A DOUBLE EXPLOSION

Deals Out Death and Destruction with Dual Force.

AN APPALLING LIST OF VICTIMS.

A Building Shattered and the Occupants Blewn Acress the Street-A Crowd of Spectators Engulfed in a Quickly Succeeding Explosion-A Runaway Team Dashing Through the Throng Adds Terror to the Scene-Rescuing the Victims-Pathetic Scenes-List of Those Killed and Wounded.

COLUMBUS, O., Jan. 25.—There is a scene of death and destruction in this city, whose horrible features and sickning details are surpassed only by the Johnstown flood. Never in the history of Ohio has such a dreadful disaster occurred as that which sent thrilis of horror through the thou ands who wit-nessed it last night. A double explosion occurred, and it dealt out death with

tual force. A few moments after 5 o'clock an alarm of fire sounded, calling out the entire department. The streets were thronged with the thousands of toilers who were returning to their homes from workshops and factories, and quickly spread the news that a frightful calamity had happened in the southern part of the city. The streets leading to the section were soon crowded with people going to the scene. Their pres-ence there heaped horror upon horror as will be seen later on.

A Natural Gas Main Explodes. An explosion had occurred at the double residence of Michael Bowers and John Marriott, at the corner of Wall and Noble alleys. The cause of the calamity was an accumulation of natural gas in the cellar of the house referred to. The city has recently been supplied with natural gas, and leading past the house occupied by Marriott and Bowers is one of the mains through which the commodity is furnished to the public. The pipes had leaked and the explosive fuel had found its way through fissures in the ground to the cellar, which was the seat of the horror.

It became ignited in some unknown manner and exploded with terrific force, wrecking the building and filling the air with debris.

Blown Across the Street. Mrs. Marriott was blown out of the house and a man named Goulding, who was near the structure, was blown across the street. Mrs. Marriott was carried across the street and into the ing destroyed comprised the paint shops, storage building for supplies and machine shops and contents. The fire is believed to have originated through was called to attend her injuries. The house where the injured lady lay was soon crowded with people attracted by the accident and it was soon necessary to close the doors that no more might

> Little knew those scores of spectators huddled around the sufferer that they were standing in a death trap which was then on the verge of carrying them into eternity.

A Second Explosion. stillness reigned for a moment. It was broken by shrieks and death groans. The house in which lay the powerless form of Mrs. Marriot had been blown to atoms and its occupants buried be bright 5-year-old daughter of Samuel neath the wreck. Hundreds of spectators who lined the sidewalks were knocked violently down by the shock and laid powerless.

Then to cap the climax a team of spirited horses attached to one of the fire department ladder trucks became frenzied by the explosion and dashed away into the crowd carrying death in their way. They ran over and injured scores of people. A beautiful little babe was knocked from its mother's arms and falling beneath the merculess wheels of the vehicle, was crushed to death

At Work in the Ruins. As soon as the maddened steeds had disappeared in the darkness many of the spectators and firemen, who had been uninjured by either of the horrors, turned their attention to digging out the persons buried beneath the ruins of the house. Guided by the cries and moans of the mangled and dying, men groped in the darkness, pulling out a dead body here, a mangled yet living form there, and conveying them to rest

Groups of men, women and children gathered around the prostrate forms and blood curdling shrieks made the awful scene more revolting as friends recognized friends injured or dead, par-ents found their mutilated children and vice versa.

It required several hours to remove all the dead and injured from the ruins, and it is not yet known who, or how many are the victims.

Following is the list of killed and wounded so far as ascertained:

BURNED IN THE WRECK.

Seven Killed in the Monon Railroad Disaster-The List of Injured.

CHICAGO, Jan. 28 .- Additional particulars of the accident to the passenger train No. 1, on the Monon route, wrecked near Carmel, Ind., add two more to the list of those killed, while the list of those injured will probably be increased.

The train was running at a rapid rate and was approaching the long trestle across Wilkerson creek when the tender of the engine jumped the track.

The engineer reversed his engine, but before the air brake could check the speed of the train the locomotive and baggage car had cleared the trestle, but the sleeping and smoking coach went over into the creek, both taking fire almost immediately and being consumed in a remarkably short time.

Those who escaped uninjured busied themselves in digging out the dead and injured from the wreck, but before this could be accomplished the heat of the burning cars became so intense that they had to withdraw.

Following is a list of the victims:
Killed—J. N. Deming, Sheridan, Ind.;
Mrs. Eubanks, Broad Ripple; two children of D. S. Oldham, Sheridan; one unknown woman. Mrs, Oldham, Miss Mary Hoover.
Injured — J. D. Pearson, Sheridan,
Ind.; H. C. Miller, New York city;

Louis Newman, George Munser, Charles G. Wirt, Frankford; B. S. Whitsett, In-dianapolis: M. B. Ingersoll, of Detroit; J. P. Altzier, G. W. Stingel, Rossville; Harry Angle. Investigation reveals that the accident

was due to spreading of rails about 150 feet from the trestle.

It is true that Wilkes, the leader of the anti-Lithuanian faction, who strangely enough is not a Catholic like the others, but who is the leader of the disturbing element, as soon as he was released on bail, went | The Times to Plymouth swearing that if the bodies of the children had been buried in the Polish cemetery, of which he is sexton, that he would have them dug up at all

hazards. Upon his arrival there he organized a mob of resurrectionists, and, placing himself at their head, marched to the cemetery. The graves were attacked and the earth above the coffins removed. But the approach of a funeral procession interrupted further desecration, and led to the flight of those engaged in the business. The bodies were not mutilated or removed from their sepulchre. PHILADELPHIA, Jan. 17. - During confirmation services at at.
