CENTENNIALS!

MILLHEIM'S CENTENNIAL IN 1898.

THE TOWN LAID OUT IN 1788. When we urged the celebration of Aaronsburg's Centennial, in 1886, we alluded to the fact in the Reporter, that Millheim a Centennial would occur in 1898. Some are of the opinion that Millheim's Centennial occurs this year, and we have been requested to cite some authority to settle the matter.

MILLHEIM.

The land on which Millheim is situated was surveyed in pursuance of a warrant dated Nov. 24, 1772, granted to John Cash in allusion to the name of the warrantee the tract was called "Ready Money," and was conveyed by Cash to David Shakspear, and by him transferred to Michael Gunkle, December 30, 1794. In 1797 Philip Gunkle came into possession of it, and in the following year (1798) laid out the town. The village is located on Elk creek, a tributary of Penn's creek.

The town was so named because of the existence on its site, at the time it was laid out, of two mills—"heim" being the German for "home," the name, therefore, signifies "mill home," or home of the mills.

Since the starting of the place its growth has been moderate, the citizens preferring to move slowly and surely rather than run the risk of over-reaching. During the first twenty years of its existence its population increased to something over one hundred, as far as can be ascertained.

In 1812 Jacob and John Harter, natives of Lebanon county, located in Millheim, the former to engage in blacksmithing and the latter in wagon making. The place at that time contained about a dozen houses. The two mills alluded to were built of logs, and stood upon or near the sites of the two flouring mills now owned by D. A. Mueser, Esq. There was also a hotel, said to have been the first frame building erected in the place. It was kept, at the time mentioned, by a man named Brosius. The building is still standing, owned by Samuel Behm and occupied by Henry Weiser.

Benjamin and Henry Lees had a store in the building now owned and occupied as such by Elisha Campbell. A blacksmith shop stood on the ground now occupied as the shop of William Weiser, and a wagon shop stood where the plastered house owned by D. A. Foot now stands. The dwellings at that time were: one on the site of Jacob Gepharts residence; the small, red building now owned by the heirs of the late Daniel Reighard; the one now occupied by the post-office, and the house now owned by John Keene. A school house for German school stood where Snook's store now stands, and one for English where the United Brethren church is situated. There being no church building their religious services were held in the school house.

During the war of 1812 a rifle company organized at Millheim and went into the United States service. It was stationed at Black Rock; but because of not being properly supplied with food and clothing, they took "French leave" and returned home after an absence of a month or so. The captain of the rifles was Joseph Kleckner; the first lieutenant, John Jones; the ensign, Jacob Lutz. John Straw, Daniel Smith, Thomas Wiley, Charles Shryffler and Joseph Reighard were privates. At about the same time the rifle company left the place, Robert Aikens, John Saavey and Thomas Cronmiller enlisted in the navy and served under Commodore Perry, on Lake Erie, being with that gallant officer when he captured the British fleet, and received medals for meritorious conduct. It is related of a brother of Cronmiller, who was also with Perry, having gone from another part of the county, that as the Americans boarded the enemy's ships, the English cried for "quarter," whereupon Cronmiller naively said: "We have not time to quarter you, but we will halve (have) you."

POTTER'S MILLS CENTENNIAL. The first house at Potter's Mills was erected in 1788, by Geo. James Potter. Linn's history says the carpenter work was done by James Brisben, and his bill for it was fifty three pounds. This was a large log house, afterwards used as a tavern. The grist-mill and saw mill were erected by him in 1788-89—Jacob Houser, millwright, John Barber, carpenter.

W. J. Thomson, and others, are now making an effort to celebrate the Centennial of Potter's Mills this summer. That's right—the village has a revolutionary history, and a celebration could be made quite interesting, with some Indian incidents throw in.

CENTENNIALS TO COME. Philipsburg's Centennial comes in 1897. The first house was built by John H. Nav Simlar Heary and James Phillips laid out the town.

Centre county will celebrate its centennial in 1900. Bellefonte will have her centennial come in 1895, when the town was commenced by James Harris and James Dunlap, who owned the site.

Millheim was laid out in 1798 and will be 100 years old in 1898.

DEATH OF MRS. JENNIE RIDER.

Within the last few days the Angel of Death has visited a home in the county, and has taken from it a young wife and mother.

It was unexpected, too. On Saturday night Mrs. Rider could not rest well, and her husband was up caring for her until midnight, when at her urgent request, he lay down to sleep. Waking up about daylight, he found his wife dead by his side. She had been subject for some time to fevers attacks of heart disease, and her physicians say her sudden death was due to this trouble.

Before her marriage she was widely known in and about Pine Grove as the amiable daughter of Mr. and Mrs. George Eckel.

Though she has resided since her marriage part of the time in Tyrone, her body was brought to Pine Grove and the funeral took place from her father's residence on Tuesday, the 23d. It was largely attended. Three ministers assisted the Presbyterian pastor, Rev. Elliott, in conducting the services, and a large number of friends and neighbors gathered to pay their last tribute of respect to a departed friend.

Mrs. Rider was a devout Christian; a gentle, patient and loving wife and mother. In addition to a grief-stricken husband, the deceased leaves a bright motherless boy scarcely two years old to mourn her loss and the tender and loving care which only a mother can give. But twenty six years old, she had been for many years an active and consistent member of the Pine Grove Presbyterian church. She will therefore be missed, even outside of her own family circle, and her pleasant and cheerful disposition will long remain an inspiration to all who knew her noble and patient life.

DEATH OF MRS. HENRY GAST. Mary A., wife of the veteran retired merchant, Henry Gast, esq., after an illness of nearly two months, died on Thursday last, April 26, 1888, aged 77 years, 2 months and 11 days.

Mrs. Gast was the daughter of Daniel Spyster, late of Aaronsburg, dec'd, where she was born Feb. 17, 1811. Mr. George Spyster of this place is a brother of the deceased.

On the 28th of Feb., 1832, she and Mr. Henry Gast were united in marriage by the Rev. Mr. Aubrey, and shortly thereafter they located in Milliflinn, where they have since resided in happy union, until death has broken the tie, a period of about 56 years.

The fruits of their marriage were four daughters and four sons. Of these three survive to mourn the departure of their loving mother, namely—Mr. J. D. S. Gast, Dr. J. R. Gast—both of this place—and Mrs. J. A. Montelius of Piper City, Ill.

A touching incident of the burial was the fact that the pall bearers comprised her two sons J. D. S. and Dr. Gast, son-in-law J. A. Montelius and grandson Harry Gast.

Of those from a distance in attendance at the services and burial we recall the following: Mr. and Mrs. J. A. Montelius of Piper City, Ill.; Mrs. Polly Wolf, aged 86 years, of near Rebersburg, Pa., a sister of Mr. Henry Gast, husband of deceased; Mr. and Mrs. Wm. Wolf, and Mr. C. Dingler of Centre Hall.—Milliflinn Telegraph.

A FINE STOCK. Wolf & Son, of this place have been as busy as bees the last couple days unpacking their new goods. Their stock is complete in every particular and contains many new designs and patterns that will be worn this summer, and are exceedingly pretty. In caicoes every shade, pattern and design are represented; satens domestic and imported; Henrietta cloth in all colors, seersuckers in entirely new styles for the summer season and in fact all kinds of dress goods, in new and attractive styles which will be worn this year. Tennis stripes is something new and when made up is considered very pretty. It would be impossible even to mention all the new dress goods as their stock is large and contains every thing in that line. A special effort was made to secure the latest styles which are now open for inspection. A special invitation is extended to the ladies to come and see the new goods at Wolf & Son's store Centre Hall.

Harness oil at Boozer's harness rooms.

Ice cream at Murray's every Saturday evening.

Sunday the thermometer was 92 in some localities.

Corn in the ear chopped at the Centre Hall roller mill.

Don't fail to visit Pearlstine's new store when in Bellefonte.

Many fruit trees came out in blossom beginning of the week.

The rain, of Monday night, has been followed by quite cool weather.

Wm. H. Stover, of Aaronsburg, was quite ill last week, of neuralgia in the stomach.

Have you seen Wolf's new goods? A fine line and cheaper than ever, is what they say.

Quite a great deal of baled hay has been shipped from this station for several weeks past.

When you come to town don't fail to stop in at Wolf & Son's and see the new goods.

The Buffalo Run railroad is being extended two miles further to reach into new and rich ore fields.

Potatoes are selling for 70 and 75 on track. Its the best, that can be expected, and a good figure too.

Building lots for sale, 1/4 mile east of the station, at Mikecondoville, \$45 to \$75 per lot. Apply to F. Kurtz.

A thunder god passed over portions of the state Monday night, which, no doubt, put out the mountain fires.

Spring and summer stock of ready made clothing is being unpacked at the Rochester clothing House, Bellefonte.

The citizens of Freeburg are making extensive preparations for the unveiling of the Major Dill monument, May 1st.

Gen. James S. Brisben, U. S. A., stationed in Montana, is in the county on a visit to his old stamping ground.

Lyon & Co. have unpacked an immense line of Spring and summer goods and quote prices on same in another column.

CONTINENTAL MONEY.

Seeing a notice in an exchange that some one held one of the old continental shipplasters, we can add that we have in our possession quite a little pile of the stuff, and all genuine. We have continental money of the following denominations:

- 2 notes, each \$55,.....\$110
2 notes, each \$35,.....70
1 note,.....20
1 note,.....10
2 notes, each \$5,.....10
1 note,.....5
3 notes, each \$2,.....6
1 note, of 334 cts.
1 note, of 50 cts.

Total.....\$267 834

These relics of the times that tried men's souls, are well preserved, altho a little browned from age, and are printed on coarse, stiff paper, about 2 1/2 x 3 inches. Principle and interest for one hundred years on the above money, would now make our pile amount to the handsome sum of \$187,434, which Uncle Samuel might as well hand over to us and reduce the big surplus.

BADLY BURNED. On Saturday last Mrs. McCully, an aged lady, living in this place, made a narrow escape from death by burning. She was watching a fire of rubbish, in her garden, when a spark caused her dress to ignite on her back, and before she was aware of it a considerable part of her dress was in flames. In her fright she ran into the woodshed, when the sky at night, which was dark and den for Mrs. McCully, saw the trouble, and following her, brought her out of the woodshed and threw her on the ground and extinguished the fire. The greater part of her clothing was burned, and her hands and back sustained very severe burns. No doubt Mr. Shutt's efforts saved her from a terrible death.

MOUNTAIN FIRES. On Monday morning we observed that our mountains were on fire in all quarters, and a red glare is thrown against the sky at night, which, as atmosphere is laden with smoke and the sun almost obscured by day.

In Haines township the mountain fires are widespread. The Seven mountains are in flames over a wide extent. Nittany mountain, on the north side, from Lemont to beyond Pleasant Gap is on fire, and it will undoubtedly spread to this side unless rain sets in.

LOCAL SQUIBS. —The grain fields in Bald Eagle valley look fair. The prospects for grain and grass in all sections of the county are fair.

—Stop in at Flemings, fashionable tailoring establishment, Bellefonte, and see the new styles in gents clothing for spring and summer.

—On Wednesday afternoon Yony Deiningler killed a blacksnake in front of his new house, near the station, which measured 4 feet 5 inches.

—The band was out on Saturday evening and tendered some folks a serenade. It is improving very rapidly and renders some fine music.

—Stover & Mott, the marble men, at Bellefonte, received recently a car load of marble and are offering tombstones and monuments at reduced rates.

—The Shaffer gallows is still at Lock Haven waiting for the next trial of Johnson. The concern belongs to Williamsport and will hardly be needed in Johnson's case, as he is likely to be cleared.

—Persons who wish to secure a home on a new, cool and easy plan, read the card of A. C. Moore, in another column. Mr. Moore is well known all over the county and he bears a good reputation.

—M. Fauble, proprietor of the celebrated Roche's Clothing House, in Reynolds new building Bellefonte, was in the city this week and brings back the first line of ready made clothing and gents furnishing goods ever seen in this county.

—The News says a Bellefonte merchant received what he thought was a home on a new, cool and easy plan, inside was a mass of tallow. The butter (?) is said to have been made by a woman living near Tusseyville and is a libel on Centre county butter.

—The next time you visit Bellefonte stop in at John Meese's store on Allegheny street and see the new goods. Mr. Meese was in the eastern markets last week and returned with an exceptionally fine stock, embracing dress goods, dry goods, fancy goods, notions, novelties etc.

—Dr. F. T. Mueser, of Aaronsburg, and James Smith, of Milliflinn, had a suit in court this week, relative to some disagreeable about water routes on their respective farms, west of Millheim. The grand jury in their report say: We further report that we find the water closets and vaults at the rear of the Court House, to be in a good condition as they can under the circumstances be kept; they appear to be clean, but notwithstanding they are a nuisance and should be removed, substituting in their place closets more convenient to the court and county officials. We find that the vault in the register's and recorder's office is becoming too small for books that are accumulating, and some change in their shelving would afford a measure of temporary relief. We find the same with the vault in the commissioners' office.

We would further recommend that an extension be made to the rear of the Court House, to extend back at least thirty feet; that the grand jury room be enlarged and a new traverse jury room, witness room and sheriff's office be added to the rooms now in the building; also that water closets be placed in each jury room.

—The sawmills are keeping up their warfare against the forests, with a petty voracious avarice, and the stately pine and grand old oak are disappearing like the red man who once had his abode and found his game under the branches of the pine and oak. In five years from this date, and at the present rate of lumbering operations, our valley will be stripped of every valuable piece of timber in it.

SPRING GOODS. We would respectfully announce to our many patrons in Centre co. that we have received an immense line of spring and summer goods. We were in the market in time to select a fine stock and have opened up the same for your inspection. We have an unusually large and complete line of suitings for our merchant buying department. Altogether new styles in cloth will be worn for spring and summer and can be seen at our store. Remember that if you want a fine spring suit. You can get it much cheaper now than when there is a rush. Our line of ready made clothing complete and lower in price than ever. Come and see the new styles just received at PHILADELPHIA BRANCH.

THE CHANGE. Twenty-five years ago it took a Philadelphia paper three days to reach the country. Now the New York and Philadelphia dailies reach us in the afternoon of the day of publication, and Harrisburg morning papers get here the same morning.

Twenty years ago scarce any daily had subscribers in this county, now they are received at every post office and all our towns have newsboys selling the metropolitan dailies just as they do in the cities. Railroads, telegraphs and telephones have entirely annihilated distance in the last quarter of a century.

NEW GOODS. The most careful and well selected stock of all kinds of goods are pouring in at Harper & Kreamer's store, Centre Hall. For bargains there is the place to go, for we all like to get the worth of our money, and what they say we can always rely upon.

A new township is to be formed out of parts of Lewis and West Buffalo townships, Union county, which will most likely be named North Lewis.

The Presbyterian church is now up and being put under roof. With its prominent position on the rise and its high peaked roof, it will make a fine appearance, and be an ornament to the southern end of town. The pastor, Rev. Kerr is giving the erection of this edifice personal supervision and well may he be proud of it.

With the new Presbyterian church, our village can boast of five handsome churches, which perhaps no town of its size can rival. These edifices are all good as new, and were all erected within a comparatively few years. The Lutheran having their third church, two previous ones being destroyed, would actually make seven churches erected in this town.

Will our turnpikes be vacated? Will the Refords of Millheim build a church? Will Spring Mills have a bank? Will you take the Reporter for the campaign at 10 cts. per month? Will you vote for Cleveland and your own interests next fall? Will you plant trees for the benefit of future generations? Will you send us local items of interest from your neighborhood?

The mountains in different directions were on fire, end of last week, and the sky was getting hazy with smoke. There is a heavy penalty against firing mountains. The first fires were observed in the Seven mountain region. The lumber and prop timber operations are making timber disappear fast enough, and these regular spring, summer and fall fires are a wicked and useless waste of valuable timber.

It is not such an easy thing for a stranger to get married in Louisiana. In the first place, a license costs \$2.50, and before the ceremony can be performed the prospective bridegroom has to give a bond and security to the sum of \$2,500 for the proper maintenance of his bride through married life. Imagine the dilemma of a man who arrives in the night to get married at early candlelight and take the next train. He has got to go out among strangers, who very probably have all been apprised beforehand of the nature of his mission and are more or less jealous of him, and make a \$2,500 bond before the ceremony can proceed. This is pretty hard, but everybody will agree that it is better than our Camden system as it is now being carried on.

WHY DO YOU PAY RENT? When the money given the landlord will purchase a better house than the one in which you live. Should you die before the payments are complete, your heirs receive a deed at once. Why not secure a home or business property on this plan? Enjoy all your earnings, and be confident that your family will not be turned into the street should you die. For further particulars apply or address THE HOME COMPANY OF N. Y., 33 and 35 Liberty St. New York, or A. C. MOORE, General Agent, office over post office, Bellefonte. m34t

The difficult operation of transplanting a portion of the eye of a rabbit to that of a human being was performed at the Philadelphia Germantown Hospital. The object of the operation was to relieve the obscurity of a patient, which was caused by inflammation, and which produced in time an opaque surface. The patient was a servant girl, whose eyes had become almost totally useless, so far as vision was concerned, by reason of the whitish coating which made both of the orbits opaque and she was so nearly blind that objects of considerable size were barely distinguishable at the small distance of five feet.

The Pittsburgh Post says the tactics of the Republican chieftains at the battle royal at the State convention were eminently characteristic. Cameron boldly championed Cooper, while Quay was non-committal until he had his set-up well arranged, and then indicated his purposes by knocking Cameron, taking Cooper away from him, and pushing Magee to one side with no more consideration than if he was a spilt boy. Quay's keen blade was between their ribs before they knew it was out of the scabbard. There is a prospect of music ahead.

Ex-Governor Curtin will smile his broadest that his protégé of 25 years ago is getting in some solid work in the Cameron ring, has pulled some of its links apart and is in a fair way to shatter the whole business, as an influential not to say dominant force in State politics.

It was Gov. Curtin who laid Quay's political foundation and gave the Beaver boy his start by taking him under his wings while he was governor of the commonwealth.
