Hung on by Her Toes.

READING, Pa., April 12.—Miss Lizzie Watt, daughter of Thomas Watt, No. 108 North Eighth street, had a narrow escape from instant death in Nolde & Co.'s stocking factory. While leaning over a third-story window, looking at the clock in the steeple of St. Paul's Roman Catholic church, on North Ninth street, she suddenly lost her balance and fell out of the window. She was saved by a hair's breadth, her toes catching hold at the window sash and suspending her long enough to enable several of the other girls employed in the establishment to come to her assistance and drag her back by her limbs. Afterwards she fainted and did not regain consciousness for quite a while. Miss Watt seems to be peculiarly fortunate, as she was formerly employed in the silk mill, and was one of those who left the mill about twenty minutes before it was destroyed by the cyclone of January 9.

A Big Iron and Steel Shut Down.

PHILADELPHIA, April 16.—The Amalgamated Association of Iron and Steel workers will ask that all iron mills be closed for two months during the summer, just as are the glass factories. This move has been decided upon by a majority of the lodges. The iron workers made a similar proposition to the manufacturers last year, but it was rejected. It is now stated positively that the Amalgamated people will insist upon its adoption. The suspension would throw 35,000 men in the Pittsburgh district out of employment.

Will Accept the Reduction.

PITTSBURG, April 16.—At a meeting of the railroad coal miners belonging to the Miners' Progressive union in Pittsburgh yesterday the operators' scale proposing a reduction of two and a half cents per ton in wages for the ensuing year was accepted and a committee was appointed to meet the operators today. It is thought the Knights of Labor miners will also accept the operators' scale.

Finley Gets a Seat.

HARRISBURG, April 16.—The house committee on the Finley-Nichols contest met and the Republican members signed a report recommending that the seat be given to Finley by a majority of thirty votes. A reasonable allowance is recommended for both Finley and Nichols for counsel, and that both shall receive their salary for the session. The majority for Finley was obtained by throwing out the twenty-fourth precinct. The report will be read in the house today, and if adopted will give Finley the seat at once.

GETTYSBURG, Pa., April 12.—Lovi Herz was acquitted of the charge of burning the barn on the farm occupied by him on Feb. 18. ABANDONED AT SEA.

The Danish Steamer Danmark Drifting in Mid Ocean.

ANXIETY FOR HER PASSENGERS.

The Danmark Was Bound from Copenhagen for New York, with Fifty Cabin and 600 Steerage Passengers—The City of Chester Reports Passing Her Water Logged Hulk with No Signs of Life on Board.

NEW YORK, April 13.—Dispatches from London report that the Inman line steamship City of Chester arrived at Queens-town from this city and reported having passed the Danish steamer Danmark, abandoned, on April 8, in latitude 46 north, longitude 37 west.

The above announcement when called to this city created an intense excitement about shipping circles down town. The doubt as to the fate of the passengers and crew made the matter still worse.

The Danmark left Suinmundo on March 19, Copenhagen on the 20th and Christianssund on the 26th. When she left the latter port she had 50 first class and 600 steerage passengers on board.

It being the first trip of the vessel under the Danish flag the company had advertised the trip in an exhaustive manner, and a fine collection of passengers who desired to come to this city to settle on farms in the west was secured.

Funch, Edye & Co., of No. 27 South William street, are the New York agents for the Danmark.

Another special dispatch to the agents of the abandoned steamer states that when the City of Chester first sighted the Danmark she was plunging and laboring heavily in the trough of the sea. She appeared to be partly filled with water, as her stern sunk almost to the water's surface, while her bow floated high. She was apparently sinking. Believing that there was life aboard the City of Chester steamed around the wrecked hulk five or six times, blowing long blasts on her steam whistles at regular intervals. But there were no signs of life on board. The Chester remained in the vicinity for several hours, but saw no wreckage, and concluding that all hands had been saved she resumed her voyage.

NEW YORK, April 15.—None of the vessels which arrived in port brought any news of the fate of the passengers of the abandoned steamer Danmark.

NEW YORK, April 16.—Still there is no news of the missing passengers and crew of the wrecked steamer Danmark. The big question that now occupies the minds of marine men is, when will the National steamship Danmark arrive and will she bring news of the Danmark? The National steamship is now two days and several hours overdue. There is a possibility that the delay of the Danmark is due to her being in collision with the Danmark.

It would be a strange fate that should bring these two vessels together a thousand miles out on the wild ocean. There is no means of accounting for the way the Danmark lay in the sea when sighted by the City of Chester except by collision. Her stern was so deep in the water that the waves were constantly washing over the after deck, and her bow was so high that her keel could be seen.

The National line steamer Danmark left London on March 30. The Thingvalla steamer Danmark left Christianssund on March 29. The vessels could not, therefore, have been so far apart when the latter was seen water logged by the City of Chester.

The National Beer Gardens for Jersey.

TRENTON, April 16.—Temporary circles will be started by a bill which McDermitt, of Essex, introduced in the legislature last night. It provides that it shall be lawful to keep public parks open on Sunday, between 2 o'clock in the afternoon and 10 in the evening, provided no admission fee is charged, and that it shall be lawful to sell ale, beer and other food in the parks, and hold sacred concerts therein. The proprietor must have a regular malt liquor license and must receive admission to the park to all minors, unless they are accompanied by their parents or guardians.

Mrs. Anhouse Sleeping Again.

BUFFALO, April 16.—Mrs. Emma Alt-house, the Attica sleeping woman, is now in what promises to be another long trance. She has been asleep since March 27, previous to which she was wide awake for four days. It has been impossible to give her even any liquid food since the trance began, for her teeth are closed as tight as a vice. Before going into the trance she was able to whisper to her sisters that she was going into a long sleep. They think she will die without awakening.

Three Days Locked in a Closet.

PHILADELPHIA, April 15.—Wan faced and half starved, little Marie Brown, the flaxen haired 4-year-old daughter of Widow Brown, of No. 2 Charles place, near Ninth and Willow streets, who disappeared from her home at 2 o'clock last Thursday afternoon, was found yesterday day locked in a closet in a third story room of the unoccupied house at No. 416 Ragan street, within a stone's throw of her home. The little one was nearly starved when found and restored to her parents.

A Radical Innovation Proposed.

WASHINGTON, April 15.—A local writer contributes an article to The Post in which it is argued that the executive mansion is no proper place for business; that the eastern portion of the house, now occupied by the clerical force, should be turned over to the family of the president, and that the practice of presidential handshaking should be discontinued. In conclusion the writer says: "I am informed on the highest authority that the president contemplates taking the whole south front first floor of the state department for executive business offices and establishing a routine of office hours."

Col. John Wilson has had the plumbing of the White House thoroughly examined by expert plumbers, and it is pronounced to be in excellent condition.

BIDDEFORD, Me., April 15.—Mrs. Frank Kenny, of Portsmouth, N. H., has had a curdler cancer, and is in a poor medical treatment, and has disappeared from her stomach a light colored snake twelve and three-eighths inches in length. It had been there since August, 1886, when at a camp meeting in Alton Bay, N. H., she swallowed it in water from a brook. Mrs. Kenny has been a devoted Christian, but stoutly insisted that something moved within her. Her relief is confirmed, her health is restored and she is going home happy. The reptile was dislodged by means of a powerful drug. Several persons were witnesses of the operation.

Don't Like Commissioner Bates.

BERLIN, April 12.—The Cologne Gazette advises President Harrison to reconsider the nomination of Mr. Bates as United States commissioner to the Samoan conference, and in the course of a long editorial on the subject, says: "In Europe it is not the custom that a political agent previous to his departure on a mission should announce to the world in a newspaper, as Mr. Bates did, his views on the disputed questions with which he is about to deal in a diplomatic capacity. American, however, have the way of their own in diplomatic matters, and the old world will have to get accustomed to the ways of the new world."

Mr. Dixon will be only 40 when he takes his seat in the senate, and will be the youngest member of that body. He is a state senator, and has been a member of congress. His grandfather was a United States senator, and his father was for ten years a member of the national house of representatives.

High License for Delaware.

DOVER, Del., April 11.—The house passed with only one dissenting vote the W. E. Davis high license bill, which has been substituted for the Pickett mixed high license and local option bill, which had been pending for over two months past. The Davis bill fixes the license fee at \$500 for cities of 10,000 inhabitants and over; \$300 for towns of 2,000 and over; and \$300 for rural districts. The senate passed the Donohue constitutional convention bill. It calls for another election on the third Tuesday of next May.

A Chicago Ballot Stealer Convicted.

CHICAGO, April 11.—William Wilson has been convicted of the charge of stealing the ballots of the Eighth precinct of the First ward just after they had been counted on election night a week ago and was sentenced to 300 days in the county jail. Judge Prendergast before sentencing Wilson said: "The result of the ballot box stuffing in the Fourteenth ward some years ago, which the common council refuse to rectify, was perhaps the most potent factor in bringing about the Haymarket riot of May 4, 1886."

A Bonapartist Banquet at Versailles.

PARIS, April 15.—At a Bonapartist banquet held at Versailles last evening M. Loguerre read Gen. Boulanger's manifesto, and in a speech contrasted the doings of the sham Republicans of the present with those of the Republicans of 1789. The centennial anniversary of the acts of the latter, he declared, must witness the completion of the reforms then initiated. M. Loguerre and Herisse were arrested on leaving the banquet, and subsequently released.

Survivors of the Samoan Disaster.

SAN FRANCISCO, April 15.—The steamer Alameda, from Sydney, N. S. W., brought to San Francisco a number of survivors of the naval disaster at Apia, Samoa. The mails she brought give the details of the terrible affair. MANHOOD

How Lost, How Restored!

Just published, a new edition of DR. CULVERWELL'S CELEBRATED ESSAY on the radical cure of Spermatorrhoea or Impotency induced by excess or early indeliberation. The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' practice that the alarming consequences of early error may be radically cured; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land. Sent under seal, in plain envelope, in address post paid, on receipt of four cents or two postage stamps. Address:
