—A peculiarly sad event to record is the death of Mrs. S A. Stover, of Bellefonte, which occurred between 3 and 4 o'clock Tuesday morning. She was a young woman of lively, aimiable disposition, the loving wife of a fond husband and the mother of two bright children. One of these children died a few weeks One of these children died a few weeks ago, causing a deep bereavment in the family. Since then all the members of the family have been afflicted with illness and the death of Mrs. Stover will be extremely difficult for the surviving husband and child to bear.

—H. H. Klinger owns several of the finest farms in the vicinity of Kratzer-ville, Snyder county. W. B. Herman is a wealthy neighbor. On Wednesday Farmer Klinger told his wife that he was going to Sunbury on business. Mrs. Herman the same day informed her busband that she was going on a visit to relatives in Milton. Her husband drove her to the cars at Selinsgrove and bade her together. Farmer Klinger Grew a large amount of money from the bank. The parties are both members of leading Snyder county families. John E. Barrett, editor of the Scranton Truth, is one of the busiest newspaper men in America. In addition to erecting a splendid new building and equipping it with one of Hoe's web-perfecting presses, he has just written a thrilling and romantic story for Collier's Once a Week, entitled "Masked Marriage," which will appear in No. 16 of that popular publication. A recent issue of the Boston Pilot pays Barret a glowing tribute, and warmly urges his election to congress; but he speaks to a wider constituency in Once a Week, and his story of "A Masked Marriage," is assuredly one of the literary sensations of the year.

THE WONDERFUL NEW FULCASTER WHEAT IS UNDOUBTEDLY THE BEST, HARDIEST, EARLIEST AND MOST PROLIFIC WHEAT IN AMERICA.

I claim for this wheat the following points of uperiority over any and all other wheats:

superiority over any and all other wheats:

1st.—Extra hardness, grows with a short, broad, fieshy leaf, in the fall clinging closely to the ground and protecting its roots perfectly through the most severe weather, consequently standing the winter better than any other variety.

2nd.—Owing to its stooling qualities it does not require as much seed per acre as other wheats.

3rd.—The stiffness of straw that it stands up under all circumstances equal to any other wheat.

4th.—The insect, while we do not claim it to be entirely fly proof, it has made an average crop,
