

FARM NOTES.

THE matter of applying manure is one that is more difficult for the farmer to determine than many others, as he must consider the condition of the manure, the kind of soil and the nature of the crops to be grown on the land next season.

It is not as easy to keep apples now as when the weather is cold. Sudden changes will effect them if they are not stored in a cool place at present.

THE BEAN REMEDY FOR POTATO BUGS.—A western farmer writes an item that was extensively published last season, to the effect that a bean seed in each potato hill would keep away potato beetles.

CARBONACEOUS food should be fed, when they are required, in preference to the foods that are nitrogenous. Brain, which is a food rich in phosphates, is one of the best foods to accompany all others.

THE newly introduced bees, the Carniolans, seem to be growing in popular favor. An old beekeeper, who has tried all sorts of bees, has tried the Carniolans for two seasons, and says he finds them always ahead with a nice crop of surplus honey.

THE greatest problem confronting every breeder of improved stock is that of being able to duplicate it with the animal he has chosen for his model, and not until we produce a cow combining those qualities can we congratulate ourselves on having a model butter cow.

CORN put in the silo makes a great deal better feed than hay, and makes as good butter as ever was made in June, and the change from summer to winter dairying costs almost nothing.

AMONG small plants no cultivator is better than a good sharp-toothed rake. Stir the surface every few days with this, and the labor and cost of cultivation will be reduced by half.

Those who practice artificial incubation claim that October is the time to begin work for a winter supply of broilers. Last season, the early broilers brought the best prices, and this is encouraged incubator operators to begin work a month sooner, as boiler-raising is a winter pursuit.

A CORRESPONDENT wants to know if there is any truth in the assertion of an agricultural paper that the potato will soon run out. You must believe all you read. A good deal of potato "rot" is printed in farm journals.

HOUSEHOLD.

SWEET PICKLES are really more wholesome than others. Why? Because they are often made of fruit which in itself is a desirable article of diet and when pickled is softer and less crisp than cucumbers or other sour pickles.

PRESERVED GINGER.—As you pare the roots of the green ginger throw into cold water. Boil until tender, changing the water three or four times.

ONE of the simplest, quickest and yet most delicious ways of cooking oysters is the "Dry Stew," or panning them. Wash thoroughly and allow to drain in a colander five or ten minutes.

ESCALLOPED OYSTERS are very popular. Have your cracker crumbs rolled fine, and put them in alternate layers with the oysters, seasoning slightly with salt and pepper, but be liberal with the butter; be careful not to have the layer of crumbs very thick, as they will absorb all of the moisture of the oyster, and make them too dry.

CARAMEL FOR SOUPS.—One pint of water, half pound of brown sugar. Put just enough water with the sugar into a saucepan to keep it from burning.

CHICKEN AND OYSTER SOUP.—Cut up a chicken and put it on to boil with three quarts of water; cut up a small onion, fry it in a little butter and add it to the soup with a little parsley.

BROWNED BEAN SOUP.—Soak a quart of beans all night; in the morning boil them until soft, but not to breaking; put into a bean pot or deep pudding dish with a half pound of parboiled salt pork and bake to a fine brown.

CHOCOLATE CAKE.—Beat up a quarter-pound of castor sugar with two eggs, then add very gradually the yolks of six eggs, two small cakes of chocolate grated, a little lemon peel, one-quarter pound of ground almonds, the whites of six eggs previously whisked to a stiff froth and one ounce of flour; pour the mixture into a buttered mold and bake.

SUMMER SQUASH.—Cut the squash into quarters, remove the seeds and skin, cover with salted boiling water and boil until done. When cooked mash the squash and add one ounce of butter for each small one. Moisten with gravy or broth and put in little pans or dishes; cover with bread crumbs, place tiny bits of butter on top and bake a delicate brown in a brisk oven.

Ivory ornaments, unless carefully cared for, become yellow. They are very easily cleaned, and with a little trouble will look fresh and retain their lustre for a long time.

A little alcohol poured upon the brush will increase this luster. If the trinket has become very yellow dry in a gentle heat. The yellow will soon disappear and the ornament look as good as new.

CORN for the silo may be planted this month, provided the early varieties of sweet corn be used. Land that has produced a crop of early potatoes answers well for sweet corn, but plenty of manure should be used.

WHEN a horse with a heavy load stops to rest do not start him again until he has had plenty of time to recover his strength. Some horses will s'ow an inclination to proceed after they have thoroughly rested.

A. R. WHITNEY, of Franklin Grove, Ill., says that for many years he has planted only top-grafted trees, his experience having shown that on the average they bear ten times as much fruit as root-grafted trees under the same conditions of treatment.

It Don't Pay to experiment with uncertain remedies, when afflicted with any of the ailments for which Dr. Pierce's Golden Medical Discovery is recommended. It is so positively certain in its curative effects as to warrant its manufacturers in guaranteeing it to benefit or cure, or money paid for it is returned.

Don't hawk, hawk, blow, spit, and disgust everybody with your offensive breath, but use Dr. Sage's Catarrh Remedy and end it.

To keep good actions in memory refresh them with new.

A man who has practiced medicine for 40 years ought to know salt from sugar. He says:

TOLEDO, O., Jan. 10, 1887. Messrs. F. J. Cheney & Co., Toledo, O.—I have been in the general practice of medicine for more than 40 years, and would say that in all my practice and experience have never seen a preparation that I could prescribe with as much confidence of success as I can Hall's Catarrh Cure, manufactured by you. Have prescribed it a great many times and its effect is wonderful, and would say in conclusion that I have yet to find a case of Catarrh that it would not cure, if they would take it according to directions.

Yours Truly, L. GORSUCH, M. D., Office, 215 Summit St., Toledo, O. Sold by Druggists, 75c.

Silks and satins put out the kitchen fire.

Catarrh is caused by serofulous taint in the blood, and is cured by Hood's Sarsaparilla, which purifies and enriches the blood and gives the whole system health and strength. Try this "peculiar medicine." It is prepared by C. I. Hood & Co., Lowell, Mass.

Wit is folly, unless a wise man hath the keeping of it.

FRAZER AXLE GREASE. The Frazer Axle Grease lasts four times as long as any other. Use it, and save your horses and wagons. A trial will prove that we are right.

Wrong no man.

You wear out clothes on a wash board ten times as much as a body. Use J. Wash's Wash Boards. Buy them at once. Made ever since 1864. Don't take imitation. There are lots of them.

Confide in few.

We recommend "Tanall's Punch" Cigar.

FLORAL NOTES. The lover of flowers is now interested in increasing her stock as well as keeping them in a healthy condition, preparatory to winter.

In regarding to roses it may be said that while some of the hardy roses can be propagated in the open ground, rooting in pots under a bell glass or similar arrangement of glass is the surest and speedier method for cuttings of Bourbon, Noisette and tea roses.

THE BEST OF THE CURRENT ANECDOTES PACKED IN ONE BUDDET.—He turned sternly from the slight, quivering figure, convulsed with sobs, and leaning his elbows on the mantelpiece, gazed darkly into the empty grate.

"Then it is true?" he said, as the frown deepened on his brow. "Forgive me!" she sobbed, rocking to and fro in her grief and abasement.

"But you told me you had never loved before—that no man had ever stirred your heart."

"Not as I have loved you," she cried wildly. "And yet you admit that you were engaged to Ferguson, of the Class of '87?'"

"Yes," she murmured. "And that before that you had an understanding with Williamson, of '86?'"

"Yes." "And with Graham, of '85?'" "No, no," she cried, "not with him; with both his brothers in the Sheffield Scientific, but not with him."

"But you were engaged to biddaman, of '85?" he went on, referring to a letter in his hand. "Can you not forgive me?" she pleaded.

"I could, Clara," he said, after a pause. "I believe I could bring myself to it if that was all. But you were also engaged to McHaffy, of '84?'" "Ah!" she cried feebly, "do not spurn me from you!"

"What have you to say for yourself?" he demanded hoarsely. "Speak, woman!" she rose to her full height and looked at him with a pathetic dignity in her glance.

"Ah, George," she said, "you little know the exigencies of a young girl's life in a college town."

For an instant he hesitated, as if his better nature moved him, and then he turned toward the door. "Farwell!" he said, and walked rapidly away.

Indisputable Evidence.—De Lolie—"Where do you intend to spend your vacation?"

De Lolie—"I am going to our milkman's dairy farm. There is the finest kind of fishing in that neighborhood."

"Huh! You don't take his word for it, do you?"

"No, indeed. We've found young trout in his milk."

Knowledge Costs Money.—Irate Patron—"See here, sir, I dropped a nickel into this machine, and nothing came out."

Agent—"If nothing came out, that shows it's empty."

"But, sir, what do I get for my nickel?" "Information."

The one prudence in life is concentration; the one evil is dissipation; and it makes no difference whether our dissipations are coarse or fine.

Some Foolish People Allow a cough to run until it gets beyond the reach of medicine. They often say: "Oh, it will wear away," but in most cases it wears them away. Could they be induced to try the successful medicine called Kemp's Balsam, which is sold on a positive guarantee to cure, they would immediately see the excellent effect after taking the first dose. Price 50c. and \$1. Trial size free. At all druggists.

Catarrh in the Head

Originates in serofulous taint in the blood. Hence the proper method by which to cure catarrh, is to purify the blood. Its many disagreeable symptoms, and the danger of developing into bronchitis or that terribly fatal disease, consumption, are entirely removed by Hood's Sarsaparilla, which cures catarrh by purifying the blood; it also tones up the system and greatly improves the general health.

For 25 years I have been troubled with catarrh in the head, indigestion, and general debility. I never had faith in such medicines, but concluded to try a bottle of Hood's Sarsaparilla. It did me so much good that I continued its use till I have taken five bottles. My health has greatly improved, and I feel like a different woman." Mrs. J. B. ADAMS, Newark, N. J.

"I have used Hood's Sarsaparilla for catarrh with very satisfactory results. I received more permanent benefit from it than from any other remedy I ever tried." M. E. HEAD, of A. Read & Son, Wauson, Ohio.
