

Exaggerated Reports.

Calm Review of the Situation at Jacksonville.

REPRESENTED WORSE THAN IT IS

It has been prevalent just one month now—There have been 107 Genuine Cases and 17 Deaths—News Has not Been Suppressed—Candidates Quarantined.

JACKSONVILLE, Fla., Aug. 28.—Yesterday ended the first month of the existence of yellow fever here. The record is as follows: Total cases, 107; deaths, 17; discharged cured, 28; under treatment, 63, many of whom are convalescent. The sensational stories of the suppression of news of cases by the authorities are utterly false. Possibly a few cases have not been reported by family doctors, but these are offset by cases reported that are not typical yellow fever cases. No death has been suppressed.

Despite the unfavorable weather, it having been clear and hot, only seven new cases have been reported since 6 p. m. Sunday. One of these, C. H. Pollard, was brought from the camp at St. Mary's and died. There have been two other deaths, Burton Mays (colored), and Albert Fischer, a fireman. E. M. McArthur, of the S. F. and W. railway, died, it is rumored, of yellow fever, but his doctors contend his death was caused by a congestive chill. Outside of Jacksonville every death occurring here is attributed to yellow fever. There is great indignation at the shutting off of middle Georgia and the mountains.

Political work is much hampered by the fever and the consequent scare. Both the Democratic and Republican candidates for the governorship have been quarantined. Capt. Fleming at Monticello and Col. Shipman at his home in Sawter, for harboring relatives who are refugees from this city. Both are free now.

The schooner Charlotte Sibley, laden with ice from Bangor, Me., came in yesterday. The crew stopped at Mayport, and the vessel was brought up by a tug to charge of the steamer Persimmon, which will follow the city, where she will be fumigated, loaded with lumber and turned over to the captain and crew at Mayport.

Since the fever has attacked the negroes the colored population has become much reduced. The conditions necessary to the rapid spread of the epidemic are not thought to be favorable and hopes are entertained that the cases, which will begin soon, will have a healthful effect.

RANGE STORY OF THE SEA.

Rescued Sailors Charge the Captain with Wrecking a Vessel.

NEW YORK, Aug. 28.—Twelve sailors from the English bark Gyffe, who arrived here on the steamer Persian Monarch, appeared before the British consul, and through Bostonian Bergquist charged that in their opinion and belief Capt. Tait, of the Gyffe, made a futile attempt to cast the bark away in the hope of ridding the insurance companies. The Gyffe sailed from Quebec on July 3, loaded with timber, bound for Greenock, Scotland. The vessel sprung a leak and returned to St. John's, N. F. A leak being repaired she again resumed her voyage. She sprang a leak again on the night of Aug. 19, but by means of the pumps the men easily kept the water from gaining any headway. On the morning of the 20th the pumps gave out altogether, and the men swear that the pumps, which were new, had been tampered with. John Brown, the steward, swears that on the 20th he saw the captain and mate go down into the hold and the mate boring holes with an auger. When the Persian Monarch came to the Gyffe's assistance all hands, with the exception of Second Mate Robinson, went on board. The latter refused to leave the vessel, believing he could keep her afloat. Capt. Tait and his first mate, seeing the determination of Robinson not to leave the vessel, returned to the Gyffe, but the rest of the crew refused to accompany them.

Accident at a Political Meeting.
NEW YORK, Aug. 28.—During the progress of an open air political meeting at the junction of Houston and Norfolk streets last night a platform in the middle of the square gave way, precipitating its occupants to the ground. Henry Greenbaum, a boy, was instantly killed, and a dozen or more persons were more or less severely injured. One of the sixty persons occupying the platform scarcely escaped without a scratch. The platform was erected to accommodate the speaker, committee and musicians, and Corcoran Levy, who presided, was about to address the gathering when the structure fell. He escaped without injury, but Alderman Benjamin, who was to deliver a speech, was one of the most seriously injured. His head and neck were badly hurt, and it is thought his left leg is broken. After the wounded had been sent home Charles Landsman, who built the platform, was arrested on a criminal charge.

Brokers Arrested for Conspiracy.
READING, Pa., Aug. 28.—John H. Derr and George J. Yocum, brokers, were arrested here on the charge of conspiracy with Henry Marshall, the defaulting postmaster of St. Clair, Schuylkill county. The warrant was sworn out by Postal Inspector O'Leary, of Philadelphia, and was served by Deputy United States Marshal Meyers. Postmaster Marshall, it is alleged, dealt in stocks on forged money orders, through which the government lost money. Messrs. Derr and Yocum deny all knowledge of the crooked operations of Marshall. The accused were taken to Philadelphia, where they will enter bail for a hearing.

Mysterious Assassination.
CHICAGO, Aug. 28.—Joseph Dredzinski, a Polish lumber shaver, was fatally shot by an unknown man. About 4 o'clock Sunday morning Dredzinski went to a shed in the rear of his house, used as a summer kitchen, to light the fire. Just as he opened the door some one inside fired five shots in succession, then ran from the shed and escaped. The five shots all took effect. There is no cause known for the shooting and no clue to the assassin.

Against American Competition.
OTTAWA, Aug. 28.—At the instance of Mr. Ryker, who represents the county of Lincoln in the Dominion parliament, the government has imposed a duty on American fruit baskets and covers thereon. Mr. Ryker's constituency is the principal fruit growing country in Canada, and people engaged in fruit raising have complained of the grievous effect of American competition for years.

Mysterious Lynching.
ATLANTA, Aug. 28.—A telegram from Rockmart, Ga., says a negro was hanged at Rockmart, eight miles this side, on the east Tennessee road. The body was discovered by the flagman of a train, who saw it hanging from a high tree. The affair is enveloped in mystery.

EVENTS OF THE WEEK.

Short Paragraphs Chronologizing All Important Happenings.

London papers regret the rejection of the fisheries treaty, but say there will be no serious trouble as a result.

The Boston Herald has received similar sets of articles from John Teemer and William O'Connor for a three mile sculling match to be rowed Sept. 20, on Onondaga or Chataqua lake. James Keenan says he will not back Teemer unless the race is rowed at Worcester, Mass.

Train No. 5 on the Pittsburg and Concella division of the Baltimore and Ohio, consisting of fifteen coaches, well filled, reached Pittsburg forty-eight hours late, owing to the floods. Travel is now fully resumed.

Bangor had a great Republican demonstration, and James G. Blaine was the chief speaker, followed by Hon. George B. Loring, of Massachusetts; Dr. Doane, of Kansas, and C. A. Boutelle. Mr. Blaine's reception was of the usual order, and 6,000 people shouted for him.

CHEERFUL REPORTS.

Improvement and Progress in Many Lines of Manufactures.

BOSTON, Aug. 28.—The Commercial Bulletin, one of the oldest manufacturing journals of the country, says to-day: The steady improvement in the condition of manufactures is reflected in the reports from manufacturing centers published in to-day's Bulletin, where favorable and unfavorable news is carefully classified and impartially presented in parallel columns.

The improvement in iron and steel manufacturing (last week an exception to the general advance) is marked, even among the rolling mills, and there is a healthy tone generally in machinery and metal working.

In spite of the suspension of two of the smaller shoe factories, the shoe and leather workers show a steady gain in numbers.

There has been, but one failure among the paper manufacturers, and a slight gain in the working force is to be noted in spite of heavy losses from fire.

The wool working factories, as usual, show the heaviest losses from the destroying element.

There has been a steady gain in forces employed in the glass works.

Among the textile industries, the cotton mills easily lead in prosperity. Among them suspensions and labor troubles reach a very small average. The only strike of any dimensions has been settled. Extensions to mills are announced, which will add over 4,000 spindles to New England's plant, and the resumption of labor is general.

The silk industry presents an unbroken record of extension and activity.

The increase in imports of foreign woolsens is possibly the cause of the dullness still existing in certain quarters in the woolen industry, notably among wool hosiery and shoddy mills. There are, however, two new woolen mills announced, with a very general resumption of business by mills that have been idle.

It is noteworthy that nearly 40 per cent. of the misfortunes of manufacturers are directly due to fire, flood, or other cause not connected with the course of business.

COMMITTEES WORK COMPLETED.

The Sundry Civil Appropriation Bill of Fare Now Ready.

WASHINGTON, Aug. 28.—The conference committee on the sundry civil appropriation bill completed its work. There was a large number of the senate's amendments agreed to, while quite a number were disagreed to. The bill as it passed the house appropriated \$23,000,000, to which the senate added \$5,174,300, making the total \$28,174,300, as it passed the senate. This sum was reduced by the conference committee to \$1,351,044, and the sum of \$26,823,256 was added for new public buildings, making the total reduction in conference \$1,047,544 and the total of the bill as it now stands \$27,775,712. The appropriations for the following public buildings were agreed to:

Bay City, Mich., \$100,000; Bridgeport, Conn., \$75,000; Marine hospital, Chicago, \$15,000; Denver, Colo., \$140,000; Eastport, Me., \$85,000; Greenville, S. C., \$50,000; Helena, Ark., \$75,000; Hoboken, N. J., \$60,000; Jacksonville, Fla., \$50,000; Portsmouth, O., \$60,000; furnishing Marine hospital at Portland, Me., \$20,000; Savannah, Ga., \$75,000; Springfield, Mo., \$75,000; Texarkana, Ark., \$50,000; Vicksburg, Miss., \$50,000; Wheeling, W. Va., \$27,500; Opelousas, La., \$50,000; Charlotte, N. C., \$85,000; Statesville, N. C., \$75,000; Brownsville, Tex., \$50,000; Ottumwa, Ia., \$40,000.

Among other items agreed to are \$50,000 for pedesal and approaches to the statue of Liberty in New York harbor.

More Specific Tariff Bills.

WASHINGTON, Aug. 28.—Mr. Breckenridge, of Arkansas, introduced several specific tariff bills in the house. One places copper ore generally on the free list, and another places hewn and sawed timber and wood unmanufactured, saved boards, etc., on the free list. Another bill proposes a tax of \$11 a ton on heavy and \$14 a ton on light iron and steel tie rails, and a fourth bill fixes the tax at six-tenths of a cent per pound on iron or steel beams, girders, joists, car truck channels, T. T. columns and structural shapes of iron or steel generally. Mr. Breckenridge also introduced a bill suspending the sinking fund law and authorizing the secretary of the treasury to use the surplus in the treasury for the purchase of United States bonds.

Progress of a Week.

NEW YORK, Aug. 28.—The following summary shows the progress of the manufacturing industries of the country, including incorporated companies, builders, etc., as reported to the New Enterprise, for the week ending Aug. 25:

Belva Making Hay While the Sun Shines.
WILLIAMS GROVE, Pa., Aug. 28.—The interstate grangers' picnic opened yesterday. The arrivals reached between 4,000 and 5,000, indicating larger crowds than last year. Hundreds of thousands of dollars worth of agricultural machinery are on the ground, the display covering acres of ground. Belva Lockwood is the only presidential candidate who has written an acceptance of the invitations tendered. She will make a speech on Thursday afternoon. Speeches are expected from Congressman Scott and Osborn Maish, of Pennsylvania; Hatch, of Wisconsin, chairman of the committee on agriculture, and McKinley, and Governor Beaver.

Smoldering Revolution in Brazil.

WASHINGTON, Aug. 28.—Capt. Benjamin D. Manton, United States consul at Colonia, Uruguay, who is in Washington on leave of absence, predicts the breaking up of the great empire of Brazil. "Its affairs," he says, "are in a precarious state. The emancipation of the slaves was merely a pop thrown by Princess Isabella, the regenta, to the Liberals. The six southern provinces, really the strength of the empire, are ripe for revolt and a republic. They only await the death of Dom Pedro, when they will split the empire and a president will rule over Brazil."

Reception to the Princess.

NEW YORK, Aug. 28.—A reception was given by prominent German residents of New York at Terrace garden to Professor von Esmarck and his wife, the Princess Henrietta, of Schleswig-Holstein. The princess was presented with a magnificent bouquet and a purse of \$500, to be used toward the relief of the poor natives of Schleswig-Holstein residing in New York. Much enthusiasm was displayed.

A Politician Commits Suicide.

PHILADELPHIA, Aug. 28.—Ex-Representative John McCullough, a prominent Republican politician of this city, committed suicide by shooting himself through the head at his residence in this city. Domestic trouble is thought to have led McCullough to commit the deed.
