Concord, N. H., Sept. 3, 1887

In my own family athlophoros was used as a last resort, the user having suffered from rheumatism for years and having been treated for the disease by different physicians in this State and Massachusetts without even temporary relief. Upon my recommendation scores of people have used this remedy with the same results claimed for it.

ICE JAMMED IN JUNE.

The Ivigtut's Struggle Through a Sea of Ice.

FORTY-SEVEN ICEBERGS SIGHTED.

The American Bark Ivigtut Arrives in Philadelphia After a Very Frigid Passage from Greenlan -Hemmed in by Glittering Monsters-Twenty-five Seen in One Day.

PHILADELPHIA, July 27.—The American bark Ivigtut, Capt. Andersen, the third craft of the Greenland fleet to arrive here this season, came into port at an early hour. She is from the port of Ivigtut, a small settlement on the south-west coast of that distant and lonesome land and encountered a remarkably stormy and perilous passage, occupying in all forty-eight days, during which forty-seven icebergs were passed.

Fast Jammed in an Ice Pack. She finished loading and made sail from Greenland on the morning of June 6. It was a regular winter day, a blinding snow storm with high winds prevailed, and the crew's sufferings from exposure to the elements were almost intolerable. After leaving, the Ivigtut became fast jammed in an ice pack, the area of which could not be determined from aloft. As far as the eye could reach nothing but a long waste of thickly packed ice could be seen. Little or no headway could be made. It was first thought the vessel was too frail to stand such a terrible pressure, but the courageous captain, who had served many years as an Arctic whaler, was too proud to give up and determed to work his way through the obstruction.

Seven Days and Nights. For seven long days and nights, amid great sufferings, the battle with the ice continued and finally the neat and staunch craft found herself gliding through clear water once more. On the following day the thermometer gave in-dications of ice again and it was but a short time until twenty-five tremendous glittering monsters loomed up in full view. The sight they presented is one seldom seen even by the Arctic whaler and it required good seamanship to guide the vessel through the open spaces to avoid coming in contract with them. On the 15th seventeen bergs equally as large were sighted and on the 16th five were seen.

A Cold Season in Greenland. Favorable winds carried the Ivigtut beyond further obstructions of the kind and despite her unusual experience she now lies docked near the Greenwich piers without a scratch. The appearance of the crew itself tells the story of their passage. All are terribly weather beaten, but are ready to undertake the voyage again. The season has been a remarkably cold one in Greenland, although the winter did not set in until New Year's day. The ice in the flord has been three feet thick, while heretofore it has never reached twenty inches.

Rhode Island's License Law. PROVIDENCE, July 25 .- The state senate has passed the license bill from the house with several amandments, chiefly resenting the difference of opinio between the Republican senate and the Democratic house. A clause prohibiting the keeping of a saloon within 400 feet of any school house was inserted, as were also clauses vesting the power of appointing house commissioners in the boards of aldermen instead of the mayors, and providing that one-half of the license fees shall go to the state. The retail license fee was made \$500 instead of \$400 for Providence and \$400 for all other cities and towns. A license fee of \$25 is imposed on druggists. A hot fight in the house on the amendments is anticipated.

Foundation of That Corean Yarn. San Francisco, July 25.—The report from Washington that Mrs. H. G. Heron, an American missionary in Corea, had been condemned to death at Seoul is believed to have originated in a circumstance which recently befell Rev. H. G. Underwood, an American missionary, and his wife in Corea. A Mr. Underwood was recently married at Seoul to an American lady named Horton. They went into the interior on their bridal trip and were mobbed in several places on account of their religi-ous belief, but finally returned to Seoul in safety.

The Horrible Holocaust at Lu Chow. San Francisco, July 24.—The steamer Belgic from Hong Kong and Yokehama arrived. She brings advices as follows. A recent fire at Lu Chow destroyed 87, 000 houses. Nearly 170,000 people were made home-less and at last accounts were camping out without shelter and were dying at the rate of 100 a day from want and exposure. The authorities were providing for their necessities.

CHARLOTTE, N. C., July 25.—The mur-der of Col. Roger Page, editor of The Times Register, at Marion, causes great excitement in the vicinity. The man who shot page is Edward Brown, aged 20 years, son of a wealthy farmer. He fired five shots from behind. It is said that young Brown objected to Page's attentions to his sister, Mrs. Dr. Butt. Page was 50 years old and recently came from Virginia. He was a relative of

A CAVE IN AT SCRANTON.

People Living Over a Mine Have a Bad Scare.

SCRANTON, Pa., July 25 .- The periodical shake up to which the west side of Scranton is subjected by the giving way of the roof in the mines occurred terday when the people living on Hyde Park avenue and Twelfth street, be-tween Division and Luzerne streets, were aroused by what they at first believed to be an earthquake shock. Many of them ran into the streets, but others were kept within the houses because the doors had been mans fast by the con-vulsion. A great deal of damage was done to dwellings, barns, streets and gardens. Some of the houses will have to be rebuilt, as the foundation walls were crumbled, the plastering ripped off and the wood work twisted and cracked. The cave in occurred in one of the chambers of the central shaft.
