THE KEystone STATE.

NEWS TOPICS OF LOCAL INTEREST TO PENNSYLVANIANS.

Facts and Fancies Gleaned from Many Sources and Balled Down to Brief Paragraphs for the Benefit of Busy Readers.

PITTSBURGH, Aug. 24.—The postal service is greatly demoralized by the floods. Mails for New York have been started by way of Buffalo and the New York Central. It is impossible to give an accurate estimate of the loss to railroads and to private property owners by the storm, but it is safe to put it at \$1,000,000. In Westmoreland county the damage reported is \$100,000, and the loss in Indiana county is much more.

So far four deaths from the flood are reported. The victims are the Rev. N. B. C. Comingo and his wife, of Centre. It is reported that Moses Calvin, of Monongahela City, and an unknown German of McKeesport. Mr. Comingo and N. C. Orth were drowned in the Conemaugh river, near Johnstown. They started for this city in a canoe, but before they had gone a mile the raging torrent capsized the vessel, and both were drowned. Mr. Comingo was pastor of the Olivet church, and one of the most prominent ministers in the city.

Two men named Calvin and Harris attempted to drive across Boggy ferry, near Monongahela, in a buggy, but the current was so swift that it turned the buggy completely over. Harris got ashore, but Calvin, who could not swim, was drowned. A German went down with the bridge over Long Run, near McKeesport, and was drowned.

A Sad Wind Up.
BRADFORD, Pa., Aug. 23.—The North-western association, G. A. R., had their fourth annual reunion here yesterday. About forty-five G. A. R. posts, from the various towns in northwestern Pennsylvania, sent nearly 5,000 delegates.

The city is one mass of arches, bunting, flags, jumbo gas jets, etc., from end to end. Over 25,000 people witnessed the parade, which was reviewed at the public square by Governor James A. Beaver, Secretary of the Commonwealth C. W. Stone, Mayor Dempsey and the North-western G. A. R. officials.

A night parade took place at 8:30 o'clock, the G. A. R. posts, Sons of Veterans, the various fire companies and civic organizations participating. Col. Fred Grant and Corporal Tanner, who were booked for speeches after the parade, failed to appear. A grand banquet in the assembly rooms of the Oil Exchange concluded the festivities.

At 9 o'clock last night two men were instantly killed and several others injured by the explosion of an iron pipe on the balcony of Dr. Reid's office, No. 75 Main street. The pipe was improvised as a feeder for red and blue fire powder, the powder dropping through the pipe onto a projecting natural gas torch. The pipe exploded with a deafening noise, shattering part of the balcony and splitting the pipe into fragments. One of the flying pieces of iron struck Robert Hanley, who was standing on the opposite side of the street, tearing away the whole top of his head, killing him instantly. W. R. Curtis, of New City, was also struck with one of the flying fragments, and was almost instantly killed. Curtis is still alive. M. Albert had an arm blown off, and Mrs. McComber lost a leg. Several women and children were more or less injured, but their names and the extent of their injuries cannot be ascertained.

The explosion occurred on the main thoroughfare, where thousands of people had congregated to witness the night parade of the G. A. R.

Fatal Fight Among Hunters.
UNIONTOWN, Pa., Aug. 27.—Thomas Jeffries, a laborer, shot and killed Jacob Pollock, yard boss at Robert Hogsett's furnace and coke works, at Lemont. A party of six, including Jeffries and Pollock, went out for hunting, near Dunbar's camp. It is claimed that Pollock struck a young man named Lane Martin, for which he was assaulted by Pollock and several others, and during the fight which ensued Jeffries drew his revolver and fired, with above result. The party were all drunk. Jeffries gave himself up, and claims self defense.

Texas Fever in Pennsylvania.
CARLEISLE, Pa., Aug. 27.—Secretary Edge, of the Pennsylvania state board of agriculture, has discovered another outbreak of Texas fever among a herd of cattle at Shrewsbury, near this city. The Baltimore authorities declared it pleuro-pneumonia and were about to establish a quarantine against Pennsylvania cattle, but an investigation showed it was Texas fever, and that the cattle came from Baltimore. It is also reported that the disease is spreading among the cattle in the Cumberland Valley.

Hosiery Manufacturers in Trouble.
PHILADELPHIA, Aug. 27.—Execution upon judgment notes aggregating \$22,500 have been issued against Samuel Vickers and Alfred Weston, trading as Vickers & Weston, hosiery manufacturers, at No. 1708 Tulip street.

New Engine Shops at Altoona.
PHILADELPHIA, Aug. 27.—The Pennsylvania Railroad company is to begin immediately the erection of five shops in East Altoona, at a cost of \$50,000. The shops will have a capacity of 150 locomotives a year, and they will give employment to 1,500 hands in addition to those already at work. Altoona counts this as a gain of 10,000 to its population. This is a part of the plan to concentrate all the engine and car building of the Pennsylvania railroad at one central point. The amount of money to be expended to carry out the present programme will be over \$1,000,000.

Coming Monster Platts.
CARLEISLE, Pa., Aug. 27.—The Interstate Grange's plan has grown so that very great changes have been required to meet the demands of the hundreds of thousands who demand from all parts of the Union. To meet this the company has enlarged the grounds to thirty acres, laid out fresh avenues, erected new cottages and tents, put down new tracks, put in electric lights and greatly improved the electrical, telephone and other departments. The exhibition is larger than that of the state fair.

Labor Matters in Pittsburgh.
PITTSBURGH, Aug. 25.—The McKee Tableware Glass works, an entirely new enterprise, will start on Monday morning, giving employment to 600 men. The Charlotes furnace will start with non-union men. It has been closed since January owing to the Knights striking against reduction.

THE PRESIDENT

An Important Message Transmitted to Congress.

RETALIATION AND PROTECTION. The Course Recommended in Place of the Treaty.

PROMPT RESPONSE OF THE HOUSE.

The President Asks Congress for Immediate Legislation Conferring Power Upon Him to Prohibit Canada from Transmitting Wares in Bond Across Our Territory—He Also Recommends that Canadian Vessels in American Waters be Given Only Such Rights and Privileges as Are Given American Vessels in Canadian Waters.

WASHINGTON, Aug. 24.—The president sent to congress a message in reference to the rejection of the fisheries treaty by the senate. He recommends immediate legislation conferring upon the executive the power to suspend, by proclamation, the operation of all laws and regulations permitting the transit of goods, wares and merchandise, in bond, across or over the territory of the United States, to or from Canada.

I desire also to call the attention of the congress to another subject involving such wrongs and unfair treatment to our citizens as, in my opinion, require prompt action. The navigation of the great lakes, and the immense business and carrying trade growing out of the same, have been treated broadly and liberally by the United States government, and made free to all mankind, while Canadian railroads and navigation companies share in our country's transportation upon terms as favorable as are accorded to our own citizens.

The canals and other public works, built and maintained by the government along the line of the lakes, are made free to all. In contrast to this condition, and evincing a narrow and ungenerous commercial spirit, every lock and canal which is a public work of the Dominion of Canada is subject to tolls only. By article 27 of the treaty of 1871 provision was made to secure to the citizens of the United States the use of the Welland, Lawrence and other canals in the Dominion of Canada on terms of equality with the inhabitants of the Dominion, and to also secure to the subjects of Great Britain the use of the St. Clair Canal on terms of equality with the inhabitants of the United States.

The equality with the inhabitants of the Dominion which we were promised in the use of the canals of Canada did not secure to us freedom from tolls in their navigation, but we had a right to expect that we, being Americans and interested in American commerce, would be no more burdened in regard to the same than Canadians engaged in their own trade; and the whole spirit of the concession made was, or should have been, that merchandise or property transported to an American market through these canals should not be enhanced in its cost by tolls many times higher than such as were carried to an adjoining Canadian market. All our citizens, producers and consumers, as well as vessel owners, were to enjoy the equality promised.

And yet evidence has for some time before the congress, furnished by the secretary of the treasury, showing that while the tolls charged in the first instance are the same to all, such vessels and cargoes as are destined to certain Canadian ports are allowed a refund of nearly the entire toll, while those bound for American ports are not allowed any such advantage.

To promise equality, and then in practice make it conditional upon our vessels doing Canadian business instead of their own, is to fulfil a promise with the shadow of performance. I recommend that such legislative action be taken as will give Canadian vessels navigating our canals, and their cargoes, precisely the advantages granted to our vessels and cargoes upon Canadian canals, and that the same be measured by exactly the same rule of discrimination.

THE HOUSE RESPONDS.
A Bill which Grants the President's Request Introduced and Referred.
WASHINGTON, Aug. 24.—In the midst of routine business the speaker laid before the house a message from the president on the subject of the fisheries. The reading of the message claimed the closest attention from members on both sides of the house, and when it was finished the Democrats broke out in rounds of applause. The document was referred to the committee on foreign affairs. Mr. McCree, of Kentucky, securing consent to report from that committee on the subject at any time. Mr. Wilson, of Minnesota, immediately offered the following bill, which was referred to the committee on foreign affairs:

"An act to empower the president more effectively to carry out the purposes of an act to authorize the president to protect and defend the rights of American fishing vessels, American fishermen, American trading and other vessels in certain cases, and for other purposes, approved March 3, 1887, and to authorize the president to protect American interests against unjust discrimination in the use of canals in the British dominions of North America.

Be it enacted, etc., that whenever the president may deem it his duty to exercise any of the powers given to him by an act entitled an act to protect and defend the rights of American fishing vessels, etc., it shall be lawful for the president, in his discretion, by proclamation to that effect, to suspend, in whole or in part, the transportation of goods, wares or merchandise imported or exported from any foreign country except Canada in bond and without the payment of duty to or from the British dominions in North America across the territory of the United States.

Section 2. Whenever the president shall be satisfied that there is any discrimination whatever in the use of the Welland canal, the St. Lawrence river canal, the Chambly canal, or either of them, whether by tolls, drawbacks, refunds of tolls or otherwise, which is or may be detrimental to the interests of the United States, or any of its citizens, it shall be lawful for the president, in his discretion, to issue a proclamation to that effect, whereupon there shall be collected a toll of twenty cents a ton upon every foreign vessel and her cargo passing through either the Sault Ste Marie canal or the St. Clair Canal, and the secretary of the treasury may authorize and direct any of the customs officers to collect the tolls levied under this act. The president, when satisfied that such discrimination has ceased, may issue his proclamation to that effect, in his discretion, whereupon the tolls authorized by this act shall no longer be collected.

Section 3. The secretary of the treasury is authorized to make any regulations needful to carry this act into effect.

The Senate Refused to Hear the Message.
WASHINGTON, Aug. 24.—The immediate adjournment of the senate on receipt of the president's message on the fisheries, was the main incident of the day.

conveyed in transit, without payment of duties, from the United States through the said possessions to other places in the United States, or for export from ports in the said possessions.

In the year 1886 notice was received by the representatives of our government that our fishermen would no longer be allowed to ship their fish in bond and free of duty through Canadian territory to this country; and ever since that time such shipment has been denied.

The privilege of such shipment which had been extended to our fishermen was a most important one, allowing them to spend the time upon the fishing grounds, which would otherwise be devoted to a voyage home with their catch, and doubling their opportunities for profitably prosecuting their vocation.

During the last six years the imports and exports of British Canadian provinces carried across our territory under the privileges granted by our laws amounted in value to about \$270,000,000, nearly all of which were goods dutiable under our tariff laws, by far the larger part of this traffic consisting of exchange of goods between Great Britain and her American provinces brought to and carried from our ports in their own vessels.

I recommend immediate legislative action conferring upon the executive the power to suspend, by proclamation, the operation of all laws and regulations permitting the transit of goods, wares and merchandise, in bond, across or over the territory of the United States, to or from Canada.

I desire also to call the attention of the congress to another subject involving such wrongs and unfair treatment to our citizens as, in my opinion, require prompt action. The navigation of the great lakes, and the immense business and carrying trade growing out of the same, have been treated broadly and liberally by the United States government, and made free to all mankind, while Canadian railroads and navigation companies share in our country's transportation upon terms as favorable as are accorded to our own citizens.

The canals and other public works, built and maintained by the government along the line of the lakes, are made free to all. In contrast to this condition, and evincing a narrow and ungenerous commercial spirit, every lock and canal which is a public work of the Dominion of Canada is subject to tolls only. By article 27 of the treaty of 1871 provision was made to secure to the citizens of the United States the use of the Welland, Lawrence and other canals in the Dominion of Canada on terms of equality with the inhabitants of the Dominion, and to also secure to the subjects of Great Britain the use of the St. Clair Canal on terms of equality with the inhabitants of the United States.

The equality with the inhabitants of the Dominion which we were promised in the use of the canals of Canada did not secure to us freedom from tolls in their navigation, but we had a right to expect that we, being Americans and interested in American commerce, would be no more burdened in regard to the same than Canadians engaged in their own trade; and the whole spirit of the concession made was, or should have been, that merchandise or property transported to an American market through these canals should not be enhanced in its cost by tolls many times higher than such as were carried to an adjoining Canadian market. All our citizens, producers and consumers, as well as vessel owners, were to enjoy the equality promised.

And yet evidence has for some time before the congress, furnished by the secretary of the treasury, showing that while the tolls charged in the first instance are the same to all, such vessels and cargoes as are destined to certain Canadian ports are allowed a refund of nearly the entire toll, while those bound for American ports are not allowed any such advantage.

To promise equality, and then in practice make it conditional upon our vessels doing Canadian business instead of their own, is to fulfil a promise with the shadow of performance.
