EXPRESS AGENT PETER A. HUBER, OF SUNBURY, ARRESTED. On Wednesday last, W. C. Huntzings

Philadelphia.

from Philadelphia, \$29,892, of money intended as pay to the employees of the Mineral Railroad and Mining Company, at Shamokin, Pa., was taken from the Company's safe. The money was for wa-

g for the month of July, 1886. Rath-mel Pratt, a clerk in the Philadelphia office of the express company had been arrested and was compelled to enter into a bond to appear at Court. Huntzinger wraused as a witness. From time to time the bail was renewed but the trial we3 never forced. The case was in the hands of the Pinkerton detectives, and to the public had been lost sight of until the above trio were summoned to Philadelphia, when Captain Linden, of the P. D. agency, walked up to them and said to Huber: "We intend to enter your home in Sunbury this evening and

search for the money you too & from your employers." Huber, avitated, stoutly denied the charge. While this was going on the search was going on in Huber's house, and \$18,000 in bank notes wes found hid awey in the bath room! Without a word as to the result of the

rch, the agent left the house, took the first train for Philadelphia, and on his arrival handed the money to detective Linden, who went immediately to his private boarding house, where Huber we confined, and confronted the prisoner with the recovered money. Huber still ple d innocence, a warrant was pro cured. Huber was put on the train and

on arrival at Sunbury was loged in the coanty jail. The town was thrown into great excitement.

POTTERS MILLS CENTENNIAL, JULY 4TH.

Potters Mills has many incidents connected with it, that are of historic interest, running back to the days, that tried men's souls, and the days of frontier life, when the wild man of the forest roamed this valley, scalped the pioneer and laid his cabin in rshes.

Gen. Jam Potter, of revolutionary fame, founded the village, lived there and lies buried in it cemetery. The records of the revolutionary period and of the Indian warfare, are replete with papers, orders, and the like, issued by Gen. Potter, and the officers under his command, dated at Potters Mills. These would be too voluminous to print in the -Water had begun to get scarce le t REPORTER, but those of more moment will, no doubt be read at the centennial Potters Mills, at an early day, was the

er; it had a race course that was an attraction for such as sought pleasure in fast nags. The Potters entertained magnificently and terpsichorean treats were

frequent. Thus it will be seen that much is connected with the early history of the place that will be of interest to the present generation.

FAR. MUT. FIRE INS. CO

The Pennsvalley Mut. Fire Ins. Co.,

A DIABOLICAL DEED.

The Philipsburg Ledger says: On last Tucaday night a most horrible attempt er, agent of the exprcs office in Shamo-kin: Peter A. Huber, of the Sunbruy of-fice, and Cashier W. A. Richardson, of the Mineral office were summoned to Hungarians, at Loch Lomond mine got into a drunken row, which resulted in On August 19, 1886, while on its way two men receiving slight pistol shot wounds and one being cut with a knife. The principals in the fracas were arrested and fined. A man named Charles Davis, who lives at the mine, helped to arrest the Hungarians, and one of them, John Beloch, became very angry and threatened vengeance against Davis, who, being a courageous man, treated the threats lightly. On Tuesday night the Davis family had all gone to bed and were frst asleep, except Mrs. Davis, who thought she heard a little noi 3 outside. She arose and went to the window and through the darkness she saw somebody; apparently trying to set fire to the house. She awakened her husband, and he rushed down and out and saw Beloch running away from the place. On examination, Mr. Davis found a burning fuse, which he extinguished, and then found that the other end of the fuse was inserted in a fifty pound keg of blasting powder, which was placed directly under the centre of the house, which is a double house and sets up on posts. Two families live in the house, and if Beloch's murderous plan had succeeded they would have been blown to atoms. Beloch was arrested and sent to Clearfield jail. He made no effort to deny his crime and only said he was sorry that he didn't succeed, and says he will kill Davis yet. He will not kill him for several years though if he gets his dues.

PILE DRIVING.

The ordinary method of forcing a pile into the ground is by repeated blows of a hammer of moderate weight; better suc. ceremony; he pronounced the usual cess being obtained by frequent blows of qu tions which are answered with "I do, the hammer, lifted to a slight elevation, than results from a greater fall, there being danger also in the latter case of injuring the material of the pile. The use of the water jet for sinking piles, particularly in sand, is interesting. A tube,

generally of ordinary gas pipe, open at the lower end, is fratened to the pile; the upper end is connected by a hose to a powerful pump and, the pile being placed in position on the surface of the sand, water is forced through the tube and excavates a passage for the pile, which, by the application of very light pressure, descends rapidly to the desired depth. The stream of water must be continuous, a it rises along the side of the pile and keeps the sand in a mobile state. Immediately upon the cessation of pumping, the sand settles about the pile, and it is sometimes quite impossible to afterward move it. The water jet is used in sinking iron piles by conducting the water through the interior of the hollow pile and out of a hole at its point. The piles of the They will then return to Fredericsburg sunk with great celerity in this way .--From "Feats of Railway Engineering," by State Engineer John Bogart, in Scribner's Magazine for July.

TUSSEYV ILLE.

Joseph McClellan, our enterprising farmer, spent last week with his daughter, Sadie, at Reedsville.

Last Saturday afternoon James Swab's children, and Wm. Stiffler, with a dog, killed a porcupine. The dog was

LINDEN HALL.

Dan'l Hess, has a 15 acre field set with as nice corn 23 can be seen in this valley. The thunder storm which passed over this section of the county on Thursday last was terrific doing much damage to many corn fields. The display of lightning was such as is seldom seen. The barn on the fain of Geo. Van Tres, occupied by Henry Zeigler, was struck but not set on fire. J. H. Ross Nathaniel and Howard Zeigler were in horse stable at the time, and all were near being killed, as they say the shock was feit very sensibly at the time; several of the hories in the same stable were knocked down. This being the third or fourth time the barn on the same site has been struck and the house three times. This I think would be a good subject for some electrician to work on, why this ouse and barn are so frequently struck by lightning.

On Friday evening the 22d at 5 o'clock occurred an elaborate affair at the residence of Mr. and Mrs. G. W. Campbell, it being the marriage of their oldest daughter, Miss Sadie, to Prof. Thos. S. Stein of Fredericsburg, Lebanon county, Pa. The groom is a young man of good promise being at present Principal of Fredericsburg Seminary. The bride is an accomplished and educated young lady and will make an estimable life partner for her husband. Prof. P.H. Meyer was seated at the organ and when he began the rendition of the wedding march, there was the usual expectancy on behalf of those present. D. M. Camp bell brother of the bride and Miss Maggie N. Potter, acting as bridesmaid and groomsman, preceeded the bride and groom, who took their position in front of the minister Rev. Dr. Hammil, the ceremony was brief and pleasing. Rev. Hammil explained to the company present the significance of the marriage they were then asked to join hands and were declared to be husband and wife. Dr. Hammil reverently invoked on them a devine blessing, and they then received the eloquent words of congratulation. The number of guests far exceeded one

hundred. Refreshments were then served, by a graceful and gallant corps of waiters. The guests were seated at tables in the dining room and parlor, all that found available room, but many were the groups clustered together in the yard and lawn which was beautifully shaded from the hot rays of old Sol, by overhanging evergreens and front trees. The happy couple were recipients of quite a number of rich gifts among them especially noticed was a handsome gold watch, the gift of father and mother to the bride. Mr. and Mrs. Stein will remain for a week or ten days with the bride's parents, when they will take a trip east to Philadelphia and other cities. where the groom has a home all ready prepared and awaiting his bride, it is our hope that this occasion may be an index which shall work out a happy and prosperous life for them both.

F. H. Swabb lost a valuab'e cow on Saturday last. The cow was standing under a large walnut tree. The tree was struck by lightning, and it is supposed the . . w was killed by same.

Mrs. Dau'l Hess left for New York City Thursday A. M. and will be gone about four weeks; a handsome widow might be pleasantly entertained by Mr.

WILLING TO BET MONEY ON CLEVELAND.

Benjamin P. Fairchild, of New York City, who has been a member of Tammany Hall for 53 years, in speaking of the political outlook in New York to day, said: "My mark is 100,000 majority in the State for Cleveland. People may think that is wild, but I have been actively engaged in the politics of the State for more than half a century, and I believe I can come as near as any man to telling how an election will go. I am willing to risk any amount up to \$50,000 on my judgement. The people of New York are pleased with the ticket and with the platform, and they will vote the ticket like sheep following each other. For Governor we will renominate Da vid B. Hill, the most popular Democrat in the State, and we will elect him with a hurrah, too."

A RETROGRADE PARTY.

It was resolved in 1884 that "the Republican party pledges itself to correct the inequalities of the tariff and reduce the surplus, by such methods as will relieve the tax-payers, without injuring the laborer or the great productive interests of the country."

In 1888 the Republican party pledges itself to keep the tariff unchanged, to reduce the surplus only by spending it and to afford no relief to the tax payers, except by free whisky and tobacco.

The Republican party has not only ceased to be progressive; it has become reactionary.

The Republican platform opposes foreign contract labor, yet that party passed the first and only law to encourage such importations, which the Democratic party replaced with a law forbidding it. President Cleveland is enforcing that law.

The Republican platform goes in for stamping out polygamy. It commenced talking that way in 1860 and bas kept it up ever since; but Grover Cleveland has done more in three years to abolish polygamy by enforcing the laws than the Republicans did in 24 years

----Stop in at Flemings, ashionable tailoring establishment, Bellefonte, and see the new styles in gents clothing for spring and summer.

-Fleming the tailor, Bellefonte, hra opened up his new stock for suitings, for spring and summer wear. New styles will be worn this year and he has them in stock.
