OH! MY HEAD.

The pain from Neuralgia and its companion disease Rheumatism is exeruciating. Thousands who could be quickly cured are needlessly suffering. Ath-lo-pho-ros will do for others what it did for the following

parties:

Williamsport, Ind., Oct. 2, 1887.

Having been afflicted with neuralgia for the past four years, and trying almost everything, but in vain, I finally heard of Athlophoros. After taking one bottle I found it to be helping me, and after taking four bottles of Athlophoros and one of Pills, I found that I was entirely well. I think the medicine is positively a sure cure.

CHAUNCEY B. REDDICK.

Mt. Carmel, Ill., Dec. 26, 1887.

I have used Athlophoros in Lay family and find it to be the greatest medicine for neuralgia in existence and having had its fangs fastened upon me for the past 30 years I know whereof I speak.

Morning, Afternoon and Night Sessions.

PEIRCE COLLEGE is a College that "vaunteth not itsel!" What it is has not been made by any artificial means. It has grown solely by virtue of its experienced staff of instructors, chosen for their fitness and adaptation to the positions which they fill, by its wonderfully practical and realistic courses of instruction, by its unrivalled lighting heating, ventilating, and other appointments, great and small, in the farfamed "Record Building," which protect the heatth and promote the convenience of its patrons, and by the fidelity to the interests of its students of each officer and member of the Faculty and each attache, from Principal to Janitor.

The following is an extract from a history of Philadelphia, just published.

"This institution has been exceptionally fortunate in the success of the students who have graduated therefrom. It is no marvel that the Peirce College of Business Diploma carries a warranty of efficiency that makes its graduates eagerly sought after by the leading business men of this and other cities."

It is doubtful if very many Philadelphians, even know the extent and importance of it clientage and the results of its training, outside of the facts that may be gleaned from the roll of students annually published. Send and get one of its Annual Announcements and, a copy of its Commencement Proceedings, that you may be introduced to it, and establish a speaking acquaintance with its results. Address,

MANHOOD How Lost, How Restored!

Just published, a new edition of DR. CULVERWELL'S CELEBRATED ESSAY

on the radical cure of Spermatorrhoea or incapacity induced by excess or early indiscretion.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' practice that the alarming consequences of early error may be radically cured: pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

CONGRESSIONAL RECORD

Doings of a Week in the Senate and House.

TWO IMPORTANT NOMINATIONS.

House and Senate Hard at Work Closing Up the Business of the Fiftieth Congress The Department of Agriculture Created and a Secretary Named.

Washington, Feb. 12.-The president sent two important nominations to the senate: Norman J. Colman, of Missouri, to Secretary of Agriculture, and A. E. Stevenson, of Illinois, First Assistant Postmaster general, to be associate justice of the supreme court of the District of Columbia, vice William M. Merrick, deceased. The president yesterday approved the bill raising the bureau of agriculture to the dignity of an executive department and elevating the commissioner of agriculture to a cabinet office as secretary of agriculture. Mr. Colman is at present

commissioner of agriculture. The house spent almost the entire day dis-cussing the Smalls-Elliott contested election

case, which went over without action. WASHINGTON, Feb. 13.-The house continued the discussion of the Smalls-Elliott election case. The senate bill to enable the president to protect the interests of the United States in Panama was referred to the committee on foreign affairs and leave granted to the committee to report to the house at any time.

The senate passed the naval appropriation bill and took up the Texas election outrages. At the conclusion of the morning business the senate went into secret session for five

WASHINGTON, Feb. 14 .- The house in the Smalls-Elliott contested election case decided to seat Elliott by a vote of: Yeas, 143; nays, 126,

At 1 o'clock the joint session to count the electoral vote was begun. It lasted until 2:20. The nomination of Norman J. Colman, of Missouri, to be secretary of the department of agriculture was confirmed by the senate.

Washington, Feb. 15.—The house passed most of the day discussing a resolution giving instructions to the house conferrees on the territorial bill. Mr. Springer called up the the conference report on the senate bill for the admission of the state of South Dakota. The report, which reports a total disagreement, was agreed to. Mr. Springer moved that the house insist on its amendments and ask for another conference. Agreed to. Mr. Baker (N. H.) offered a resolution giving the house conferrees the following instruc-

First-To exclude the territory of New Mexico from the bill. Second-To amend the bill so as to provide for the admission of South Dakota by proclamation of the president, under the Sloux

Falls constitution, to be resubmitted to the people of South Dakota, with provision for a new election of state and federal officers, and without a new one on the question of division. Third—That the proposed states of North Dakota, Montana and Washington shall be

admitted on the same basis, either all by proclamation of the president, or all by formal acts of admission Washington, Feb. 16.-The house passed the resolutions instructing the conferrees on the territorial bill and the senate bill, enabling the president to protect United States

interests in Panama. Mr. Mills reported back the Mills tariff bill with senate amendment, and by direction of the speaker it was referred to the committee of the whole.

Mr. Mills also reported the following reso lution, the consideration of which, he said, he would ask the house to enter upon on Tuesday next:

Resolved. That the substitution by the senate under the form of an amendment for the bill of the house, No. 9.051, (the Mills bill) of another and different bill, containing a general revision of the laws imposing import duties and internal taxes, is in conflict with the true intent and purpose of section?, article 1, of the constitution, and that said bill be returned to the senate with the respectful suggestion that that section vests in the house of representatives the sole power to riginate such a measure.

WASHINGTON, Feb. 19 .- The time of the senate was devoted to speeches eulogistic of Gen. Cass, and Mr. Coke's speech on Texas outrages. The house did nothing of importance.

MR. CLEVELAND IS HAPPY.

He Will Resign His Office With a Sense of Relief.

BALTIMORE, Feb. 15.—The sun publishes a special from Washington giving a review of Cleveland's admistration, based upon conversations with the president. It says that the president is thoroughly sat-

isfled with the outcome of his administration, and its effect on the fortunes of the Democratic party. He predicts a great future for the Democracy, and asserts his unqualified devotion to it. "It is a grand party," said he, "and was never in better condition than at present. When we consider the condition it was in before the tariff issue was formulated, the want of unanimity, the wide divergence of views on many points, the hearty, united support it gave me during the campaign, who can doubt that its status has been improved, and that it has a glorious future before it."

The president is as firm now as ever that tariff reform is the great living issue for the Democracy. He regards it as an issue in harmony with the spirit and traditions of the party and one involving enormous benefits to the people. He does not tolerate the idea that the Democracy was beaten on the tariff issue. 'Had certain conditions been eliminated from the campaign," he said, "we would have won a decisive victory." He thinks the defeat of the Democracy is to be deplored because of the injury resulting to the public interests, but personally he experiences a pro-found sense of relief at the prospect of speedy release from the ordeal to which he has been exposed during the past four years.

"I shall be delighted to be relieved of the cares of the presidency," he says, "and on the 4th of March next, on purely personal grounds, there will be no happier man in the United States."

He believes that civil service reform has come to stay. He has endeavored to give the civil service a fair trial and expresses himself as fully satisfied with the results. It is certainly far preferable to the spoils system, and he has no fear that it will degenerate into a mere bureaucracy. He is earnest in his advocacy of the civil service as being a thoroughly practical reform and in no sense undemocratic. He thinks the work of his administration has fixed this reform as a permanent feature of our system of government and that no party can afford to antagonize

Denouncing the Government. PESTH, Feb. 18.—Thirty thousand people paraded the streets in procession yesterday and afterwards assembled at an anti-govern ment meeting, where speeches denouncing the government were delivered from several stands. While passing the palace the crowd
