Mrs. Meyer, too, has proven a model landlady, and she and her department will ever have a pleasant remembrance with all who were her guests.

—Aitch is the name of a post office in Huntingdon county. The origin of its name is of a somewhat curious nature. However it arises from civilized sources. It may puzzle some of the commentators when they endeavor to search for its origin. You might search all the foreign anguages in the world and still not be able to discover it This is how it was christened: There were five prosperous farmers in that portion of the county where the post office is now, and their names were Anders in Isenberg, Taylor, Crumm, and Henderson. Each of them wished the office to be named after himrelf. But they could not come to an agreement, and finally as a compromise, the first letter from each name was tak a sea thereby extensive after.

A Lost Art.

Snowballing is one of the lost arts. It s a thing the boys of our day have no knowledge of. History may record it as Illinoisward. a favorite pastime of the large and small boy, many generations ago. It always was indulged in in what was then called winter time, and is said to have afforded a great deal of sport. What was known as snow—we do not have it in these latter days—was pressed in the hands in the shape of a large sized apple, white, not the apple, but the snow ball. This than a bespattering of the person hit with the white substance, and the laugh would come in on the person hit. School boys often had sham battles with balls; even men and women sometimes indulged in this innocent sport. We have not the space to spare in the RE-POBTER to write this anceint sport of the young, of which our boys of this age, know nothing—it is a a lost art, and instead of snowballing we can boast, however of having the base-ball matches, which perhaps, are as amusing as was snow balling of away back.

An Old Custom.

In looking over old records and the files of old newspapers, we have discovered the remarkable fact that there used to be snow in this country, and that the people greatly enjoyed themselves in what they called the winter season in sleighs, which instead of running on wheels, slid smoothly over the frozen snow. The horses attached to said vehicles carreid strings of bells around their necks and front and over their backs and buffalo robes were used to keep the sleigh-riders warm.
