A New Way to Make Butter

The Albany (N. Y.) Express says: "A woman in West Nyack has made a discovery which, if it can be put in successful operation, will result in the abolition of the old method of churning, and revolationize the art of butter making. The discovery was purely accidental, and the discoverer, who has experimented with her new method many times, believes in it thoroughly. She put the cream of several days milkings from her pet Jersey cow in a thick cloth one day, and as it was too warm to churn, placed the bag in the ground in a cool place, throwing a shovelful of earth over it so that the cat could not get at it. She left it there until she came home next day. When she took the bag from the ground she found the cream had turned to a great yellow lump of butter, and the only thing left for her to do was to salt and work it. The buttermilk had entirely disappeared, and there was about a third more than the usual amount of butter obtained by churning. She has tried the experiment a dozen times since, and always obtained better butter than by churning. The only exception was one time when the rain soaked into the ground and mildewed the cream. cider press with a capacity of over 100 Who of the Reporter readers will try barrels per day will be put up this fall at this and report results?

Tally-Ho!

A tally-ho coach passed through here last Tuesday afternoon, from Lewistown, drawn by four horses, and returned again about 9 in the evening, probably having gone as far as Bellefonte. The coach looked like one of Waddy Gras ham's coaches that were so common in this section before the days of our rails was similarly made up. The crowd was merry and on a trip in imitation of the travel of ye olden time. There was one thing that was not on the program, the coach did not stop, as of old, at our post offices to have the mails changed, although there were half dozen makes aboard. Now we dont want a libel suit for this pun on males and mails. All on board, males and females, were merry and seemed to enjoy the ride while some and fracturing his skull, from which he of our 5 to 20 year olds were afforded an opportunity of seeing how passengers traveled before we had the iron horse.

The News says the funeral services on Saturday over the remains of the late Judge John Irwin, Jr. were very largely attended. It was conducted according to the custom of the Society of Friends. any one felt inclined to say a word of exortation or advice, they were welcome to do so. At the expiration of a few moments of silence she uttered a most beautiful petition, and followed it with the reading of a selection of scripture and the delivery of an eloquent and impressive address. Her voice is strong and melodious, full of expression and power. Her thoughts are fine and her language excellent. The funeral cortege moved to the Howard Street Cemetery, where the Judge was laid near his wife.

The band festival at Spring Mills, was argely attended by folks from the vicinity, Centre Hall and Millheim, besides a special train of four cars, filled with excursionists from Bellefonte, which are rived there in the evening.

Fun at Spring Mills.

The band was favored with a fine day and bright evening and had its work for the occasion well laid out, and they scooped in a goodly number of sheckles. Landlord Ruhl did a brisk business, furnishing a good square meal for all who wished it, and kept a careful bar, in order to avoid drunks. Davy keeps a good house and is always strict in his observance of the law.

There were several dozen private taverns in the Bellefonte crowd, and some of the lads were well filled with electricity, and on the return of the special train here were several disgraceful fights on board. Some youngsters felt as though they could lick all the United States, in-

cluding slugger John L. The festival proper was well conducted and any disorder is attributable to the unlicensed pocket bars which can't be avoided at such gatherings.

The largest attendance was at night; Fellows with their sweethearts, from mountain and valley were as plenty as huckleberries, and as usual, ginger cakes disappeared by the cord, waters melons by wagon loads, and ice cream by the barrel. The boys certainly did the square thing by their girls, you bet. One amusing incident occurred while a -Several men are at work on the fellow and his girl started home about road between town and station, making 9.30. Before they got 100 rods they needed repairs.

> "Goodness, John," screamed Sallie, "mer sin yo fum weg, ich bin iwer mi schu im swam."
