

FARM NOTES.

THERE has been an unusual supply of the small fruits this year, and the prospect seems good for a large crop of apples, pears and peaches; yet, with the exception of blackberries, peaches have been better than during some previous years. Whether the markets can be oversupplied or not depends not so much on the quantity of fruit shipped as upon its quality and the condition in which it arrives. A few years ago, when the markets were supplied with strawberries, which had fallen in price as low as 3 cents per box, a certain grower sold all he could send to market at 50 cents per box. They were so superior to anything of the kind sold that they were at once in demand upon arrival, and the price was even enhanced by the comparison with other kinds sold at the same time. This demonstrates that a paying crop does not depend on the number of bushels sent to market, but according to the quality, which represents expense and labor. While the crops are growing larger every year, so is the average quality, and prices have corresponded with the quality every season. Growers who sometimes become discouraged should not overlook the fact that population and demand are increasing and that as buyers become educated to a knowledge of the best kinds of produce they naturally prefer such, and are willing to pay more for it. There is no product for the entire season greater than eggs, yet with importations from Europe, the prices are ways high in proportion to cost, and in winter vary from 20 to 90 cents per dozen. It is well known that those who purchase eggs will leave a well-stocked market in order to procure such as may be known to be strictly fresh, and will not hesitate in paying any price asked; so with milk and butter, which command ready sale, but for which no fixed prices are possible owing to difference in quality. Though butter has competed with substitutes and prices have at times been very low, yet that of first-grade quality has always been sold at an advanced price over the usual market quotations. There is no danger of an overstocked market to the farmer, dairyman or fruit-grower who is willing to expend the labor necessary for the production of something that is choice and not easily procured. It should be the aim to send articles to market that are a little better than those to be had, and in so doing not only will the best prices be obtained but the producer will build a reputation for himself that will be to his advantage the next season.

A LARGE English farmer says that his manure which is taken from the stables and piled up under a shed all winter is worth in the spring four times as much as that which has been exposed to the weather. This is undoubtedly nearly correct if the exposure be a bad one, such for example as throwing the manure out of the stable window and letting it rest in a pile against the side of the stable exposed to the rain dripping from the roof. In this way much of the fertilizing salts are drained out of it into the earth below the heap or are washed away in the overflow of the yard, and the manure is left of little value.

The experience of the closest students in dairying is that less corn meal and more comfort in the way of clean, warm stables, to promote animal heat, and more bran, oats, etc., are the cheapest and best cow rations. If we expect the cow to play the double part of cow and steer stuff the corn meal into her, the more the better, and get her to the block as quick as possible, in order to sell the butter and beef at the same time; but if she is expected to be a dairy cow treat her like the cow and mother; feed like a mother, and on the food that mothers require, not a bullock's ration, and we may in time become dairymen and get dairymen's profits.

A LACK of pasturage must be supplied in the form of some other kind of food. If the number of cattle be few and the pasture field large, with abundant growth, but little grain will be required for growing stock, though much more should be fed all they will eat. Where the cattle are compelled to forage over the pasture a mess of grain will be required at night in order to keep them in proper condition and increase their growth.

THE practice of giving a final cultivation to corn and then allowing the crop to remain until matured, whether the field be covered with grass or not, has injured many promising crops. A field of corn should be cultivated as often as may be necessary without regard to its stage of growth. It should be kept clean and the soil always in a loose condition, and the crop will thereby be larger and the plants better enabled to endure drought.

THE experiments of Dr. Voelcker, of the Royal Society of England, prove that manure gradually depreciates by keeping, even under the very best management. It gains in water and loses in valuable organic matter which is spent in the fermentation. It stands to reason, if this be true, that the old-fashioned method of turning and working over manure for six months before using is wasteful and to be avoided.

IN contagious foot-rot the following foot-bath is excellent. Nitrate of mercury, one ounce; nitric acid, five drams; water, three pints. The clean feet are plunged into this liquid for two minutes, and then the sheep is let loose. Two baths of this, at a couple of days interval, with a change of pasture from the infected one to higher and drier land, is generally sufficient to effect a cure in the majority of cases.

A GREAT many more men can succeed on small than on large farms. In this latter case it may be almost said there is no real success, the money apparently made being generally less than far interest on the capital invested. This is proved by the fact that those who try to farm on a large scale on borrowed capital are nearly sure to fail. Men who try to farm moderately are equally sure of a moderate though substantial success.

HOUSEHOLD

FRESH SALADS ought not to lie long in water, the withered only long enough to crisp them. The outside leaves are thrown away, the inner ones parted, well rinsed and examined, and if necessary, plunged into salt and water for a few minutes, which will quickly free the leaves of any insect that may cling to them. They may then be thrown into a colander or salad basket to drain and thence into a napkin held by its four corners, and shaken lightly until it absorbs the water hanging about the leaves. Handle the salad as little as possible in cutting. Do not mix it with dressing until the moment of serving, and then it is usual to put the liquids at the bottom of the bowl and stir it up just before serving. Salads of fish, meat or potatoes are better made half an hour before they are used excepting such as are mixed with leaf lard. Let chives or onions be handled apart when used, not mixed in, as so many object to the flavor.

PINEAPPLE PRESERVES. — Care should be taken to select perfectly sound fruit, and that which is not over ripe. The skins should be removed with a sharp knife and the pine cut in uniform slices about half an inch thick. A half pound of sugar to each pound of fruit is sufficient. Add a half pint of water to each pound of sugar, boil to a rich syrup, put in the fruit and bring to a boil. Remove from the fire and seal in glass jars. The jars should be put into hot water before the fruit is put into them. They should be filled to overflowing to prevent any air getting in between the juice, and covered and sealed tightly.

Don't Kill the Old Hens. When hens are shedding feathers they often stop laying and grow fat. Most people consider fat a sign of health. The fattening of moulting hens, however, as with some people, produces debility rather than health. Many of the worst cases of roup are contracted, while the hens are moulting. The food of moulting hens, if largely vegetable in character, and not required for growing feathers, therefore corn-fed hens get very fat. They need more nitrogen and phosphate elements in their food when moulting, which if not supplied they stop laying, because the growing feathers have used all, and left no nitrogen matter to form eggs. At this season, killing old hens and relying on young pullets is a great mistake, where people have a few hens and late pullets. Because, if properly fed, the hens will have their new plumage and lay well all winter; while the pullets unless specially treated may not commence laying until spring, when high prices for eggs have fallen one-half. Again an old hen's egg will hatch a more vigorous chicken than a pullet's egg.

John R. Jones, Suffield, Conn., a breeder of prize winning mottled Javas, says: "I find Sheridan's Condition Powder, fed once daily in the food, very valuable for moulting hens. I have used it two years for exhibition birds. It assists in growing new feathers, makes the combs a bright red, and gives a rich gloss to the plumage. It will also make hens lay and the eggs hatch well. I find when the other egg-foods are used in quantities to force egg production the eggs do not hatch."

The above is the experience of many people in using Sheridan's Powder. If fed to young pullets it directs them to lay from the first six months old. Commence at once using Sheridan's Powder. It helps old hens through moulting, and gets the pullets in laying trim before the season of high prices. Eggs will sell very high this fall and winter. Therefore be ready to get all you can.

A DELICIOUS dessert is made of canned peaches and gelatine in this way: Soak one half cupful of gelatine with a cup of sugar and a dozen halves from a can of peaches for one hour, then pour on a cup of boiling water and pass all through a strainer, and be sure to stir it all over the fire until all the gelatine is dissolved. Set in a cold place, and when ready to congeal have ready a cup of rich cream, whip the cream until light, add a pinch of soda and stir it into the gelatine quickly, one spoonful at a time. Turn into a mould wet with cold water, and set in a cold place to harden.

SQUASH SOUP. — Pare two small squashes and cut them into slices. Put them in a saucepan, with two ounces of butter, one onion sliced, salt-spoon of pepper, a teaspoonful of salt, and a half pint of good stock; cover and simmer for thirty minutes. Press the whole through a fine sieve, then add a quart of good boiling stock and a half pint of cream. Put it in a double boiler, season to taste and, when very hot, pour it into the tureen over the well beaten yolks of two eggs. Serve croutons with it. Very good.

DELICIOUS CAKE. — Cream half a pound of butter with a scant pound of sugar, add the beaten yolks of eight eggs (ten if small), a wineglassful of sherry, a small nutmeg and the grated rind of a lemon with the juice of half, and one pound of fine, dry flour. Stir it all into a stiff paste, then add the whites of the eggs, beaten to a snow, with a pinch of salt, a pound of well washed and dried currants, floured and warmed, to be gently stirred in the last thing. Bake in pans lined with buttered paper, an hour and a half or three-quarters, in a moderate oven.

RHUBARB JAM. — Peel and cut up the rhubarb, boil reduced to a pulp with a very little water; allow 1 pound of sugar, 1 oz. of sweet almonds, blanched and chopped, and half a lemon cut in slices to every pound of pulp; boil for three quarters of an hour, remove the lemon peel, and put into jars.

For relief from heartburn or dyspepsia drink a little cold water in which has been dissolved a teaspoonful of salt.

Weak and Weary

Describes the condition of many people debilitated by the warm weather, by disease, or overwork. Hood's Sarsaparilla is just the medicine needed to overcome that tired feeling, to purify and quicken the sluggish blood, and restore the lost appetite.

"My appetite was poor, I could not sleep, had headache a great deal, pains in my back, my bowels did not move regularly. Hood's Sarsaparilla in a short time did me so much good that I feel like a new man. My pains and aches are relieved, my appetite improved." GEORGE F. JACKSON, Roxbury Station, Conn.

Hood's Sarsaparilla sold by all druggists, at \$1.00 per bottle. Prepared only by C. I. HOOD & CO., Lowell, Mass. 100 Doses One Dollar

WANTED: ONE AGENT FOR THIS COUNTY.

To take orders for enlarging SMALL PHOTOGRAPHS into LIFE-SIZE CRAYON PICTURES. The pictures are really beautiful. Likeness guaranteed. Agents can easily get orders and make a large commission. Address, International Publishing & Printing Co., 528 MARKET ST., PHILADELPHIA.

AFFLICTED & UNFORTUNATE After all others fail consult Dr. LOBB

320 N. 15th St., below Callowhill, Phila., Pa. 20 years experience in all PNEUMONIA diseases. Permanently restores those weakened by early infection. Hours: 11 a. m. till 8 p. m. and 10 to 12 evenings. Send stamp for book.

FITS STOPPED FREE

Blair's Pills, Great English Gout and Rheumatic Remedy.

Great English Gout and Rheumatic Remedy. Oval Box, 24 round, 14 Pills.

KIDDER'S PASTILLES

For all cases of Kidney and Bladder troubles. Sold by all druggists.

OPPIUM HABIT

Remedy for the Opium Habit. Sold by all druggists.

TEACHER—I have here a hemisphere

which is half of an orange. Now, what have I? Prolific Genius—A half of an orange Miss Kate.

WHY is a person asking questions

the strangest of all individuals? Because he's the querist.

The Homeliest Man in Town,

As well as the handsomest, and others are invited to call on any druggist and get free a trial bottle of Kemp's Balsam for the Throat and Lungs, a remedy that is selling entirely upon its merits and is guaranteed to cure and relieve all Chronic and Acute Coughs, Asthma, Bronchitis and Consumption. Large bottles, 50 cents and \$1.

"Yes," said the sweet girl graduate in a burst of confidence, "my education is now complete, but still I am not altogether happy. Mamma and papa, unfortunately, have a habit of pronouncing their words badly and they know so little of polite literature and the sciences, you know, that it really is quite a hardship for me to associate with them."

COUNTRYMAN (In front of Stock Exchange)—What's all that yellin' an' shoutin' in there, mister? Citizen—Bad break among the "grangers," they're being knocked all to pieces.

Countryman (whipping off his coat)—Whoop! lemme git in there, an' I'll do some paralyzin'. I'm a Granger, myself.

MRS. DELLA CREME (wearily)—I know everything we eat is adulterated, but what can we do, Reginald? We must trust our grocer.

Mr. Reginald Creme (drearily)—Ah, yes, Della, very true, and if—oh, if—our grocer would only trust us!

The Longest Word in the Dictionary is incompetent to communicate the inexpressible satisfaction and incomprehensible consequences resulting from a judicious admittance of Dr. Pierce's Favorite Prescription, a preparation designed especially for the speedy relief and permanent cure of all Female Weaknesses, Nervousness, and diseases peculiar to the female sex. The only remedy for woman's peculiar ills, so'd by druggists, under a positive guarantee, to give satisfaction. See guarantee on wrapper of bottle. This guarantee has been faithfully carried out for many years by the proprietors.

A Boston man has patented an apparatus for blacking boots by electricity.

A Large Estate. A broad land is this in which we live, dotted so thickly with thrifty cities, towns and villages! Amid them all, with ever-increasing popularity and helpfulness, is Dr. Pierce's Golden Medical Discovery, giving hope and cheer where there is disease and despair. Wherever there is humanity there is suffering; wherever there is suffering there is the best field for this greatest American Remedy. Consumption (which is lung-scrofula), yields to it, if employed in the early stages of the disease; Chronic Nasal Catarrh, yields to it; Kidney and Liver diseases, yield to it! If you want the best known remedy for all diseases of the blood, ask for Dr. Pierce's Golden Medical Discovery, and take no other.

An Irishman, Francis Harlett, has invented, and an Irish company has brought out, a mechanical apparatus for blowing glass bottles which dispenses with the old fashioned method of blowing glass by the mouth.

Popular Preparation! Pure, Potent, Powerful! Pallid People Prone, Progressive People Purchase! Positively Pierce's Pleasant Purgative Pellets, Properly Partaken, Preserve Physical Powers, Produce Permanent Physical Perfection. Purchase, Prove!

If you would get the most out of your feed, grind the grain and cut the fodder.

Rupture cure guaranteed by Dr. J. B. Mayer, 831 Arch St., Phila., Pa. Ease at once, no operation or delay from business, attested by thousands of cures after others fail, advice free, send for circular.

Plant acorns in the fall and where the trees will be wanted to stand permanently.

A farmer may "fleece his sheep," but if he should try to fleece his farm he would get left.

FITS: All Fits stopped free by Dr. Kline's Great Nerve Restorer. No matter how long you have had them, you can get rid of them in 10 to 15 days. Send to Dr. Kline, 331 Arch St., Phila., Pa.

"I NEVER pass that house across the way," remarked Dumley, "that I do not see that pretty little woman on the lawn. She must spend the most of her time there."

"Yes," replied Brown, "she does; she's a grass widow."

MRS. DOLEFUL.—The paper says this morning that there's no prospect of cholera coming this summer. Mr. Doleful—Just my luck. What do you mean, John? Got my life insured the other day.

A YOUNG lady attending balls and parties should have a female chaperon until she is able to call some other chap her own.

REV. MR. HIRSHUTE.—The very hairs of your head are numbered, Mr. Scantlocks. Mr. Scantlocks—Well, it comforts me to think how little trouble I give the recording angel latterly.

DEACON—I was terribly shocked, my dear, to discover on my way home from church a match game of base ball being played on the vacant lot near the park. Wife—Was it that which makes you so very late, Deacon?

"MR. HUSKLY, do you know what you're about?" asked Mrs. H. as she stopped at the head of the stairs with the lamp. "I'm 'bout er drunkest man I ever saw in my life. Hurrah!"

TEACHER—Jimmy, did you ever see a mummy? Little boy—Only grandma.

The man who tried to get up a concert with a band of a hat is the same genius who, a few days since, played upon the attractions of a young lady.

An old adage says that "courtney opens many doors." Yes, and lack of courtney leaves them open. Won't somebody invent a new adage that will tell what will shut many doors?

"WHAT'S a diplomat?" "An honest man sent abroad to lie for his country."

PAINE'S CELERY COMPOUND THE CELEBRATED NERVE TONIC.

A Word to the Nervous You are painfully aware that you have nerves? Then you are sick! A healthy boy has as many as you, but he doesn't know it. That is the difference between "sick" and "well." Why don't you cure yourself? It is easy. Don't wait. Paine's Celery Compound will do it. Pay your druggist a dollar, and enjoy life once more. Thousands have. Why not you? WELLS, RICHARDSON & CO., Proprietors, Burlington, Vt.

"AND you will surely be mine, Augustus?" "Yes, but I shall naturally be more surely bound to you when I am wearing the ring."

"I'll be the r-r-ring!" "Yes, of course; and if it doesn't matter to you I'd like a heavy gold band with a seal. I've always longed for a real genuine seal, and you know you said you'd do anything for me."

"I've spent all this month's allowance and anyway I don't believe I could afford it. I-I forgot. I thought I'd have a diamond and sapphire just like Fred Tutthill gave Clara."

"Yes, but he asked you know."

THE Superintendent of Schools in a country town, we will call him Mr. A., one day visited a school taught by Miss B., and in the course of the morning said:

"Now, children, I wish you to take notice what I do and then write an account of it."

Then he stepped to the blackboard and wrote a sentence upon it. All the children except one wrote in effect that Mr. A. came into the school and wrote on the blackboard, "I love a good school."

One little fellow, however followed instructions more literally, and completed the story by adding, "and then he went to the platform, sat down, played with his watch chain, twirled his mustache and winked at Miss B."

STRANGER—Are guests in this hotel allowed to eat pie with a knife? Clerk—Yes, sir.

"Don't you have to eat green peas with a fork?" "No, sir; you can eat 'em with your fingers if you like."

"Can I call for a second plate of soup 'thout havin' the waiter ask me how the buckwheat crop looks down my way?" "Yes, sir."

"Then I'll sign my name. I'm travelin' fer pleasure, mister, an' am lookin' fer a hotel with home comforts to it."

"GOOD morning, Mr. Gubbins," said Pat, whose occupation was that of taking care of horses.

"I don't want you to speak to me, sir, nor any other fellow who grooms a horse for a living," was the ungentlemanly reply.

"O, you don't eh?" said Pat. "Shure an' bead, its yerself that grooms an' old jackass, or else ye neglect yerself shamefully. Good mornin', Mr. Gubbins."

STORE CLERK—A hamcock, Miss! Certainly. Here is one warranted to sustain a weight of two hundred and ninety pounds.

Young Lady (solus)—Two ninety—let me see. John weighs 104 and I weigh 125—five and four's nine with nothing to carry; two and six are eight with nothing to carry; one and one are two: total 289. (To the clerk) Well, that's mighty near, but I guess it will do.

PROMPTER (to boy)—Tell Mr. Ham that his cue will be given very soon for the death scene; is he ready? Boy—Yes, sir; he's jest got through eatin' a watermelon.

The Best Test of Success is Success. Tested and proved by over twenty-five years' use in all parts of the world, ALLCOCK'S POROUS PLASTERS have the indorsement of the highest medical and chemical authorities, and millions of grateful patients who have been cured of distressing ailments voluntarily testify to their merits.

ALLCOCK'S POROUS PLASTERS are purely vegetable. They are mild but effective, sure and quick in their action, and absolutely harmless. Beware of imitations, and do not be deceived by misrepresentation. Ask for ALLCOCK'S, and let no explanation or solicitation induce you to accept a substitute.

Scientists say that the stature of a man is increasing at the rate of one inch in 1000 years.

"The Gods give no great good without labor," is an old proverb, and a true one; the hardest labor is not always that which is best paid however. To those in search of light, pleasant and profitable employment, we say write to B. F. Johnson & Co., Richmond, Va.

Sunatra has a flower which grows to nine feet in circumference and weighs fifteen pounds.

Frazer Axle Grease. The Frazer Axle Grease is the Standard Axle Grease of the world. Use it and save your horses and wagons. One greasing will last two weeks. A solution of copers applied to wood will render it very hard and durable.

A good appetite is essential to good health and loss of appetite indicates something wrong. Hood's Sarsaparilla creates and sharpens the appetite, assists the digestive organs and regulates the kidneys and liver. Take Hood's Sarsaparilla this season. Sold by druggists.

Garlic has been administered in hydrophobia with good result.

HEADACHE.—The Stomach is disordered. Cleanse and settle it with Dr. Schenck's Mandrake Pills.

HEARTBURN.—Food fermenting, not digesting. Correct the Stomach by using Dr. Schenck's Mandrake Pills.

INDIGESTION.—Start the secretions of the Stomach with Dr. Schenck's Mandrake Pills.

INFLAMMATION.—Congestion run mad. Reduce instantly by free use of Dr. Schenck's Mandrake Pills.

JAUNDICE.—Blood poisoned by bile. Correct the Liver by using Dr. Schenck's Mandrake Pills.

LOSS OF APPETITE.—The Stomach is falling. First cleanse it; then tone with Dr. Schenck's Seaweed Tonic.

NAUSEA.—Reaction of bile. Correct Stomach and Liver with Dr. Schenck's Mandrake Pills.

PALPITATION.—Dyspeptic condition. Cure by using Dr. Schenck's Mandrake Pills as directed.

TORPIDITY.—Inaction of Liver. Start it up with Dr. Schenck's Mandrake Pills.

Dr. Schenck's new work on the Lungs, Stomach and Liver sent free to any address. Address Dr. J. H. Schenck & Son, Philadelphia, Pa.
