch country preacher and his beadle. The minister, when about to publish the bans of marriage, discovered that he; could not find the names. Not wishing to make a lone pause he repeated: "I publish the bans of marriage between-Still no signs of the paper, He began again: "I publish the bans of marriage between-" Still no paper could be found. He began again: "I publish the bans of marriage between-" The beadle, wishing to enlighten him as to where the paper containing the names was, cried out, to the consternation of the congregation: "Atween the cushion and the desk, Sir."

CLERK (to young lady who has purchased a pair of gold sleeve buttons for her fiance) - Any initials, Miss?

Young Lady-Oh, yes, I forgot, engrave the letter U, his first name. Clerk-Ah. May I ask, miss, if it is Urlah or Ulysses? names with U are rare.

Young Lady (proudly) -Ei; name 's Eugene.

a reliable spring medicine like Hood's Sarraparilla to expel the impurities which have accumulated in the blood during the winter, to keep up strength as the warm weather comes on, create an appende and promote healthy digestion. Thy Hood's Harsaparilia this spring and from our convinced that it does possess superior and peculiar-merit.

### A Good Appetite

### THE OUTGROWTH OF A VAST EXPERIENCE.

The treatment of many thousands of cases of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

Dr. Pierce's Favorite Prescription is the A BOON A BODN TO WOMEN. Ite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials, received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect Specific for woman's peculiar diseases.

Their combined use also removes blood taints, and abolishes cancerous and

scrofulous humors from the system

## TREATING THE WRONG DISEASE.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, mother from heart disease, another from liver or kidney disease, another from nervous exhaustion, or prostration, another with pain here or there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he preseribes his pills and potions, assuming them to be such, when, in reality, they are all only symptoms caused by some womb disorder. The physician, ignorant of the cause of suffering, encourages his practice until large bills are made. The suffering patient gets mo better, but probably worse by reason of the delay, wrong treatment and consequent complications. A proper medicine, like DR. PIERCE'S FAVORITE PRESCRIPTION, directed to the cause, would have entirely removed the disease, thereby dis-pelling all those distressing symptoms, and instituting comfort instead of prolonged misery.

pelling all those distressing symptoms, and instituting comfort ins **BARSON BARSON BARSON**
