

Nasal Voices, Catarrh and False Teeth.

A prominent English woman says the American women all have high, shrill, nasal voices and false teeth.

American women don't like the constant twanging they get about this nasal twang, and yet it is a fact caused by our dry stimulating atmosphere, and the universal presence of catarrhal difficulties.

Both conditions are unnatural. Catarrhal troubles everywhere prevail and end in cough and consumption, which are promoted by mal-nutrition induced by deranged stomach action.

That is more of a poser to the English. It is quite impossible to account for it except on the theory of deranged stomach action caused by imprudence in eating and by want of regular exercise.

Comrade Eli Fisher, of Salem, Henry Co., Iowa, served four years in the late war and contracted a disease called consumption by the doctors.

Of course we do not like to have our women called nose talkers and false teeth owners, but these conditions can be readily overcome in the manner indicated.

CHIEF JUSTICE FULLER (in Washington real estate office)—I want to get a house as near like a Chicago residence as possible to find.

Agent—Yes, sir. When you settle in Washington you want to feel at home, I suppose.

Two brutes.—Magistrate—What is the charge against this man? Officer—He threw a photograph lens at a baby and cut its head.

Magistrate—Are you a regular photographer? Prisoner—Yes, your Honor. I had been trying for two mortal hours to take a picture of that little imp—I mean little baby, your-honor—and—

Magistrate—You are discharged. I used to be a photographer myself.

A FRIEND visiting in a minister's family where the parents were very strict in regard to the children's Sunday department, was confidentially informed by one of the little girls that "she would like to be a minister."

"Why?" inquired the friend rather puzzled to understand what had given the child so sudden an admiration for that calling. He was quickly enlightened by the prompt reply: "So I could holler on Sunday."

Interested People. Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds, does it is indeed wonderful.

Have you a few hours' or a few days' spare time occasionally that you would like to turn into money? Then write quickly to B. P. Johnson & Co., of Richmond, Va., and they will give you information that will prove to be money in your pocket.

Spain has lost her old-time grandeur and haughty power, but she can boast of the youngest king in the world.

Do not put fresh skimmed milk into the churn unless you want to waste one-fifth of your butter in the buttermilk.

Nothing Cures Dropsy, Gravel, Bright's, Heart, Diarrhoea, Urinary, Liver Diseases, Nervousness, etc., like Kane's Kidney Cure. Office, 211 Arch St., Phila. \$1 a bottle, 4 for \$3. At Druggists. Cures the worst cases. Cure guaranteed. Try it.

FARM NOTES.

LIVE STOCK NOTES.—The heavy work of the summer has left team horses somewhat reduced. They should have the best of care to keep them up for fall plowing, and other work yet to be done.

What all the young men? Robert Garrett's father left him a fortune of twenty millions. He was from childhood reared in luxury; he received a splendid education with an especial training into a thorough knowledge of railroad management and was expected to succeed his father as a railroad king.

George Law is another young man left with millions of money, who is reported among the "wrecks." His father, bred a stone mason, was of gigantic size and strength, with commensurate brain power, so he became a great contractor, then a railroad king and left half a dozen millions for his son to dissipate.

Have the plants in readiness to go into the houses, and the Houses in complete readiness to receive them. It is better to take in the plants too soon than too late.

PROBABLY the best tonic for fowls is the "Douglass mixture." Take one pound of sulphate of iron and two ounces of sulphuric acid and dissolve in one gallon of water.

FARM horses should be worked steadily. A horse that is kept at regular service, and not overworked, will last much longer than one that is given periods of rest.

BEETS FOR CATTLE FEED.—A careful consideration of the subject in all its bearings by James T. H. Gregory, Marblehead, Mass., has decided this practical cultivator that "beets for cattle food are well worth fully as many cents per bushel as good hay is worth dollars per ton, without taking into consideration the increase of the manure, and that the average cost, when stored in the cellar or put into pits, with every item of expense included, need not exceed eight cents per bushel.

WARNER'S Log Cabin Remedies—old fashioned, simple compounds, used in the days of our hardy forefathers, are "old timers" but "old reliable." They comprise a "Sarsaparilla," "Hops and Buchu Remedy," "Cough and Consumption Remedy," "Haw's Remedy," "Extract for External and Internal Use," "Plasters," "Rose Cream," for Catarrh, and "Liver Pills." They are put up by H. H. Warner & Co., proprietors of Warner's Safe Remedies, and promise to equal the standard value of those great preparations. All druggists keep them.

ALL surplus fruit should be dried or evaporated. It is a waste of land and fertility to allow fruit to fall and rot. It is expensive feeding for hogs considering the value of the land occupied by trees, and, unless all fruit grown can be sold or applied to family use, it will pay to cut down the trees and devote the land to some other crop.

THE proper temperature for sweet potatoes in winter is about 60 degrees. If they are not exposed to a temperature lower than 56 degrees they will keep easily. When first stored in the cellar they should be kept at 70 degrees until well dried, gradually lowering the temperature to 60 degrees.

As the pear and the peach should not be cultivated alike they should be grown on separate locations. Both demand vigilance from the grower in guarding against the borer, and both will be free from disease for a longer period if not allowed to overbear until the trees are well developed and matured.

MERCY is so good a servant that it will never allow its master to die a beggar. The virtues that lie in Warner's Log Cabin Plasters are as beneficent and lasting as the qualities of mercy. Best and cheapest poulticed plaster in market.

THERE are 200 men engaged in the celery industry in the suburbs of Grand Haven—more than all the saw mills have employed in the last ten years.

Ordinarily no one should stay at a dinner longer than three hours, and in taking leave the guest bids farewell only to the hostess.

Log Cabin Success.

What all the young men? Robert Garrett's father left him a fortune of twenty millions. He was from childhood reared in luxury; he received a splendid education with an especial training into a thorough knowledge of railroad management and was expected to succeed his father as a railroad king.

COULDN'T FLOOR HIM.—After gazing out upon the river from the ferry dock for a while he slid up to an old lake captain who was leaning against the rail and asked:

"How far is it down to Lake Erie?" "Eighteen miles." "Why did they call it Lake Erie?" "It was named after a man named Erie, who never came down to this dock without asking us if we'd have a glass of beer with him. Ah! he was a fine man. He's dead now."

"And if a man named Jones came along and asked all of you to drink you'd change the name to Lake Jones, I suppose?" "We would, sir." "Very well, captain. My name is Black, but I'll see Jones in a few days and speak to him about it. Meantime, try and get along on water. How long is this river?" But the captain wouldn't answer.

FULL OF BUSINESS.—"Mr. Sampson asked me to be his wife last night, pa." "And what did you say?" "I told him he must give me a little time, and he said I could have the usual thirty days or five per cent off for cash, and then he stopped and apologized. What am I to think of him, papa?" "Think of him!" shouted the old man. "That young fellow is full of business, and you can't say 'yes' too quick."

A CASH TRUST.—Would-be customer—Will you trust me for a few things for a couple of days? Grocer—Come around in a couple of days and I will. "But I will have the money then." "Then is when I would trust you."

Do You Have that extreme tired feeling, languor, without appetite or strength, impaired digestion, and a general feeling of misery it is impossible to describe? Hood's Sarsaparilla is a wonderful medicine for creating an appetite, promoting digestion, and purifying the blood system, giving strength and activity in place of weakness and debility. Be sure to get Hood's.

"I take Hood's Sarsaparilla every year as a tonic, with most satisfactory results. I recommend Hood's Sarsaparilla to all who have that miserable tired feeling." C. PARSONS, 212 Bridge Street, Brooklyn, N. Y.

Hood's Sarsaparilla Sold all druggists, six for \$1. Prepared only by C. L. HOOD & CO., Lowell, Mass. 100 Doses One Dollar

PETER HENDERSON states that a patch of alfalfa about twenty-five feet by one hundred, or only about one-sixteenth part of an acre, used as a sowing crop, near St. Augustine, Fla., furnished feed through the summer months for a cow; and twice that amount, or about one-eighth of an acre, would be ample to supply a cow with food during the entire season.

LAND for wheat should be prepared now by plowing it deep and harrowing it down fine. Later on, just before seeding to wheat, the land should be again plowed and harrowed until the soil is as fine as that of a garden. The preparation of the seed-bed for wheat is the most important matter in connection with growing the crop.

BRINGING THE BIRDS.—One benefit which the farmer who surrounds his premises with artificial groves will realize, and which should by no means be lost sight of, is that such groves invite the insect destroying birds, which are the farmer's best friends in protecting fruits or other crops from the ravages of destructive insects.

THE first, last and always necessary item in poultry-raising is good care, and no one should undertake the business who has not time to give this.

"I am weary of living," moaned poor Mrs. Black. "For I'm fairly worn out with the ache in my back. My nerves are a chain of weakness and pain, and my poor head is aching as if it would crack."

"Now, don't be discouraged," cried good Mrs. White. "It is never so dark but there's promise of light; I can tell you in brief, what will give you relief—Pierce's Favorite Prescription will soon set you right."

It is the only remedy for woman's peculiar weakness and ailments, sold by druggists, under a positive guarantee from the manufacturer, that it will give satisfaction in every case or money will be refunded. See guarantee on bottle wrapper. Large bottles (100 doses) \$1. Six for \$5.

The dahlia has always been a popular flower, but there are many complaints by those who attempt its culture year after year about its failure to blossom well.

Can a Man Swallow a Cannon-ball? Well "that depends." He can if his throat is large enough and the cannon-ball not too large. The question really seems worthy of some consideration in view of the size of some of the pills that are prescribed for suffering humanity. Why not throw them "to the dogs," and take Dr. Pierce's Pleasant Purgative Pills? Small, sugar-coated, purely vegetable, perfectly harmless, in glass, and always fresh.

At the rate apples have been shipped away from Iowa this fall there will be a scarcity of good fruit for home consumption.

Don't You Know that you cannot afford to neglect that catarrh? Don't you know that it may lead to consumption, to insanity, to death? Don't you know that it can be easily cured? Don't you know that while the thousand and one nostrums you have tried have utterly failed that Dr. Sage's Catarrh Remedy is a certain cure? It has stood the test of years, and there are hundreds of thousands of grateful men and women in all parts of the country who can testify to its efficacy. All druggists.

George IV died of gluttony and drunkenness. THE blood is the regulator. Regulate the Regulator with Warner's Log Cabin Sarsaparilla. It cures all impurities. It is the largest bottle in the market—120 doses for \$1. Your druggist sells it. Buy it for your family's benefit as well as your own.

James I died of drinking and the effects of vice.

YOU are hustling around for your share of the world's good gifts, and it's hard work: think of something else.

This constant work will tell sometime—perhaps it has already—and nervousness, sleeplessness, neuralgic and rheumatic aches and pains are part of the "good gifts" your hustling has won. If you are that way, let us give you a prescription—no charge for the prescription, though it will cost a dollar to have it filled by your druggist.

PAINE'S CELERY COMPOUND OF. All druggists keep it. It will strengthen your nerves, tone up your whole system, and make you bless us for prescribing this great nerve tonic. Be sure to get the genuine, prepared only by WELLS, RICHARDSON & CO., Burlington, Vt.

A general burning of wheat stubble in the chinch bug districts will destroy millions of germs now that will be voracious bugs next summer. Regulate the Regulator, by the use of Warner's Log Cabin Sarsaparilla Sold by all druggists. 120 doses \$1.

EVERY weed that grows near a plant takes from the soil the elements for its support, and struggles for existence with the plants for that purpose. In the dry season weeds will appropriate the moisture that may be required for the desirable plants. The best mode of withstanding the effects of drought, therefore, is clean cultivation, whereby the grass and weeds are prevented from injuring the crop plants.

A SCORE.—Hard-up Gent—Say, boss, can't yer give a feller a few cents to help him along? Mr. D-lawney—Why don't you do something faw yaw own living? You had better ask for bawins instead of money.

"Well, boss, I asked yer for what I thought yer had the most of."

"AND is that yellow dove which rises in the field yonder the roof of another dwelling?" asked the city visitor of his country friend. "Oh, no!" said the farmer, "that is my prize pumpkin you see, which is growing right along for the agricultural show."
