a man for groaning when he has Rheumatism or Neuralgia. The pain is simply awful. No torture in the ancient times was more painful than these twin diseases. But—oughtn't a man to be blamed if, having Rheumatism or Neuralgia, he wont use Ath-lo-pho-ros, when it has cured thousands who have suffered in the same way? It has cured hundreds after physicians have pronounced them incurable,

them incurable.

"The skill of five physicians could not cure me of Rheumatium which had settled in the hips, neck and shoulders. So intense was the pain that sleep was almost impossible. The first dose of Athlophoros gave me relief, and the third enabled me to sleep for four and a bail hours without waking. I continued its use, and an now well."

Morning, Afternoon and Night Sessions.

Elice College is a College that "vaunter the not fiselt." What it is has not been made by any artificial means. It has grown solely by virtue of its experienced staff of instructors, chosen for their fitness and adaptation to the positions which they fill, by its worderfully practical and realistic courses of instruction, by its unrivalled lighting, heating, ventilating, and other appointments, great and small, in the farfamed "Record Building," which protect the heatth and promote the convenience of its patrons, and by the fidelity to the interests of its students of each officer and member of the Faculty and each attache, from Principal to Janitor.

The following is an extract from a history of Philadelphia, just published.

"This institution has been exceptionally fortunate in the success of the students who have graduated therefrom . It is no marvel that the Peirce College of Business Diploma carries a warranty of efficiency that makes its graduates eagerly sought after by the leading business men of this and other cities."

It is doubtful if very many Philadelphians even know the extent and importance of fis clientage and the results of its training, outside of the facts that may be gleaned from the roll of students annually published. '88---OLD AND NEW---'89.

Past and Present in Several States and Territories.

ALL AROUND HAPPY NEW YEAR!

Governors Seize an Opportunity to Blow a Few Notes of Praise for Their Own Dominion-The Old Year Prosperous and the New Full of Bright Promise.

PITTSBURG, Jan. 1.—The Pittsburger Volksblatt publishes autograph letters from fourteen governors of some of the more prominent states and territories in the Union, reviewing the events of the year just closed and briefly considering the prospects for the year 1889.

Governor Taylor, of Tennessee, speaks of the prosperity of that state, and closes: "The new year finds us on top of a rolling wave of prosperity that is surely and rapidly sweeping Tennessee to the front of the-best states of the Union."

Governor Adams, of Colorado, says 1888 has been the most prosperous year in Colorado's history. The population has increased over 25 per cent., the assessed wealth 20 per cent., and the new year promises even greater gains. He invites all good men to "come and aid us in building up the model state of the Union, here upon the crest of the

continent," Governor Thayer, of Nebraska, sends the natives of other countries, who are subjects of sovereigns there, can come here and be

themselves sovereigns." Governor Beaver, of Pennsylvania, says Pennsylvania owes much to her sturdy ploneers of German descent, pays the German element a glowing tribute; says 1888 was of unusual presperity, and 1889 promises even better things.
Governor Lee, of Virginia, says the activity

of common carriers has been larger than ever before, and the rapid development of Virginia's great resources points to a new era of prosperity for the old commonwealth. Governor Wilson, of West Virginia, sends a sentiment deploring bribery at elections, and hopes the new year may bring a political morality which "will condemn bribery at elections, in all its forms, as one of the greatest crimes that can be committed in a

government of the people."

Governor Taft, of Rhode Island, says there is a feeling of confidence in the future prosperity of the industries of his state, "growing largely from the result of the national election, giving assurance that the principles which have so favored national growth are to remain substantially as they now are."

Governor Moonlight, of Wyoming Territory, condemns the wholesale gobbling up of estead lands, and makes a strong plea for the principle of "land for the landless." He advises most rigid economy, even at this late day, touching public lands, and to hold them sacredly for actual bona fide settle-

Governor Leslie, of Montana Territory says 1888 shows a marked advance in all directions, and that Montana has the brightest and most promising outlook of any of the territories for the future, "It is on a solid basis-its onward march is steady and irre-

Governor Perry, of Florida, says Florida is making marvelous advancement materially, morally and educationally, and extends a hearty welcome to all good immigrants, asking no questions as to politics or religion.

Governor McGill, of Minnesota, says that Minnesota is entitled to rank among the great and rich states, and that its industries are by no means confined to agricultural are by no means confined to agricultural Rubber Boots until products. With its resources as yet scarcely you have seen the developed, the future of Minnesota can

hardly be estimated. Governor Semple, of Washington Territory, sends a glowing pen picture of that territory's advantages, and believes that she will be the richest commonwealth on the Pacific coast in ten years from now. She is qualified to enter the Union, he says, and demands to be admitted without other conditions than are prescribed by the constitution of the United States.

Governor Riggs, of Delaware, says the state is prosperous and happy, and that the contentment and happiness of the nation depends on the moral and religious education of the masses, which is making progress every-

Governor Gray, of Indiana, writes on Christmas, and speaks of the beneficial influ-ences of the general observation of the day.

Official News from Hayti. WASHINGTON, Jan. 1-The secretary of state received a large mail from the United States minister to Hayti dated Dec. 18, containing information as to the condition of affairs in that island, but making no men-

tion of the arrival of the American vessels Galena and Yantic. Among the dispatches is a copy of the decree issued on the 10th inst. by the Legitime government closing all the northern ports—St. Marc, Goriives, Port De Paix and Cape Haytien-to foreign commerce provisionally. The rights of changing ports granted to Grand Saline, the Mole and Fort Liberty are suppressed. Mention is made in the dispatches of a mysterious crew that arrived at Port au Prince on the steamship Arrott. There seemed to be evidence of a plot to carry the Haytian Republic out of port under cover of night, but it was frustrated by the vigorous action of the authori-

Fire at Ocean Beach. ASBURY Park, N. J., Jan. 1.—Fire at Ocean Beach destroyed eight buildings, the principal business block of the town. The fire originated in a defective flue in a building on Freeborn avenue, and destroyed that building, a drug store, and two cottages belonging to Dr. William L. Kinmonth, and four small stores and a large cottage owned by Mrs. A. M. Clemens, of Bristol, Pa. Four families were made homeless. The loss is \$20,000, half covered by insurance. The Free Masons', Knights of Pythias and Odd Fellows' lodges lost all their furniture and trappings. The town has no fire department, but a bucket brigade did good work. The line passing buckets was a quarter of a mile long. The fire departments of Asbury Park, Ocean Grove and Manasquan responded to calls, but arrived too late to be of much service.
