Up to the time the men were rescued the excitement was intense. Ever since the rush of pillars occurred which caused the gangway in which the men were working to close, brave miners were dig-ging steadily at the debris which shut their brethren in. The succoring party were in danger of being blown up at any moment by the deadly gas which generally follows a fall.

A half hour later Vincent Rucush was found lying on a mass of coal asleep, his companion during the night had been buried by a fall of coal. After working awhile and then entrance was effected through the second fall. When the main body of imprisoned men were found they were in an exhausted condition, but were immediately hoisted to the top of the slope, when a scene of wild enthusiasm ensued, and a still greater show of joy was exhibited by a vast mass of humanity when the miners arrived at the Lehigh Valley depot in Shamokin.

The explosion occurred just after the noon whistle had sounded, and many of the workmen had left the works to get their dinners. The concussion shook buildings for several squares. In a few minutes a large crowd had gathered about the wreck, and the scene was most agonizing. Wives, mothers and children ran wildly about, wringing their hands and crying, eagerly searching for their loved ones. The first body removed was that of the engineer, Lindbaugh. He was almost unrecognizable. Allenbache's remains were next taken out, and in a few minutes the mangled body of Clark was found. Reinheimer, Howard and an unknown were next removed. At 2 o'clock the body of James Carton, a helper, aged about 22 years and unmar-ried, was taken out.

THE PARNELL COMMISSION.

Big Prices for Times Witness Court Adjourns.

LONDON, March 14.—At the sitting of the Parnell commission, Mr. Soames, solicitor for The Times, testified that he had found that the local police of Cork believed Coffee, the Cork reporter who testified that a statement he had made to a policeman was absolutely false. Coffee signed the statement in witness' office and said he would testify it was true. Coffee had not received the full sum to which he was entitled. Witnesses for The Times received from 10s. to £3 3s.

At 3:20 p. m. Attorney General Webster announced that the case for The Times

A Bold Baltimore Murderer. BALTIMORE, March ! -William Shannon, a lumber merchant, 35 years old, entered the saloon of Charles Logue on Pearl street, corner of Sarah Ann street. Taking a knife out of his pocket he threw it across the bar saying, "Take that to remember me by. The next time you see me I'll be on trial for my neck. I cut my woman's neck from ear to ear with it." Investigation proved that Shannon had done all he said he had. Blanche Gray, with whom Shannon had been living for four years past, was found in her house near by with three horrible gashes in her neck. She explained that Shannon had cut her because she told him that she loved another man better than he. The woman was taken to the Maryland University hospital where she died. Shannon is in jail.

Hyde Park Settling Into the Bowels of the Earth-Collapse of the Central Mine. SCRANTON, Pa., March 18.-Unmistakable signs of a collapse in the chambers of the Central mine under Hyde Park, a thickly settled portion of this city, were first noticed last Thursday morning. The mine owners thought they could prevent disaster, however, and so

not much anxiety was felt. Later, however, the walls began tottering and gradually sinking. By 2 o'clock in eight chambers in the fourteen foot vein and eight chambers in the vein above it the rock had collapsed and the crush was still going on. The convul-sion is under Washburn street and Hyde Park avenue, the two principal streets, and the residents in that section are terribly alarmed.

The Washburn Street Presbyterian church, a large brick edifice located directly over the mine, pitches considerable to one side and is liable to fall in ruins at any moment. The parsonage of the church is gradually falling apart. A large business block and a number of residences in that section are also seriously disturbed, and if the crush continues much longer they will all be in

ruins.

This is the second cave in in the central portion of the city within the past month and the people are very much worked up over it.

Weapons of every kind were then drawn and Andrew Veni received a knife thrust in the neck, while severa others were slashed in a fearful manner. During the struggle Michael Sisson left the scene and went home. The Editor of The Charleston News and Courier Meets a Violent Death.

McDow, at 6:80 o'clock last evening. At that hour Dr. McDow walked into the police station and gave himself up, with the statement that Capt. Dawson was lying dead in his office. McDow youch safed no explanation.

It has been learned that Capt. Dawson recently became suspicious that a young girl employed in his house as a nurse for his children was having improper relations with men. Last week he called upon the chief of police and asked that a detective be detailed to shadow the girl for a few days and let him know what, for a few days and let him know what, if anything, he discovered. Capt. Daw-son stated that if she were being honora-bly courted he would have no objection to make, but that if she were not strictly moral he did not want his children to be

On Monday morning a detective saw the nurse girl get on a Rutledge avenue car. After proceeding a few blocks she was joined by Dr. McDow. The detec-tive followed the pair and kept track of them and their storning, places for say them and their stopping places for several houses and submitted a report in writing to the chief of police, who in turn communicated its details this morning to Capt. Dawson. Capt. Dawson left his office at 3:30 o'clock in the afternoon and was found dead at 6:30 p. m. in Dr. McDow's office, not 100 yards from his own residence. His face was badly beaten and a bullet was lodged in his heart. In the absence of any positive knowledge it is supposed that he went to Dr. McDow's office and remonstrated with him about his conduct with the with him about his conduct with the nurse girl and that they became engaged in a quarrel which resulted in the shoot-McDow then left his office and wandered about until 6:30, when he appeared at the police station. He at first declined to make "Here it is in a nut shell. Capt. Dawson entered my office, used abusive language and knocked me down with his cane. I got up, and he was about to strike me again when I shot him."

Dr. McDow then went on to say that Capt.
Dawson was not killed instantly; that he remained alive for a half to three-quarters of an hour, during which time he. Dr. McDow, remained in the room with the man whose life was fast ebbing away, making up his mind what to do. But there is the strongest and most convinc-ing proof that Dr. McDow remained in the room at least an hour after the death of Capt. Dawson, planning how he might dispose of the body. There is great excitement in the city and flags are at half
