The seriously injured are:

J. L. Hartt, of Boston, Director of the Chicago, Kansas and Western Railroad, a branch of the Santa Fe system, badly burned about the feet, legs, arms and head.

Mrs. J. L. Hartt, the former's wife, whose injuries are similar.

Henry W. Lamb, of Brookline, Massachusetts, seriously scalded about the arms and head.

P. L. Palmer, brakeman of the freight train, seriously scalded.

Henry W. Faulkner, of Detroit, who was a passenger on the wrecked train, thus described Mr. Lamb's grief at hearing of the death of his betrothed: "I was in the sleeper 'Santa Anna,'" said Mr. Faulkner, "when I was awakened, doubled up in my berth, and I feel now like I had been broken in two, I could hear a prodigious uproar outside and the sound of escaping steam. I dressed as fast as 1 could and got outside. Some of the train men and passengers were at work in the wreck and pulled out a young man, whose name I afterward heard was Lamb. He was groaning pitifully. I got a mattress from the sleeper and we lifted him to it as gently as we could, "Oh! where is Allie?" said he, rising up suddenly. The police with difficulty repressed a crowd of 300 or 400 people who jostled and pushed each other to see the sorrowful sight of human beings scalded. The diagnosis at the hospital showed that Mr. Hartt's legs, right arm and face were grievously scalded. Mrs. Hartt's injuries are almost identical, although she has, in addition, a large burn on the abdomen. Mr. Lamb's legs, face and hands are very badly burned. The injuries of brakeman Palmer are very similar. The other inured trainmen were cared for at Lorento. Dr. Winfield Hall, of the hospital staff, says the injuries of Mr. and Mrs. Hartt are dangerous, There is congestion of the internal organs, and he fears that pneumonia, no uncommon sequence of severe scalds, may set in. The cases of Lamb and Palmer are by no means serious. Dr. J. J. Ransom, the Chief of the Medical Department of the Santa Fe Railroad, takes a more hopeful view. He made a thorough examination of Mr. and Mrs. Hartt, and thinks the recovery of both assured unless there be unusual developments not indicated by present condition. The victims are all under the influence of morphine, and visitors are strictly excluded. Mr. Hartt, when brought to the bospital, was but vaguely aware of the death of his son, not being sufficiently conscious to realize what had happened. He talked incoherently of his boy, and at intervals called his name. Mrs. Hartt does not know that her son is. dead. Mr. John F.
