HASTINGS VISIT'S QUAY.

Belief That the General Is the Senator's Man for Governor.

HARRISBURG, Aug. 31.-Adjt. Gen. Hastings came in from the west after spending two days at Beaver as the guest of Senator Quay. He is recover-ing from his arduous labors at Johns-town, and seems to be in excellent by Dr. Lee Crosby, the homœopathic town, and seems to be in excellent health. Today he will leave for his home at Bellefonte. Yesterday after-noon he went to Williams' grove, where he was booked for a speech. Gen. Hastings was reared on a farm, and is not a stranger to agricultural pursuits, so that his talk should be interesting. Among politicians have his rist to

Among politicians here his visit to Senator Quay is regarded as very sig-nificant. It is looked upon as a con-firmation of the report that the national chairman is not committed to Senator Delameter for Governor, and as an indication that Gen. Hastings is the com-ing man. He has many friends who have been urging him to announce himself, but up to this time has steadily refused to talk about the matter. Mayor Fitier's favorable attitude has also had the effect of strengthening the Hastings undercurrent here and elsewhere.

OVER NIAGARA FALLS.

C. D. Graham Successfully Shoots the Cataract in His Barrel-No

Desire to Repeat It.

NIAGARA FALLS, N. Y., Sept. 2.-Very early yesterday morning it was reported on the street that C. D. Graham had made his long contemplated trip over the Horse Shoe falls. Less than a dozen are willing to testify that the trip was squarely made, while the barrel, which could be seen in the eddy below the falls, where a boat could hardly reach, is offered as evidence.

Graham, who is in bed at Horne's hotel, and some of the party who claim to have seen the trip tell the story as follows

Preparations for the Feat.

The barrel, which is the one in which he made his trip through the Whirlpool rapids last Sunday, was taken across the bridge about 3 a. m., and launched just below Chippewa creek. Considerable work had been done on the barrel since last Sunday in the way of padding. Two sand bags had also been strapped to the bottom on the inside. The barrel was towed out into the river by Garry Staley and Andrew Aden, reputable citizens of Niagara Falls. The man hole was packed to make it water tight and when the cover was shut down it was fastened on the inside and two bars placed over it and secured by a spring lock. Over the Falls.

At 6:45 the barrel was cut loose and after taking a passage similar the one of two weeks ago, was seen to pass over the falls about 200 feet from the shore at 7:10 o'clock. It was out of sight a little over a minute and come out from under the falls right side up and drifted into one of the eddies.

Elmer Jones, an expert swimmer, swam out and brought in one of the lines attached and with the assistance of Mr. Cabill pulled the craft ashore, when it was opened at 7:35 o'clock, having been closed about fifty minutes.

Graham's Account of It. Graham says of his trip: "The ride through the rapids is as nothing com-pared with it. The rapids, before reach-ing the brink and which looked so small from the shore, are not at all pleasant. I could not realize just when I reached the brink, for it seemed as though I can employ to frustrate her determina-tion to satisfy her revenge will avail, is the falling sensation and I knew I was

Ball Refused.

The public prosecutor refused to admit Mrs. Hamilton on bail because the physician's certificate did not positively state that Mrs. Donnelly was out of danger, but that she was "reasonably so." The county physician, Dr. Reilly, visited the patient later, and will make an official report. There is a rumor that Mr. Hamilton will visit the jail and be married to the prisoner, in order to settle the question of relationship and be
