In my own family Athlophoros was used as a last resort, the user having suffered from rheumatism for years and having been treated for the disease by different physicians in this State and Massachusetts without even temporary relief. Upon my recommendation scores of people have used this remedy with the same results claimed for it.

The President's Southern Policy. WASHINGTON, April 5 .- It is asserted that President Harrison has plainly given colored office seekers from the south who are here to understand that they have very little to expect from him. He proposes to recognize the pro-tectionists of the south and to try in this way to make the dividing line of the parties not upon color, but upon the ecomic policy. The south is full of pro-tectionists who have been always working with the Democrats because of the race situation in that section. It is said that many of these have signified their desire to join hands with the Republican protectionist, s making that the issue if they can come into the party with the prover recognition. It transpires that before the hurricane came on every precaution had been taken on the Calliope. Five anchors had been dropped and everything made ready for a big blow. In the heighth of the storm the chains of four anchors snapped and the vessel commenced to drift. Capt. Kane then determined to leave the harbor, where the danger of being therown on the reefs was imminent and reach, if possible, the open sea.

This he eventually accomplished after a hard fight, during which the vessel made only a half a knot an hour.
